RE: Permit No. 67-07847

Dear Mr. O'Hara:

I received your letter regarding the Proof of Beneficial Use fee. Yes, your assumption is correct that it would be advisable to pay the \$75.00 fee to obtain your allowable amount of water.

The field examinations are conducted after the proof forms have been submitted. And because in many instances, permit holders are in fact using less water than their permits were issued for, the examiners do not question whether or not a fee is required.

I will hold action on processing your permit for licensing an additional fourteen (14) days to allow you to submit the \$75.00 fee. Please direct the payment to my attention.

Sincerely,

RE: Permit Number 67-07847

Dear Ms. Chapman,

Thank you for your letter of 14 December 1993 in which you call attention to an error I made on my Proof of Beneficial Use Form dated 29 November 1991.

On the form, I stated the total rate for which proof is submitted to be 0.03 CFS for 3 acre feet. I should have requested 0.09 CFS for 3 acre feet.

I apologize for this error. I realize the adjudication process is very involved and time consuming without errors of application being made by applicants.

Please advise me as to how to correct this error. Do I read you correctly when you advise me to pay \$75.00? I have had an exam conducted by an IDWR surveyor already.

Thank you for your assistance.

Sincerely,

Michael E. O'Hara

RE: Permit No. 67-07847

Dear Permit Holder:

We are in the process of licensing the above referenced water right. Because you submitted your Proof of Beneficial Use form in 1991 for .03 cfs (which required no fee), the Department has no alternative but to issue the license for less than the amount actually diverted unless the fee required for the rate of diversion for the irrigation use the examiner found is received. The amount of water to be licensed will be limited to .03 cfs rather than .09 cfs.

You can submit the additional exam fee along with a late payment penalty. The priority of the right will be advanced according to the number of days from the date of this letter to the date we receive the extra fee.

The exam fee required to cover the additional .06 cfs is \$50 and the late penalty is \$25.00, for a total of \$75.00.

The Department will hold action on licensing this right for 30 days to allow you to submit the above fees. Please direct the payment to my attention. If we do not receive them, we will proceed with licensing the water right for the limited amount of water.

Sincerely,

A handwritten signature in cursive script that reads 'Brenda L. Chapman'.

E. NARRATIVE/REMARKS/COMMENTS

This system used a 50 ft well that has a 2hp motor. The well's static water level was 35' with a dynamic of around 42' (est.) The well uses underground lines to spigots: lines to pressure tanks for the domestic.

This system is also under A67-11496. This WR# shows beneficial use for domestic purposes of $\frac{1}{2}$ acre of lawn & stockwater. This was all present. Besides the $\frac{1}{2}$ acre there was also 3.3 acres being irrigated under this well. This 3.3 acres is under WR # 67-07847.

Claim 67-11496 is for .06 cfs, system capacity is for .09 cfs, therefore irrigation cannot exceed .03 cfs; neither can the combination of stockwater, domestic; irrigation.

PROOF DUE NOTICE

RE: PERMIT NO. 67-07847

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before January 1, 1992. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Nina Shields
Secretary/Records Manager

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 67-07847

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Enclosed is a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed is a form entitled "Proof of Beneficial Use". If your project is already completed you should complete and submit this form immediately.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

JIM JOHNSON
