E. NARRATIVE/REMARKS/COMMENTS

THIS SYSTEM USES A LARGE GAS POWERED MOTOR OF AROUND 60 HP TO PUMP WATER FROM A DYNAMIC LEVEL OF 45' UP A 75', 12" CASING. THE STATIC WATER LEVEL IS 17' SO THE DRAW DOWN IS ONLY AROUND 28'. THE SYSTEM IRRIGATES THROUGH 1" HAND TUBES. THE SYSTEM IS ABLE TO RUN AROUND 75 1" TUBES. THE OWNER'S FLOW METER READ TO BE AROUND 875 gpm at the time of the exam.

NOTE: THE PUMP FOR THIS SYSTEM IS NOT LARGE ENOUGH TO HANDLE ALL OF THE HP OF THIS SYSTEM. THE OWNER HAS PREVIOUSLY MEASURED THE SYSTEM (THROUGH MEASUREMENT PORT) TO BE AROUND 875 gpm, THIS SEEMS TO BE MUCH MORE ACCURATE THAN THE EXAMINERS ONLY AVAILABLE METHOD AT THE TIME OF THE EXAM (THEORETICAL).

* Overlaps are either WEISER IRRIGATION OR THE DICK'S domestic which is from a different source for a different use

MEMORANDUM

To: File 67-07858
From: L. Glen Saxton 
RE: PHONE INQUIRY ABOUT FLOW MEAS. PORT INSTALLATION
Date: March 18, 1992

I discussed the permit holder's system today with him by telephone and determined that he does not have enough distance from bends etc. in his piping system to install a flow measurement port in compliance with the recommendations of the department.

I advised him that he need not modify his system, since the department likely can waive the installation of the port in compliance with Application Processing Memo No. 51. I also said I would place a memo in the file to reflect our phone conversation.

He has sent the proof.

PROOF DUE NOTICE

RE: PERMIT NO. 67-07858

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before May 1, 1992.

(See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Karen L. Gustafson
Secretary/Records Manager

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Enclosed is a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed is a form entitled "Proof of Beneficial Use". If your project is already completed you should complete and submit this form immediately.

Be sure to note the special condition requiring you to install a measuring device. Enclosed, for your reference, is a list of measuring device options.
