E. NARRATIVE/REMARKS/COMMENTS

THIS SYSTEM USES A SPRING THAT COLLECTS WATER IN A COLLECTION BOX. FROM THE COLLECTION BOX THE WATER IS GRAVITY FED INTO A PIPING SYSTEM WHERE IT IS TAKEN SLOWLY DOWNWARD, AROUND THE HILL FINALLY DUMPED INTO A DIRT DITCH. THE OWNER HAS PUT MANY CORRIGATES INTO THIS DITCH WHERE THE WATER MAY CONTINUE DOWNWARD TO IRRIGATE THE FIELD 139 FLOODING. CATTLE GRAZING IN THE PASTURE SIMPLY DRINK FROM THE DITCH AS IT SPILLS FROM THE PIPING. AROUND 30 HEAD USE THIS SYSTEM.

NOTE: THE ACRES ON THIS EXAM WERE ESTIMATED FROM AN Aerial GRID OVERLAY. BECAUSE IT IS AN ESTIMATE THERE IS MARGINAL FOR ERROR. I HAVE ESTIMATED THE AVERAGE TO BE IN BETWEEN 37-42 ACRES. BECAUSE THE PERMIT LIMIT IS ONLY 20 ACRES THERE IS INDEED WITH AROUND THAT DECIDED I DECIDED THAT MORE INTENSIVE COMPLETE AVERAGE EVALUATION WAS NOT NECESSARY. ACCURACY WOULD INVOLVE CONSIDERABLE TIME AND PROFESSIONAL HELP BECAUSE OF THE AREA'S DIMENSIONS

* THERE ARE NOT ANY OTHER DIVERSIONS THAT USE THE SAME PIV. THIS PIV IS ONLY USED ON THIS PIV.

PROOF DUE NOTICE

RE: PERMIT NO. 67-07842

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before September 1, 1992. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Karen L. Gustafson
Secretary/Records Manager

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 67-07842

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Be sure to note the special condition requiring you to install a lockable device that will provide the watermaster control on your diversion.

Please note the requirement that as a permit holder you must commence the excavation or construction of diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The enclosed blue card must be completed and returned to this office as soon as you commence construction, no later than one year from the date the permit was approved.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a license.

Dear Sir:

Thank you very much for your response to our recent letter setting out the methods of pursuing protest to a water filing.

In view of the information further contained in your letter, we would ask that your office send us a Notice of Claim form so that we, too, might take advantage of that extra water.

We withdraw our protest against Mrs. Little.

Thank you again for your kind assistance.

Dear Applicant:

Enclosed is a copy of a protest(s) filed against the issuance of a permit pursuant to the above-referenced application. The Department suggests that you contact the protestant(s) and attempt to resolve the protest(s).

If this office has not been advised within twenty (20) days that the protest(s) has been resolved, the matter will be scheduled for a conference. At such a conference, the following are the principle items the Department will review (per Section 42-203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?
5. Will the proposed use under this permit conflict with the local public interest?

Please contact this office if you have questions regarding this procedure.

Re: Application for Permit No. 67-07842, in the Name of Barbara W. Little

Dear Protestant:

This office acknowledges receipt of your protest to the issuance of a permit pursuant to the above referenced application. The Department suggests you contact the applicant directly in an effort to determine what is proposed by the application and to attempt to resolve the protest.

If this office has not been advised within twenty (20) days that the protest has been resolved, the matter will be scheduled for conference and/or hearing. At such a conference and/or hearing, the following are the principle items the Department can consider in either approving or denying an application or permit (Section 42-1203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?
5. Will the proposed use under this permit conflict with the local public interest?

Your letter questioned why the Department continues to process applications for new water rights in situations where additional water supplies are not available. The Department does not consider the Weiser River Drainage Basin to be fully appropriated at all times of the year. There are periods during most years when unappropriated water flows through the Weiser River system to the Snake River. Some streams in the drainage have significant water right demands -- others do not. The existence of decreed water rights on a stream does not in itself indicate that the stream is fully appropriated. Please be advised that any new water right approved by the Department is conditioned to be subject to all prior water rights, under the doctrine of prior appropriation.

If this office can be of further assistance, please contact us.

Sincerely,

David R. Tuthill, Jr.

Dear Sir:

Re: Little, Barbara W.
Sec. 23, T. 17 N., R 1 WBM, Adams County, ID

With regard to Notice of Application for Water Right for the above named person and section, we wish to PROTEST such filing.

Of our own knowledge, we know that more water than ever even runs from that particular 'unnamed stream' has long ago been filed on. We paid \$331 to be allowed to file on the total sum of .012 cfs for irrigation purposes in the same section, and would have no objection to Mrs. Little having those same rights; however, .400 cfs sounds like an enthusiastic amount in the first place, and doesn't exist in the second.

Also, we would be appreciative of your Dept. answering a question with regard to "Notice of Application". Here we are in the throes of a massive lawsuit; the existing places have had to file, at exorbitant costs to some, on water adjudicated not later than 1921 -- and still your Department accepts claims for water we all know does not exist. Can you explain the thinking behind this arrangement?

Yours very truly,
