RE: ASSIGNMENT OF PERMIT NO. 67-07809

Dear Water Right Holder(s):

We acknowledge receipt of the correspondence changing ownership of the above referenced water right to you. We have modified our computer records to reflect this change in ownership.

If you have any questions regarding this matter, please feel free to contact us.

Also, please note that as of July 1, 1996, water right owners are required to report any change of water right ownership and any change of mailing address to the department. If you have acquired a water right or have changed your mailing address **PRIOR** TO July 1, 1996, you have until July 30, 1998, to notify the department. If you acquire a water right or change your mailing address **AFTER** July 1, 1996, you must notify the department within 120 days of the change.

Failure to report these changes could result in a \$100 late filing fee. Contact any office of the department to obtain the proper reporting form.

Sincerely,

JIM JOHNSON, Manager

RE: WATER RIGHT PERMIT NO. 67-07809

Dear Mr. Eberle:

We met in May at your Upper Soulen Road property that used to belong to Wayne Cada. I was re-confirming field examination details in order to compete the licensing process for water developed from several springs for the above-referenced permit.

I sent a follow-up letter to Mr. Cada to request that he assign the permit to you as the new owner. A water right permit remains personal property until licensed, at which point the water right is considered appurtenant to the related site. The letter was returned by the Post Office ("forwarding order expired"). A copy of my May 23, 1996 letter was sent to you at the above address.

The department can issue the license showing the permit owner of record (Cada) rather than the current land owner (Eberle) unless an assignment of permit is completed by that permit owner. That procedure works out rather well because the licensed right is part of the land rather than personal property of the permit holder regardless of the name on the license. However, a current owner often prefers to see a license issued in his or her own name.

Please contact Mr. Cada to complete the enclosed assignment form if you want to have the permit assigned to you prior to licensing. You may also choose to include a \$50 licensing amendment fee to correct the legal descriptions listed on the permit. The latter fee can be paid later in the licensing process if you prefer, although you might find it more convenient to take care of it now.

To summarize, action is not needed at this time, but I thought you might want to pursue the assignment option for permit no. 67-07809. If a completed assignment of permit is not received at this office by February 1, 1997, it will be assumed that the licensing process should resume using the previous owner's name but listing your land; the licensing amendment can be handled now or later.

Please let me know if I can help you with this matter.

Sincerely,

Steve Lester

RE: PERMIT NO. 67-07809

Dear Mr. Cada:

The above-referenced water right permit concerns three stockwater developments located on either side of Upper Soulen Road in T11N, R2W, Sec. 15 and 16. The developments consist of springs and stock troughs. The water right permit was examined in 1993 for licensing purposes and the site was revisited yesterday to clarify vague information in the field report (mapping problem).

While checking the field details, I encountered Mr. Don Eberle, who identified himself as the new owner for the property in question. I told Mr. Eberle that I would follow up on the change in ownership question as it relates to this water right permit.

Permits are personal property not automatically conveyed by the sale of property. A change in water right permit is accomplished via an Assignment of Permit (see enclosed). The fee for an assignment is \$25.

Additionally, the three developments are located in tracts not described by the permit. The license process can accommodate such differences. The field examination report includes recommended amendments to correct a permit as the license is issued. One amendment can correct multiple discrepancies. The amendment fee is \$50.

In summary, to assign the permit to a new owner and to amend the permit for correct licensing, a completed assignment form and \$75 should be submitted. From the department's perspective, it does not matter who pays the required fees. Perhaps that issue is one that you and the new owner might want to address privately.

Please direct any questions and your response to me within 30 days. Your help in this matter will facilitate licensing of permit no. 67-07809.

Sincerely,

Steve Lester
Water Rights Supervisor

PROOF DUE NOTICE

RE: PERMIT NO. 67-07809

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before February 1, 1992. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Karen L. Gustafson
Secretary/Records Manager

RE: PERMIT NO. P67-07809

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Please note the requirement that as a permit holder you must commence the excavation or construction of diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The enclosed blue card must be completed and returned to this office as soon as you commence construction, no later than one year from the date the permit was approved.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a license.

Sincerely,

GARY SPACKMAN, Supervisor
Water Right Permits Section

## AFFIDAVIT OF PUBLICATION

STATE OF IDAHO, } ss.  
County of Washington }

Sarah Boles

being duly sworn,  
deposes and says:

That he is the Clerk of  
THE WEISER SIGNAL, a weekly newspaper published at  
Weiser, in the County of Washington and State of Idaho; that  
said paper has been and is in general circulation in the  
county aforesaid, and in the vicinity of Weiser; that the ad-  
vertisement, a copy of which is attached hereto, was pub-

lished in said newspaper once a week for two consecu-  
tive weeks in the regular and entire issue of said paper dur-  
ing the period and time of publication, and was published in  
the newspaper proper and not in a supplement; that said  
paper has been established and regularly published for more  
than seventy-eight consecutive weeks prior to the date of  
first publication of said advertisement.

Such notice was published in the issue beginning with

November 16, 1989, and ending  
with the issue of November 23, 1989.

Sarah Boles

Fees, \$ 194.54Subscribed and sworn to before me this 23day of November, 1989.

[Signature]  
Notary Public, Residing at Weiser, Idaho.
