(Applicant)

Affidavit of Publication

State of Idaho, County of Adams, ss:

I, Bert J. Rogers, being first duly sworn upon my Oath, depose and say that I am the publisher of The Adams County

Leader, a newspaper; that a copy of the "Notice of Correct

George &/or JoAnn Conger

as per clipping

hereto attached, was published in the regular and entire issue of said newspaper, and not in any supplement thereof, for

two (2) consecutive weeks, the first publication of the

same being made in the issue dated August 3, 1989

and the last in the issue dated August 10, 1989 that said newspaper is of general circulation in Adams County Idaho, printed and published weekly at Council therein and that said newspaper has been continuously and uninterruptedly published in said county during a period of more than seventy-eight consecutive weeks prior to the first publication of

said " Notice " as aforesaid.

Subscribed and sworn to before me this 10th

day of August, 1989

Notary Public for Idaho,
Residing at Council, Idaho

NOTICE OF CORRECTION

Notice is hereby given that on June 8 and 15, 1989, Application for Permit No. 67-07760 in the name of George &/or JoAnn Conger was advertised in error.

The Source was advertised as Unnamed Stream, Tributary: Little Weiser River whereas, the Source should be Unnamed Stream, Tributary: Weiser River.

Any protest against approval this water right application must be filed with the Director, Dept. of Water Resources, Western Region, 2735 Airport Way, Boise, ID 83705 on or before August 21, 1989.

R. Keith Higginson, Dir.

WATER RIGHT NO. 67-07760

Priority: May 18, 1989

Maximum Diversion Rate:

0.06 CFS

Maximum Diversion Volume:

8.0 AF

This is to certify, that JO ANN CONGER
GEORGE CONGER

HC 64 BOX 3420

COUNCIL ID 83612

has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated May 18, 1989; and has submitted Proof of Beneficial Use on August 7, 1991. An examination indicates that the works have a diversion capacity of .170 cfs of water from:

UNNAMED STREAM

tributary to WEISER RIVER

source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
IRRIGATION	04/15 to 10/15	0.06 CFS	8.0 AF

LOCATION OF POINT(S) OF DIVERSION:

NESW , Sec. 7, Township 18N, Range 01E
ADAMS County

PLACE OF USE: IRRIGATION

18N	01E	7	NESW	2		2

Total number of acres irrigated: 2

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. A lockable device subject to the approval of the Department shall be maintained on the diverting works in a manner that will provide the watermaster suitable control of the diversion.
6. Use of water under this water right will be regulated by the watermaster of State Water District No. 67.
7. This right when combined with all other rights shall provide no more than .03 cfs per acre nor more than 4.0 afa per acre for the lands above.

						AUG 10 1994

2. Measurements: 5 gallon bucket from inflow to stock trough.

$Q = 5 \text{ gal} / 5 \text{ sec} = 60 \text{ gpm} = 0.14 \text{ cfs}$
(Accur ☐ poor due to speed ☐ filling bucket)

E. NARRATIVE/REMARKS/COMMENTS

OVERLAPS - P/U - same QR, but different source

Due to heavy snow this winter and spring rains, system is not presently being used. Later this summer, system will be in operation, but only for 2 acres, not 5 as shown on permit. Pump was in place and 1 1/2" PVC was lying next to fence. Though not presently operating, evidence of system was substantiated. Attached to the 1 1/2" PVC is approximately 300' of ~~large~~ hose to set rainbirds throughout property.

Since the theoretical calculation of 0.15 cfs and the measured flow from the 4" PVC was 0.14 cfs (inaccurate), recommend Licensing for 0.15 cfs as requested on permit, but only for 2 acres, not 5 acres.

$$Q_{\text{pump}} = \frac{(8.8)(3)(0.6)}{47 \times 2.31} = 0.15 \text{ CFS}$$

GAS Powered, Italian

$$Q_{\text{(measured, 4" PVC inlet)}} = 100 \text{ gpm} = 0.14 \text{ CFS}$$

Have conditions of permit approval been met? ☒ yes ☐ no

RE: Water Right No. 67-07760

Dear Water Right Holder(s):

Department water right records show that you divert water from the Snake River or its tributaries under a water right that has a priority date later than December 29, 1976. This is the priority of the established minimum stream flow of the Snake River at the Weiser Gage (Weiser) in the amount of 4,750 cubic feet per second.

Because of the continuing drought conditions in the Snake River Basin, department hydrologists project that during 1992, there could be periods when the required minimum flow will not be satisfied due to low flows of the Snake River. The department urges you to not divert at a higher rate than authorized by your water right and to not use your right in any manner different than authorized. In addition, when the minimum flow will not be satisfied or is not being satisfied, you are required to cease diverting water under your water right, because your right is of later priority than the minimum stream flow at Weiser.

If the department determines the minimum flow will not be satisfied, the department will advise you and will provide as much lead time as possible in requiring that you temporarily cease your diversion of water. The greatest likelihood for this to occur is during a period from mid-June to late June.

While the department expects good cooperation from junior water right holders, water users should be aware that Section 42-352, Idaho Code, provides for penalties of up to \$100 per day for unauthorized diversions of water.

The department has contacted both the Idaho Power Company and the U.S. Bureau of Reclamation with respect to the timing of storage releases from upstream reservoirs for flow enhancement

RECEIVED
JUL 10 1992

AUG 10 1994

purposes. This type of coordination could minimize the impact on existing water users and reduce the need to curtail diversions.

The department has scheduled public information meetings relative to this potential regulation as follows:

Mountain Home - June 4, 1992 - 10:00 a.m. - gymnasium at
North Elementary School, 290 E. 12th N.

Caldwell - June 4, 1992 - 7:00 p.m. - Ballroom in the
Student Union Building, Albertson College of Idaho,
2112 Cleveland

If you have questions concerning this letter or wish to provide the name of a different contact person or address to receive department correspondence, please contact the department.

Sincerely,

L. GLEN SAXTON
Chief, Water Allocation Bureau

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 67-07760

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the WESTERN Regional Office in Boise at (208)334-2190.

Sincerely,

Nina Shields
Secretary/Records Manager

RE: Permit to Appropriate Water No. 67-07760; Request for
Removal of Lockable Control Works Condition

Dear Mr. and Mrs. Conger:

I corresponded with you in December, 1989, about your request for removal of the measuring device condition from permit no. 67-07760. After my correspondence, I think I recall speaking to JoAnn about a telephone call I received from Gerald K. Myers, HC 70, Box 2010, Midvale, Idaho, 83645, who is the watermaster for the Weiser River. Mr. Myers stated that he felt the measuring device requirement should not be removed. At the conclusion of the conversation, I thought JoAnn represented that she would attempt to talk to Mr. Myers.

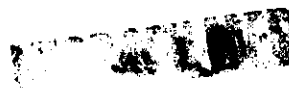

As of this date, I have not received a response. Unless some arrangement is made with the watermaster, the Department will require the installation of the lockable control works and measuring devices.

Sincerely,

GARY SPACKMAN, Manager
Water Right Permits Section

RE: Permit to Appropriate Water No. 67-07760 in the Name of
JoAnn and George Conger

Dear Mr. Howland:

Enclosed is a permit to appropriate water which was issued in favor of JoAnn and George Conger. Condition 4 of the permit states that a lockable device must be installed at the diverting works to insure control of the diversion by the watermaster. The permit also states that water shall not be diverted after June 15 of each year without prior approval of the watermaster.

Mr. Conger has requested that condition no. 4 be waived, and that he not be required to install a lockable device. I will not grant the waiver without your consent.

Would you please inform me whether you wish to have a lockable headgate located on Mr. Conger's property? If not, the Department will probably waive condition no. 4.

Please respond to the address on the letterhead as soon as possible.

Sincerely,

A handwritten signature in cursive script that reads "Gary Spackman".

DEPARTMENT OF WATER RESOURCES:

ATTENTION:

Gary Spackman, Supervisor of water right permit section.

Regarding my water right permit #P 67-07760, I would like to have the condition of the lockable device of where I divert water onto the property excluded from the conditions of approval. The reason is that I take the water from a culvert just after the stream enters my property through the irrigating season, and then have to remove the cap from the culvert for winter and spring run-off. Therefore, having a cement lockable gate would be impracticable to me.

This unnamed stream runs onto my property and then flows into the Weiser River. There are no properties between my property and the Weiser River. Therefore, I could not possibly take anyone else's water and would not need a lockable gate.

This letter is in conjunction with a phone call made to your office in November and was asked to follow through with a letter to your office for the request.

Sincerely Yours,

George Conger

RE: PERMIT NO. P67-07760

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Be sure to note the special condition requiring you to install a lockable device that will provide the watermaster control on your diversion.

Please note the requirement that as a permit holder you must commence the excavation or construction of diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The enclosed blue card must be completed and returned to this office as soon as you commence construction, no later than one year from the date the permit was approved.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a license.

Sincerely,

GARY SPACKMAN, Supervisor
Water Right Permits Section
