CONDITIONS/REMARKS:

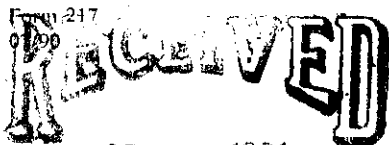

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Stockwater use is for 100 range cattle.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code. Witness the seal and signature of the Director, affixed at Boise, this 28TH day of DECEMBER, 1993.

RE: PERMIT NO. 67-07817

Dear Mr. and Mrs. Brent:

The above referenced permit is in the process of being reviewed for licensing. However, before a license can be issued, I need to verify the extent of your stockwater use. Are you currently making use of one or two stockwatering troughs? If you have two in different locations, are the same 100 or so head of cattle using both of them?

Thank you for your assistance. As soon as the information is verified, I will continue the licensing process.

This system uses a buried headbox & a $\frac{1}{2}$ " line to water 100 or so cattle. The spray is buried along with the headbox which collects the water. The gravity fed $\frac{1}{2}$ " line from the headbox slowly fills a large stock tank. At certain times of the year, a 100 head or more could use the system, usually drinking it dry quickly.

PROOF DUE NOTICE

RE: PERMIT NO. 67-07817

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before May 1, 1991.

(See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck
