TWN RGE SEC

15N 01W 33 NESW

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Use of water under this water right will be regulated by the watermaster of State Water District No. 67A.

E. NARRATIVE/REMARKS/COMMENTS

This system makes use of two points of diversion and a spring. In the center of Mr. Baker's pond is a spring which cannot, of course, be measured. He also has two points, to the N and to the S, where water is diverted. To the south end a waste water ditch falls the pond through seeping through a marshy area. To the north a very small waste ditch brings water into the pond. However, the pond is usually so full from the spring: south. Pld that the northern part of diversion becomes backflowed and eventually floods the pasture. Around 100 head of cattle use the pond for stock water.

PROOF DUE NOTICE

RE: PERMIT NO. 67-07799

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before May 1, 1991. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck

NOTICE OF CONFERENCE

On October 11, 1989, Robert F. and/or Doris Y. Baker filed with the Department of Water Resources an application for permit to appropriate the public waters of the State of Idaho. The application was protested by Little Weiser Irrigation District via Isaac M. Ward, Chairman, and Whitney Voermans, Secretary.

The Department has set the matter of protest for a conference on Friday, January 19, 1990, at 11:00 a.m., at the Council Senior Citizens Center located in the American Legion building, 201 Moser, in Council. The conference will be held in accordance with provisions of Chapters 2 and 17, Title 42, and Chapter 52, Title 67, of the Idaho Code, the adopted Rules of Practice and Procedure of the Department of Water Resources, and Rules 4 and 5 of the adopted Rules and Regulations of Water Appropriation of the Department of Water Resources. Opportunity shall be afforded all parties to respond and present information and argument on all issues involved.

Dated this 11th day of January, 1990.

CONFERENCE INFORMATION

IN THE MATTER OF APPROVAL OF AN APPLICATION FOR PERMIT

In accordance with Idaho Code, Section 42-203(A), the following issues are involved in the consideration of the application and protest(s):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?
5. Will the proposed use conflict with the local public interest?

The intent of the conference is to resolve any conflicts regarding the proposed water appropriation in light of these five factors. The conference will not be recorded in an effort to promote full discussion of the issues. Possible resolutions are: (1) clarification of the issues resulting in a determination by all parties that the application is acceptable, (2) modification of the application to make it acceptable to the protestant(s), or (3) addition of acceptable restrictions or conditions of approval. If a resolution is not attainable, then a hearing will be set by the Department.

Dear Applicant:

Enclosed is a copy of a protest(s) filed against the issuance of a permit pursuant to the above-referenced application. The Department suggests that you contact the protestant(s) and attempt to resolve the protest(s).

If this office has not been advised within twenty (20) days that the protest(s) has been resolved, the matter will be scheduled for a conference. At such a conference, the following are the principle items the Department will review (per Section 42-203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?
5. Will the proposed use under this permit conflict with the local public interest?

Please contact this office if you have questions regarding this procedure.

Dear Protestant:

This office acknowledges receipt of your protest to the issuance of a permit pursuant to the above referenced application. The Department suggests you contact the applicant(s) directly in an effort to determine what is proposed by the application and to attempt to resolve the protest.

If this office has not been advised within twenty (20) days that the protest has been resolved, the matter will be scheduled for conference. At such a conference, the following are the principle items the Department can consider in either approving or denying an application or permit (Section 42-1203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?
5. Will the proposed use under this permit conflict with the local public interest?

If this office can be of further assistance, please contact us.

Dear Mr. Higginson.

On behalf of the Little Weiser Water Dist. 67-A I am writing this letter of protest concerning the water right application no. 67-07799 by Robert and Doris Baker, Cambridge, Idaho.

It is the contention of the 67-A water board that there is no waste water in Grays Creek.

Please notify Lawson Howland, Chairman of Water Dist. 67-A of any developments concerning this water right application.

Thank you.

Sincerely,

Whitney Voermans
