BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE
STATE OF IDAHO

IN THE MATTER OF PERMIT NO. 67-07844)
THE NAME OF LARRY OR EILEEN BOOTS) ORDER
_____)

WHEREAS, on August 17, 1990, the Department of Water Resources issued Permit No. 67-07844 with the condition that:

The permit holder shall install a measuring device and a lockable controlling works of a type acceptable to the Department as part of the diverting works prior to diversion of water.

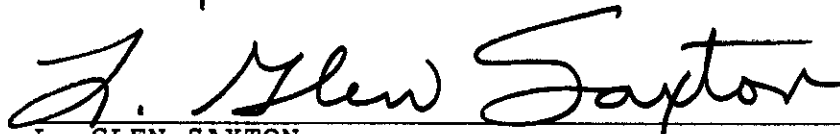

and;

WHEREAS, the Department of Water Resources has determined that the compliance with this condition of approval is not required at this time;

IT IS ORDERED that this condition of approval on Permit No. 67-07844 is REMOVED.

IT IS FURTHER ORDERED that the Director retains jurisdiction to require future installation upon a finding of need.

Dated this 4th day of December, 1991.

L. GLEN SAXTON
Chief, Water Allocation Bureau

RECORDED

DEC 27 1991

State of Idaho
Department of Water Resources
Permit To Appropriate Water

NO. 67-07844

Proposed Priority: March 19, 1990 Maximum Diversion Rate: 2.00 CFS
This is to certify, that **EILEEN M. BOOTS**

LARRY C. BOOTS
RT. 2 BOX 2468
PAUL, ID 83347

has applied for a permit to appropriate water from:

SPRING tributary of **WEISER RIVER**

and a permit is **APPROVED** for development of water as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>
-----------------------	----------------------	--------------------------

IRRIGATION	03/15 to 11/15	2.00 CFS
------------	----------------	----------

LOCATION OF POINT(S) OF DIVERSION: NWSENW Sec. 5, Township 10N, Range 04W
WASHINGTON County

PLACE OF USE: IRRIGATION

<u>TWN</u>	<u>RGE</u>	<u>SEC</u>	<u>ACRES</u>	<u>ACRES</u>	<u>ACRES</u>	<u>TOTAL</u>

2. Source of water supply Spring which is a tributary of Weiser River
3. Location of point of diversion is NW $\frac{1}{4}$ of SE $\frac{1}{4}$ of NW $\frac{1}{4}$, Govt. Lot
Sec. 5 Township 10N Range 4W B.M. Washington County; additional
points of diversion if any:

4. Water will be used for the following purposes:

Amount 2.0cfs for Irrigation purposes from Mar 15 to Nov 15 (both dates inclusive)
(cfs or acre-feet per annum)

Amount for purposes from to (both dates inclusive)
(cfs or acre-feet per annum)

Amount for purposes from to (both dates inclusive)
(cfs or acre-feet per annum)

Amount for purposes from to (both dates inclusive)
(cfs or acre-feet per annum)

5. Total quantity to be appropriated is (a) 2.0 and/or (b)
cubic feet per second acre feet per annum

6. Proposed diverting works:

a. Description of ditches, flumes, pumps, headgates, etc. Pond with pump to gravity irrigation

b. Height of storage dam feet; active reservoir capacity acre-feet; total
reservoir capacity acre-feet; period of year when water will be diverted to storage:
 to inclusive.

c. Proposed well diameter is inches; proposed depth of well is feet.

d. Is ground water with a temperature of greater than 90°F being sought? No

7. Time required for the completion of the works and application Five years (minimum 1 year).

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. _____, and said application is hereby _____.

1. Approval of said application is subject to the following limitations and conditions:

a. SUBJECT TO ALL PRIOR WATER RIGHTS.

b. Proof of construction of works and application of water to beneficial use shall be submitted on or before _____, 19 ____.

c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.

d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.

RE: Water Right No. 67-07844

Dear Water Right Holder(s):

Department water right records show that you divert water from the Snake River or its tributaries under a water right that has a priority date later than December 29, 1976. This is the priority of the established minimum stream flow of the Snake River at the Weiser Gage (Weiser) in the amount of 4,750 cubic feet per second.

Because of the continuing drought conditions in the Snake River Basin, department hydrologists project that during 1992, there could be periods when the required minimum flow will not be satisfied due to low flows of the Snake River. The department urges you to not divert at a higher rate than authorized by your water right and to not use your right in any manner different than authorized. In addition, when the minimum flow will not be satisfied or is not being satisfied, you are required to cease diverting water under your water right, because your right is of later priority than the minimum stream flow at Weiser.

If the department determines the minimum flow will not be satisfied, the department will advise you and will provide as much lead time as possible in requiring that you temporarily cease your diversion of water. The greatest likelihood for this to occur is during a period from mid-June to late June.

While the department expects good cooperation from junior water right holders, water users should be aware that Section 42-352, Idaho Code, provides for penalties of up to \$100 per day for unauthorized diversions of water.

The department has contacted both the Idaho Power Company and the U.S. Bureau of Reclamation with respect to the timing of storage releases from upstream reservoirs for flow enhancement

purposes. This type of coordination could minimize the impact on existing water users and reduce the need to curtail diversions.

The department has scheduled public information meetings relative to this potential regulation as follows:

Mountain Home - June 4, 1992 - 10:00 a.m. - gymnasium at
North Elementary School, 290 E. 12th N.

Caldwell - June 4, 1992 - 7:00 p.m. - Ballroom in the
Student Union Building, Albertson College of Idaho,
2112 Cleveland

If you have questions concerning this letter or wish to provide the name of a different contact person or address to receive department correspondence, please contact the department.

Sincerely,

L. GLEN SAXTON
Chief, Water Allocation Bureau

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 67-07844

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the WESTERN Regional Office in Boise at (208)334-2190.

Sincerely,

Karen L. Gustafson
Secretary/Records Manager

Department of Water Resources

Dear Sirs;

In addition to submitting Proof of Beneficial Use, I am requesting that the requirement of a flow measurement device be deleted from my permit. I checked with my irrigation supplier and found that a device such as this is very expensive. And secondly, my pump, working under ideal conditions is not quite capable of pumping the amount of water my permit allows. I am submitting a factory performance chart of my pump as proof of this fact. If I ever purchased a larger pump, which is unlikely because of its cost, I could understand the need for this device. But under the present circumstances the extra cost seems to be unwarranted. I hope you that will understand my position on this matter and and grant my request.

Thank You

Larry C. Boots

RE: PERMIT NO. 67-07844

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Be sure to note the special condition requiring you to install a measuring device and lockable controlling works that will enable the watermaster to control the rate of diversion.

Please note the requirement that as a permit holder you must commence the excavation or construction of diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The enclosed blue card must be completed and returned to this office as soon as you commence construction, no later than one year from the date the permit was approved.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a license.
