CONDITIONS OF APPROVAL AND REMARKS

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Stockwater use is for 100 head of mixed stock.

E. NARRATIVE/REMARKS/COMMENTS

- No govt. lots were found.
- Use is Stockwater for 100 cattle, 4 horses, + 1 mule.
- Other water sources available: Crane Creek Irrigation
- Physical address: Weiser River Rd, Weiser Id. (no numbers to identify).
- The system consists of a spring w/ a buried 55 gallon barrel as a collection box w/ 500' of 1 1/2" PVC buried 3' deep to the 1st 3'x5' stockwater tank, the overflow from this tank goes to the 2nd tank by means of 2" steel to PVC pipe (this tank is also 3'x5').
- Recommended not going with the 5 gallon bucket measurement + going w/ the permitted amount of .03 cfs, due to a break in the pipe since the applicant was out there last. Both the pipeflow capacity of a 1 1/2" pipe (.06 cfs), + the pipeflow computation spreadsheet (.06 cfs) show that normally w/o leakage, the system would have an increased production water.

PROOF DUE NOTICE

RE: PERMIT NO. 67-07774

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before January 1, 1991. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck
Secretary/Records Manager

RE: PERMIT NO. P67-07774

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed for your convenience is a form entitled "Proof of Beneficial Use" that must be submitted to the Department when your project is completed. If development is complete, you may submit proof of beneficial use immediately.

Sincerely,

GARY SPACKMAN, Supervisor
