WATER RIGHT LICENSE

WATER RIGHT NO. 67-07764

Priority: June 29, 1989

Maximum Diversion Rate: 0.19 CFS
Maximum Diversion Volume: 42.3 AF

This is to certify, that SCHOOL DISTRICT NO 432
PO BOX 39

CAMBRIDGE ID 83610-0039 has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated June 29, 1989; and has submitted Proof of Beneficial Use on October 16, 1990. An examination indicates that the works have a diversion capacity of .630 cfs of water from a GROUNDWATER source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
IRRIGATION	03/15 to 11/15	0.19 CFS	42.3 AF

LOCATION OF POINT(S) OF DIVERSION: SWSE , Sec. 3, Township 14N, Range 03W
WASHINGTON County

PLACE OF USE: IRRIGATION

<u>TWN</u>	<u>RGE</u>	<u>SEC</u>	<u>ACRES</u>	<u>ACRES</u>	<u>ACRES</u>	<u>TOTAL</u>
14N	03W	3	SWSE	9.4		9.4

Total number of acres irrigated: 9.4

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount that can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 4.5 afa per acre for the lands above.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code.
Witness the seal and signature of the Director, affixed at Boise, this 15
day of JUNE, 1994.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. _____, and said application is hereby _____.

1. Approval of said application is subject to the following limitations and conditions:

a. SUBJECT TO ALL PRIOR WATER RIGHTS.

b. Proof of construction of works and application of water to beneficial use shall be submitted on or before _____, 19 ____.

c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.

d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.

System Description (continued)

3. Narrative: Description (As operating at time of measurement. Indicate pressure, number of sprinklers, etc.)

An 8" well with a 25 hp submersible pump was used to irrigate approx. 9.4 acres of athletic fields. Nine risers were located on the north end of the field, and 2 in the south east end. One 4" sprinkler line with 12 - 7/32" heads was being used. The head pressure ranged from 100 to over 100 psi. Pacing places the acreage at approx. 9.0 acres, but the aerial photo lists the total area at 9.4a.

☐ See Remarks on page 4 for continuation

D. FLOW MEASUREMENTS

☐ Additional Data Sheets Attached

1.

Measurement Equipment	Type	Make	Model No.	Serial No.	Size	Calib. Date
Sprinkler pressure						
gauge						

2. Measurements:

12 7/32" heads @ 100 psi

25hp pump, 120' dynamic head, 60 psi csl

From well log

E. FLOW CALCULATIONS

☐ Additional Computation Sheets Attached

1. Measured Method:

$$Q = 30 \times (7/32")^2 \times (100 \text{ psi})^5 \times 12 \text{ heads} = 284.7 \text{ GPM} / 448.8 = .63 \text{ cfs}$$

2. Alternate Method for Checking Purposes:

$$25 \text{ hp} \times 8.8 \times 70\% / (2.31 \times 60 \text{ psi} + 120') = .60 \text{ cfs}$$
$$9.4 \text{ a} \times .02 \text{ cfs} = .19 \text{ cfs}$$

F. PUMP EFFICIENCY DATA (Optional)

Discharge Pressure: _____ psi x 2.31 = _____ ft (1); Dynamic pumping level: _____ ft (2)

Total Head: (1) + (2) = _____ (3) ; Flow rate: _____ cfs (4)

Water HP: (3) x (4) ÷ 8.8 = _____ (5)

Meter Input KW: 3.6 x _____ KH x _____ CTR or _____ MULT x _____ PTR x _____ N/ _____ T = _____ (6)

Meter Input HP: (6) x 1.34 = _____ (7)

Panel Input KW: _____ Ave PF x _____ Ave Volts x _____ Ave Amps x .001732 = _____ (6)

Panel Input HP: (6) x 1.34 = _____ (7) Efficiency: (5)/(7) x 100 = _____ %

G. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

$$V_{I.R.} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = 9.4 \times 4.0 = 37.6 \text{ afa}$$

$$V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = .19 \times 246 \times 1.9835 = 92.7$$

$$V = \text{Smaller of } V_{I.R.} \text{ and } V_{D.R.} = 37.6 \text{ afa}$$

2. Volume Calculations for Other Uses:

MAINTAINED
0 1994

H. REMARKS AND OVERLAP REVIEW ANALYSIS

No other water rights affect this permit.

Recommend standard irrig. season

I. RECOMMENDATIONS

1. Recommended Amounts

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 67-07764

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the WESTERN Regional Office in Boise at (208)334-2190.

Sincerely,

Rita Fleck
Secretary/Records Manager

PROOF DUE NOTICE

RE: PERMIT NO. 67-07764

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before November 1, 1990. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck
Secretary/Records Manager

Re: Permit No. 67-7764

Dear Sirs:

Returned is your copy of your proof of beneficial use form submitted to this office October 16, 1989, indicating the total rate of water use for which proof is submitted as 0.02/acre, which is equal to .20 cfs. You indicate the extent of use is for irrigation.

When the total maximum rate of diversion is greater than 0.04 cfs, a license examination fee is required to be submitted with the proof. A license examination fee based on a rate of flow of .20 cfs. is \$50. Note the enclosed instruction sheet/fee schedule.

Upon receipt of the proof form and fee we will continue processing your proof by notifying the region that a field exam is needed.

If you have any questions concerning this matter, feel free to contact this office.

Sincerely,

NINA K. SHIELDS

ACTION OF IDWR

(X) Approved () Denied

67-88-2-015

The approval of this permit authorizes the construction of a well as described on this application subject to the conditions on this permit.

GENERAL CONDITIONS:

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.
2. This drilling permit is valid for two (2) months from its date of issuance for the start of construction and is valid for one (1) year from the date of issuance for completion of the well unless an extension has been granted.
3. The permit holder or his representative shall notify the Department ten (10) days prior to the start of construction unless good cause for later notification can be shown.
4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
5. Issuance of this drilling permit does not authorize trespass on the land of another party.
6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.

SPECIFIC CONDITIONS:

7. The old well shall be abandoned or a transfer of water right 67-2353 must be submitted to show two points of diversion

Dated this 31st day of March, 1988.

RE: W.R. License 67-2353

Dear Sir:

The Department received your application for a drilling permit but the required fee was not submitted with the application.

The fee for irrigation wells is \$100. I assume the well will replace a well now in use and will be used under water right license 67-2353. If not, please let me know.

If you abandon the old well, no transfer for 67-2353 is required; if the old well is not abandoned, a transfer is needed.

If you have any questions, contact me. Once I receive the \$100, the drilling permit will be issued.

Sincerely,

A handwritten signature in cursive script that reads "John E. Beal".

RE: PERMIT NO. P67-07764

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed for your convenience is a form entitled "Proof of

NOT FILMED

JAN 29 1991

Beneficial Use" that must be submitted to the Department when your project is completed. If development is complete, you may submit proof of beneficial use immediately.

Sincerely,

GARY SPACKMAN, Supervisor
Water Right Permits Section
