Department of Water Resources

WATER RIGHT LICENSE

WATER RIGHT NO. 67-07767

Priority: July 13, 1989

Maximum Diversion Rate:

0.04 CFS

Maximum Diversion Volume:

0.6 AF

This is to certify, that INDIAN VALLEY COMMUNITY HALL INC
606 MONDAY GULCH

INDIAN VALLEY ID 83632 has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated July 14, 1989; and has submitted Proof of Beneficial Use on September 10, 1991. An examination indicates that the works have a diversion capacity of .250 cfs of water from a GROUNDWATER source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
DOMESTIC	01/01 to 12/31	0.04 CFS	0.6 AF

LOCATION OF POINT(S) OF DIVERSION:

SWSW , Sec. 11, Township 14N, Range 01W
ADAMS County

PLACE OF USE: DOMESTIC
TWN RGE SEC

14N 01W 11 SWSW

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Domestic use is for a community hall.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code. Witness the seal and signature of the Director, affixed at Boise, this 4TH day of AUGUST, 1993.

BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE STATE OF IDAHO

IN THE MATTER OF PERMIT NO. 67-07767)
IN THE NAME OF INDIAN VALLEY COMMUNITY HALL)
_____)

ORDER OF
REINSTATEMENT

WHEREAS, the Department issued the above-captioned permit with the condition that proof of construction of works and application of water to beneficial use (proof of beneficial use) be submitted on or before November 1, 1991; and

WHEREAS, the Department notified the permit holder by certified mail that proof was due and instructed the permit holder that the permit lapsed for failure of the permit holder to submit the proof of beneficial use; and,

WHEREAS, the Department received an incomplete proof of beneficial use on September 10, 1991; and,

WHEREAS, the Department did not take action on the proof of beneficial use until November 29, 1991, more than two months after it was received; and,

WHEREAS, Section 42-218a of the Idaho Code provides that a permit may be reinstated upon a showing of reasonable cause within sixty days of the date of the notice of lapsing; and,

WHEREAS, the permit holder has provided a reasonable showing why the permit should be reinstated by submitting proof of beneficial use on December 17, 1991;

IT IS, THEREFORE, HEREBY ORDERED that permit No. 67-07767 be REINSTATED with no advance in priority.

Dated this 20th day of December, 1991.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. _____, and said application is hereby _____.

1. Approval of said application is subject to the following limitations and conditions:

- a. SUBJECT TO ALL PRIOR WATER RIGHTS.
- b. Proof of construction of works and application of water to beneficial use shall be submitted on or before _____, 19 ____.
- c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.
- d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.

E. NARRATIVE/REMARKS/COMMENTS

Per 9/22/92 talk with Pres. P. Holmes:

- well $\approx$ 50' south of bldg.
- 5 hp subm pump, no info about the
- 1" pipe
- max # people 200, max # days 1/month

Per well log: 6", 140' well, static 20', tested 20 gpm.

Log shows well SESE S.10 but should be SWSW S.11.

Per site visit 1/25/93:

Conducted exam in deep snow conditions & could not locate well or complete well inspection form.

OK to assume well in place as described by log & by oriented, especially since we met exempted definition under 42-111.

NO external use signs indicated & do not recall any landscaping from site visit earlier in 1992 or Water District maps.

Drilling permit # 67-89-C-0008-000 issued 6/23/89.

Why was \$15 paid with proof of b.o.?

How refund been issued for \$15?

Copy of corrected well log attached for G.W.

Section files - Route copy to them & S.O. review process.

Have conditions of permit approval been met? ☒ yes ☐ no

AUG 30 1993

F. FLOW CALCULATIONS Allow .04 cfs Additional Computation Sheets Attached

Measured Method:

① HP eq. , assume $p_w = 20$, $z = 30$ (static 20' from top) , eff. = .7 ;
 $H_p = 5$

$$Q = \frac{(5.8)(.7)(5)}{(2.31)(20) + 30} = .46 \text{ cfs}$$

② 1" pipe , expected flow : $Q = VA = (5)(\pi)(R^2) = (5)(3.14)(.5)^2 = .03 \text{ cfs}$
 assume $V = 5 \text{ fps}$ machine 12 ft

G. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

$$V_{I.R.} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) =$$

$$V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 =$$

$$V = \text{Smaller of } V_{I.R.} \text{ and } V_{D.R.} =$$

2. Volume Calculations for Other Uses:

200 people , 12 days/yr. @ 25 gpd/person (assumed) similar to
 "country club" category.

$$\frac{(200)(12)(25)}{325,850} = .18 \text{ afa} = .2 \text{ afa}$$

$$= (04)(365)(1.9835) = 29.0 \text{ afa}$$

allow .2 afa

H. RECOMMENDATIONS

1. Recommended Amounts

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 67-07767

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. Enclosed is an order advancing the priority of the permit since the proof was received after the proof due date. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the WESTERN Regional Office in Boise at (208)334-2190.

Sincerely,

Karen L. Gustafson
Secretary/Records Manager

ACTION OF IDWR

☒ Approved

☐ Denied

The approval of this permit authorizes the construction of a well as described on this application subject to the conditions on this permit.

GENERAL CONDITIONS:

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.
2. This drilling permit is valid for two (2) months from its date of issuance for the start of construction and is valid for one (1) year from the date of issuance for completion of the well unless an extension has been granted.
3. This permit does not constitute the approval of the District Health Department or the Idaho Department of Health and Welfare which may be required before construction of this well.
4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
5. Issuance of this drilling permit does not authorize trespass on the land of another party.
6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.
7. This drilling permit does not represent a right to divert and use the water of the State of Idaho.

SPECIFIC CONDITIONS:

8. If a bottom hole temperature of 85°F or greater is encountered, well construction shall cease and the well driller and the well owner shall contact the Department immediately.

Dear Permit Holder:

Re: Permit No. 67-07767

LAPSE NOTICE

Since you failed to provide the well driller information we requested on November 29, 1991, you are hereby notified that under the provisions of Section 42-218a of the Idaho Code, the above referenced permit has lapsed. This office did not receive either an acceptable Proof of Beneficial Use submittal or an acceptable request for an extension of time to our letter of August 31, 1991. No further construction or additional development is authorized under this permit unless it is reinstated.

Your permit cannot be reinstated unless you submit the Proof of Beneficial Use or submit an Extension of Time Request showing reasonable cause for the delay. Either the completed Proof of Beneficial Use Submittal including the examination fee, or a completed field examination report; or the extension request form together with the \$15 fee, must be received by this department within sixty days of the date of mailing of this lapse notice or the permit will no longer be of any force or effect.

A proof of beneficial use form and a request for extension of time form are again enclosed for your use. Please note that only one extension of time can be granted, unless the project has not been completed because of lack of a necessary approval by a governmental agency or by litigation which brings title to the water in question.

Sincerely,

L. GLEN SAXTON, Chief
Water Allocation Bureau

RE: Permit No. 67-07767

Dear Permit Holder:

Enclosed is your Proof of Beneficial Use Form. Before we can complete processing, additional information is required.

A drilling permit is required for all wells drilled, deepened or enlarged after July 1, 1987 (Section 42-235, Idaho Code). You have indicated neither the well driller or the date drilled. If your well was drilled after July 1, 1987 please submit a copy of the drilling permit and indicate the name of the driller. If it was drilled before this date, please indicate this on the form.

Also, there is no license exam fee required when the total rate of diversion is .04 cfs or less. Since your permit was issued for .04 cfs, I have begun the process to refund the \$15 you submitted. The process takes two to four weeks to complete.

Please provide the appropriate information within 15 days of the date of this mailing.

If you have any questions or if I can be of any further assistance, please feel free to contact this office.

Sincerely,

Karen L. Gustafson

PROOF DUE NOTICE
RE: PERMIT NO. 67-07767

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before November 1, 1991. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck
Secretary/Records Manager

RE: PERMIT NO. P67-07767

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

Please note the requirement that as a permit holder you must commence the excavation or construction of diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The enclosed blue card must be completed and returned to this office as soon as you commence construction, no later than one year from the date the permit was approved.
