CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Use of water under this water right will be regulated by the watermaster of State Water District No. 67.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 67-7748, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

a. SUBJECT TO ALL PRIOR WATER RIGHTS.

b. Proof of construction of works and application of water to beneficial use shall be submitted on or before November 1, 1989.

c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.

d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.

e. Other: Use of water under this permit is subject to control by the watermaster of State Water District No. 67, Weiser River.

PROOF DUE NOTICE

RE: PERMIT NO. 67-07748

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before November 1, 1989. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Gentlemen:

This is in receipt of your letter of protest against the above-referenced application for permit.

According to Idaho Code, a timely protest must be filed against the filing of an application for permit within the time period of ten days after the second date of advertising. The above-referenced application for permit was advertised in the Adams County Leader on August 17 & August 24, 1988, with a protest date of September 6, 1988.

This office received your protest on September 9, 1988. Therefore, your protest is not considered to be a valid protest. The above-referenced application for permit was approved by the State office on October 6, 1988. However, as with all new water rights, a condition of approval was placed on the Atkinson water right that it is "subject to all prior water rights".

Should you have any questions, please call this office.

Sincerely,

David R. Tuthill

Dear Mr. Higginson,

I am writing in protest to an application for water right, 67-07748, published in the Adams County Leader, 8/18/1988.

The application is made by George and January Atkinson for domestic water application. The source of water is Pole Creek, a tributary of Hornet Creek. The Hornet Creek Water Users Association is protesting the application for water right because the membership does not want to see their source of water diminished.

Sincerely,

Lee F. Cole
