CONDITIONS OF APPROVAL AND REMARKS

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.

Department of Water Resources**WATER RIGHT LICENSE**

WATER RIGHT NO. 67-07825

CONDITIONS OF APPROVAL AND REMARKS

4. Modifications to or variance from this license shall be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Use of water under this water right will be regulated by the watermaster of State Water District No. 67.
6. The right holder shall maintain a measuring device and lockable controlling works of a type approved by the Department in a manner that will provide the watermaster suitable control of the diversion.
7. This right when combined with all other rights shall provide no more than 4.0 afa per acre at the field headgate for irrigation of the lands above.
8. No water shall be diverted under this right after June 15 of each year without prior approval of the watermaster.
9. Water is injected into and rediverted from Lester Creek.
10. A measuring device and lockable controlling works of a type acceptable to the Department shall be permanently installed and maintained at the point of rediversion from Lester Creek.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code. Witness the seal and signature of the Director, affixed at Boise, this 3rd day of APRIL, 1998.

Dear Water Right Holders:

IDWR has been notified the address presently in our records is incorrect. Although we have reached you at the address above, we need your written confirmation this is your correct mailing address before we can change our records. Future notices related to your water right can be sent only to the address on your water right or as otherwise changed by you.

Please sign your name at the bottom of this letter and return it to this office. Make corrections to your name and address if necessary and list any other water rights you may have before returning this letter by May 17, 1999. Thank you for your help.

If your mail delivery address changes in any form, please contact us in writing so we can update our records.

If there has been a change in ownership of the property connected with the water right referenced above, please write down the name and address of the new owner(s) so we can send them a form to make this required change to the water right record.

Sincerely,

Sally

RE: WATER RIGHT NO. 67-07825

Dear Water Right Holder(s):

The Department of Water Resources (the Department) has issued the enclosed license confirming that a water right has been established in accordance with the permit referenced above. The license is a preliminary order issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department unless a party petitions for reconsideration or files an exception and/or brief as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of this order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, this preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to this preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

MICROFILMED

MAY 18 1998

MICROFILMED

ORAL ARGUMENT

If the Department grants a petition to review the preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Department orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Department in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The Department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28, days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

If you have any questions, please call me at 208-327-7946.

Sincerely,

Shelley W. Keen
Water Rights Supervisor

REF: Permit 67-07825

Dear Gerald;

I'm in the process of reviewing the water right file 67-07825 for licensing. In order to complete this process I need to get some additional information from you.

The permit was issued with a condition requiring installation of a measuring device and lockable controlling works. Our examiner found that a measuring device had not been installed and the permit holder stated that you regulate his lateral based on flows at the main Cottonwood weir. Water diverted under this permit is re-diverted from Lester Creek and no measurement evidently takes place there either. With these facts in mind, I'm asking for documentation from you explaining your position as to why measuring devices and/or controlling works are or are not required.

I would appreciate your written response as soon as possible, so that the file can be documented and we can continue our review for licensing this right. Thank you for your help in this matter. If you have any further questions, please feel free to contact me at (208) 327-5452.

Sincerely;

A handwritten signature in cursive script that reads "Sharla Curtis".

D. FLOW MEASUREMENTS

1.

Measurement Equipment	Type	Make	Model No.	Serial No.	Size	Calib. Date

2. Measurements: NONE - See remarks & narrative. An estimate of total diversion was made at Cottonwood Creek to this lateral. Other rights were also diverting. System may obviously carry the LGS diversion to Storage Capacity. There are likely ditch lines @ lower end. See E/u exam for 6/20/85 which resulted in some flow for

E. NARRATIVE/REMARKS/COMMENTS (~1987?)

A 50 AF reservoir has been built to supplement natural flow irrigation from Cottonwood Creek. An existing delivery system developed for 67-2045 is used to divert to the reservoir. The P/D on Cottonwood Creek is also shared by other rights (67-4102, 4103, 4112) which are rediverted from the ditch higher in the system on other lands. To reach this P/D, flows are injected into and rediverted from Lester Creek in NWSW S26. On permit holder's property, flows are split and cross Hwy 95 in two places - one ditch enters the reservoir in NWNW S27, and the other provides gravity irrigation to the pasture land under 67-2045. Supplemental flows are pumped from the reservoir as needed with a 40-HP diesel pump. This pump was not present at the time of exam. Supplemental flows had not been used for several years. Fuel tank was present at pump station. Supplemental Storage Applications are limited to the 16 acres west of Hwy 95.

~~Permit~~ ^{P/Water} may not be ~~diverted~~ ^{diverted} after June 15 so no flows were going to the reservoir. System was using only those flows allowable under 67-2045, but those were sufficient to document B/U under this right.

~~Reservoir~~ Reservoir was constructed on ~~the~~ lands previously licensed under 67-2045. SRA claim shows an accomplished change of use under ~~that~~ right to the lands in NENW & NWNE Sec 27. This should not adversely affect the licensing of the subsequent right.

Stockwater for 100 range cattle.

* There is no meas device at this P/D. Permit holder indicates that Watermaster regulates his lateral based on flows at main Cottonwood Weir, located in NW corner of Sec. 35 (see map). See conv. memo, attached.

Have conditions of permit approval been met? ☐ yes ☒ no

* Per Jan. 1990 inspection, reservoir & dam ~~are~~ ^{are} non-regulated by Dam Safety. Storage certificate per condition 6 is N/A.

MICROFILMED

MAY 18 1998

F. FLOW CALCULATIONS

Measured Method:

 Additional ^{Data} Computation Sheets Attached

est @ Cottonwood Creek - 4 cfs (diverted under combined rights)

can allow 1 cfs diversion to storage

G. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

$$V_{I.R.} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = 116 \times 40 = 64$$

$$V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 =$$

$$V = \text{Smaller of } V_{I.R.} \text{ and } V_{D.R.} =$$

2. Volume Calculations for Other Uses:

Reservoir Storage: 10 ac surface x 5' avg depth = 50 AF

Stockwater: 100 head 1.4 AF

H. RECOMMENDATIONS

1. Recommended Amounts

Beneficial Use	Period of Use		Rate of Diversion Q (cfs)	Annual Volume V (afa)
	From	To		
IRR. STORAGE	1-1	12-31		50
IRR. FR. STORAGE	4-1	10-31		50
STOCKWTR STORAGE	1-1	12-31		1.4
DIV TO STORAGE	4-1	10-31	1.0	
			Totals:	1.0 50

2. Recommended Amendments

☐ Change P.D. as reflected above ☐ Add P.D. as reflected above ☒ None

FILE 67-07825

NAME OF PARTY Gerry Myers (Watermaster, WD67)

EMPLOYEE Cindy Hodges

RE: Measuring device requirement

I spoke w/ Gerry to confirm that deliveries under this permit were accountable without a measuring device. Gerry stated that the diversion was regulated and measurements were taken at a downstream weir. Total diversion^{is} calculated based on differences in measured flows.

This is adequate for Cottonwood Creek, as the Paradis right # (67-2045) is the Senior right and also the uppermost diversion, eliminating the need for a lockable device. Flows are adjusted by modifying the check dam.

If this is not adequate info or basis to waive the permit requirement, please contact Gerry for a written recommendation.

PROOF ACKNOWLEDGEMENT LETTER

RE: PERMIT NO. 67-07825

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

Enclosed is an order reinstating your permit since the Proof of Beneficial Use form was submitted after the proof due date. Please note that the priority date has been advanced to January 29, 1990.

If you have questions concerning this matter, please feel free to contact the WESTERN Regional Office in Boise, at (208)334-2190.

Sincerely,

JULIE L. YARBROUGH
Senior Secretary

LAPSE NOTICE

RE: PERMIT NO. 67-07825

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218A, Idaho Code, the above referenced permit has lapsed and is of no further force nor effect. The department provided the proper forms to you in our proof due notice dated March 31, 1994. No further construction or additional development is authorized under this permit unless it is reinstated.

The permit can only be reinstated if you submit an acceptable proof of beneficial use or an acceptable request for extension of time to the department within sixty (60) days of the mailing of this lapse notice. An acceptable proof of beneficial use submittal must include the examination fee or a completed field examination report. A request for extension of time must be accompanied by a fifteen dollar (\$15) fee.

Enclosed again for your use are a proof of beneficial use form and a request for extension of time form. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a government agency or by litigation which may bring title to the water in question.

PROOF DUE NOTICE

RE: PERMIT NO. 67-07825

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before June 1, 1994. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH
Senior Secretary

RE: PERMIT NO. P67-07825

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

If the diversion dam is 10 feet or more in height, or has an impounding capacity of 50 acre-feet or more, certain dam safety requirements must be met. Please contact the regional office nearest you for details.

Be sure to note the special condition requiring you to install a measuring device and lockable controlling works that will enable the watermaster to control the rate of diversion.

Please note the requirement that as a permit holder you must commence the excavation or construction of diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The enclosed blue card must be completed and returned to this office as soon as you commence construction, no later than one year from the date the permit was approved.

We have enclosed a form entitled "Instructions for Proof of

Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a license.

Sincerely,

GARY SPACKMAN, Supervisor
