WASHINGTON COUNTY TITLE

Exhibit to Lakey/Campbell Warranty Deed

Beginning at the southeast corner of Government Lot 4 of Section 6, T.14N., R. 2W., B.M.:

Thence North along the East line of said Government Lot 5 of said section, 673 feet more or less to a steel post;

Thence westerly 272 feet more or less to a steel post;

Thence southwesterly to a pin on the southeasterly bank of the Weiser River, said pin being the northerly point of the parcel described in Warranty Deed recorded March 4, 1994, Instrument No. 159493;

Thence-southeasterly 550 feet more or less to a pin on the South line of Government Lot 4 of said Section, said pin being 500 feet more or less West from the point of beginning;

Thence East along the South line of Government Lot 4 of said Section, 500 feet more or less TO THE POINT OF BEGINNING.

TOGETHER WITH an easement for access to hot springs over and across the Grantor's property to the North, lying Easterly of the Weiser River, all in Government Lot 4 of said Section.

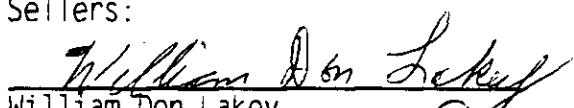

TOGETHER WITH a water right for Well #2 located on Grantor's adjacent property to North.

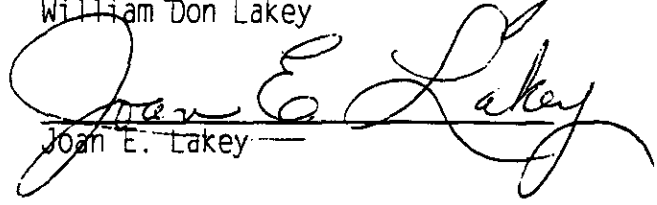

RESERVING UNTO the Grantor an easement 25 feet in width along the westerly boundary of said parcel for ingress/egress and drain field.

Addendum to Closing Instructions C98156

- A) We, the undersigned "Sellers" and "Buyers" of the referenced real estate transaction do hereby acknowledge that the East property line has been surveyed and that said survey line does not follow the existing fence line. The discrepancy in the survey line and existing fence line is not within the parameters of the forthcoming owners title insurance policy.
- B) It is Sellers intention to convey to Buyers:
Two (2) Acre inches of Sellers Weiser River water right.
One Half (1/2) Hot Water Right.
This must be filed with the Idaho Department of Water Resources.
Washington County Title will assist the parties with this transaction.
- C) It is the Sellers desire to grant to the Buyers a first option to purchase the Sellers remaining real property located East of the Weiser River, in Government Lot 4, Section 6, Township 14 North, Range 2 West of the Boise Meridian.
- D) Property tax prorations have been estimated and any adjustments necessary will be resolved between Seller and Buyer.
- E) Personal Property transferred includes Mobile Homes. Copies of titles are attached.
- F) Rent prorations for the month of May will be adjusted between Seller and Buyer outside of closing.

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. This right when combined with all other rights shall provide no more than .03 cfs per acre nor more than 4.0 afa per acre for the lands above.
6. Domestic use is for 19 trailers.

E. NARRATIVE/REMARKS/COMMENTS

This system uses a 86' well that has a 3hp pump. From available information, the dynamic level is 30'. The casing is 8" and the system serves 19 units. The lines from the well are to (A) a pressure tank and (B) to the individual units. There are a couple of overlaps from other WR and the system is used for irrigation and domestic uses only.

10/1/87

* There are overlaps from 67-07513, which is a geo-thermal well. The lines from this well extend to each unit. The lines are underground and the Pld is not within the acreage, as indicated on map. A 67-00035 can also be used to irrigate. It currently irrigates the fields, but with hard-lines, could be used to irrigate the trailer court.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 67-07821

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the WESTERN Regional Office in Boise at (208)334-2190.

Sincerely,

Karen L. Gustafson
Secretary/Records Manager

Re: Permit No. 67-07821

Dear Permit Holder:

Returned is the proof of beneficial use you submitted in connection with the above referenced permit. During my review of the proof, a problem has come to light that needs to be corrected before the proof can be accepted.

You state the source of water to be a natural hot spring, however, this permit has been issued for use of a cold water groundwater source. Perhaps you are confusing this permit with another that you have.

Please make the necessary corrections, and complete the groundwater information on the proof of beneficial use. In order to meet the necessary requirements, it will need to be submitted on or before May 1, 1992.

If you have any questions or if I can be of any further assistance, please feel free to contact me.

Sincerely,

A handwritten signature in cursive script that reads "Karen L. Gustafson".

PROOF DUE NOTICE

RE: PERMIT NO. 67-07821

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before May 1, 1992. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

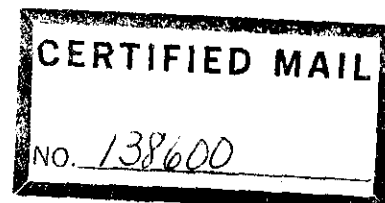

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Karen L. Gustafson
Secretary/Records Manager

RE: PERMIT NO. P67-07821

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

Please be advised that water quality is subject to regulations of the Idaho Department of Health and Welfare. We suggest that you check with them before starting construction.

MAIL ROOM
APR 19 1990

Please note the requirement that as a permit holder you must commence the excavation or construction of diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The enclosed blue card must be completed and returned to this office as soon as you commence construction, no later than one year from the date the permit was approved.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a license.

Sincerely,

GARY SPACKMAN, Supervisor
