Additional Computation Sheets Attached

Measured Method:

1) Artesian with pump: assume $Z \approx 10'$, $psi \approx 20$, $eff. = .7$; $h_p = .75$

$$Q = \frac{(8.8)(.7)(.75)}{(2.31)(20) + 10} = .08 \text{ cfs}$$

2) $1\frac{1}{4}"$ pipe, expected flow where $V \approx 5 \text{ fps}$

$$Q = VA = (5) \left[\left(\frac{1.25}{12} \times 1.5 \right)^2 \pi \right] = .09 \text{ cfs}$$

$$V = \text{Smaller of } V_{I.R.} \text{ and } V_{D.R.} =$$

2. Volume Calculations for Other Uses:

To Whom This May Concern:

In regards to Permit No. P67-07839, this request for water right was to an already existing well belonging to Fern F. and David M. Yoder of Indian Valley, Idaho, which the Indian Valley Community Church was given permission to tap into, to supply water into the church for domestic use.

Mr. and Mrs. Yoder felt that the church should have a permit from the Water Resources to protect the church in case the Yoder property and well should be sold to another party in the future.

The church put in the pipe line (approximately one-eighth of a mile) and they have used the water for at least six years.

The permit to drill the well was given on April 1, 1975 and completed then.

The Yoder's permit no. A67-10455 was filed for in the 1980's.

PROOF DUE NOTICE
RE: PERMIT NO. 67-07839

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before July 1, 1991. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

RE: PERMIT NO. P67-07839

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed for your convenience is a form entitled "Proof of

Beneficial Use" that must be submitted to the Department when your project is completed. If development is complete, you may submit proof of beneficial use immediately.

Sincerely,
