This matter having come before the Idaho Department of Water Resources (Department), the Department finds as follows:

FINDINGS OF FACT

1. On October 11, 1988, the Department of Water Resources issued Permit No. 67-07746 with a condition of approval that proof of construction of works and application of water to beneficial use be submitted on or before October 1, 1993.
2. On July 31, 1993, the Department sent a proof due notice to the permit holder.
3. On October 6, 1993, the Department sent a lapse notice to the permit holder.

Section 42-218a.2., Idaho Code, authorizes the Department to reinstate a lapsed permit, with the priority date advanced to the date that proof of beneficial use was received, upon submittal of evidence clearly establishing the extent of beneficial use prior to the proof due date and a showing of reasonable cause why the proof was submitted late.
5. The permit holder has submitted evidence to confirm that water has been put to beneficial use during the authorized development period by submitting proof on March 3, 1994.

CONCLUSIONS OF LAW

1. The permit holder has submitted proof of beneficial use along with supporting evidence which establishes that water was in fact beneficially used as identified on the permit.
2. The permit holder has shown sufficient cause why the beneficial use was not submitted in a timely manner.

RE: Recommendation Adjustment(s)

=====

The final licensing recommendations for Right 67-07746 are based on the information below:

A. GENERAL INFORMATION

3. Source: In the narrative section, the examiner states that the spring appears to flow into the Sheep Creek drainage and is tributary to Sheep Creek.

H. RECOMMENDATIONS

1. Recommended Amounts

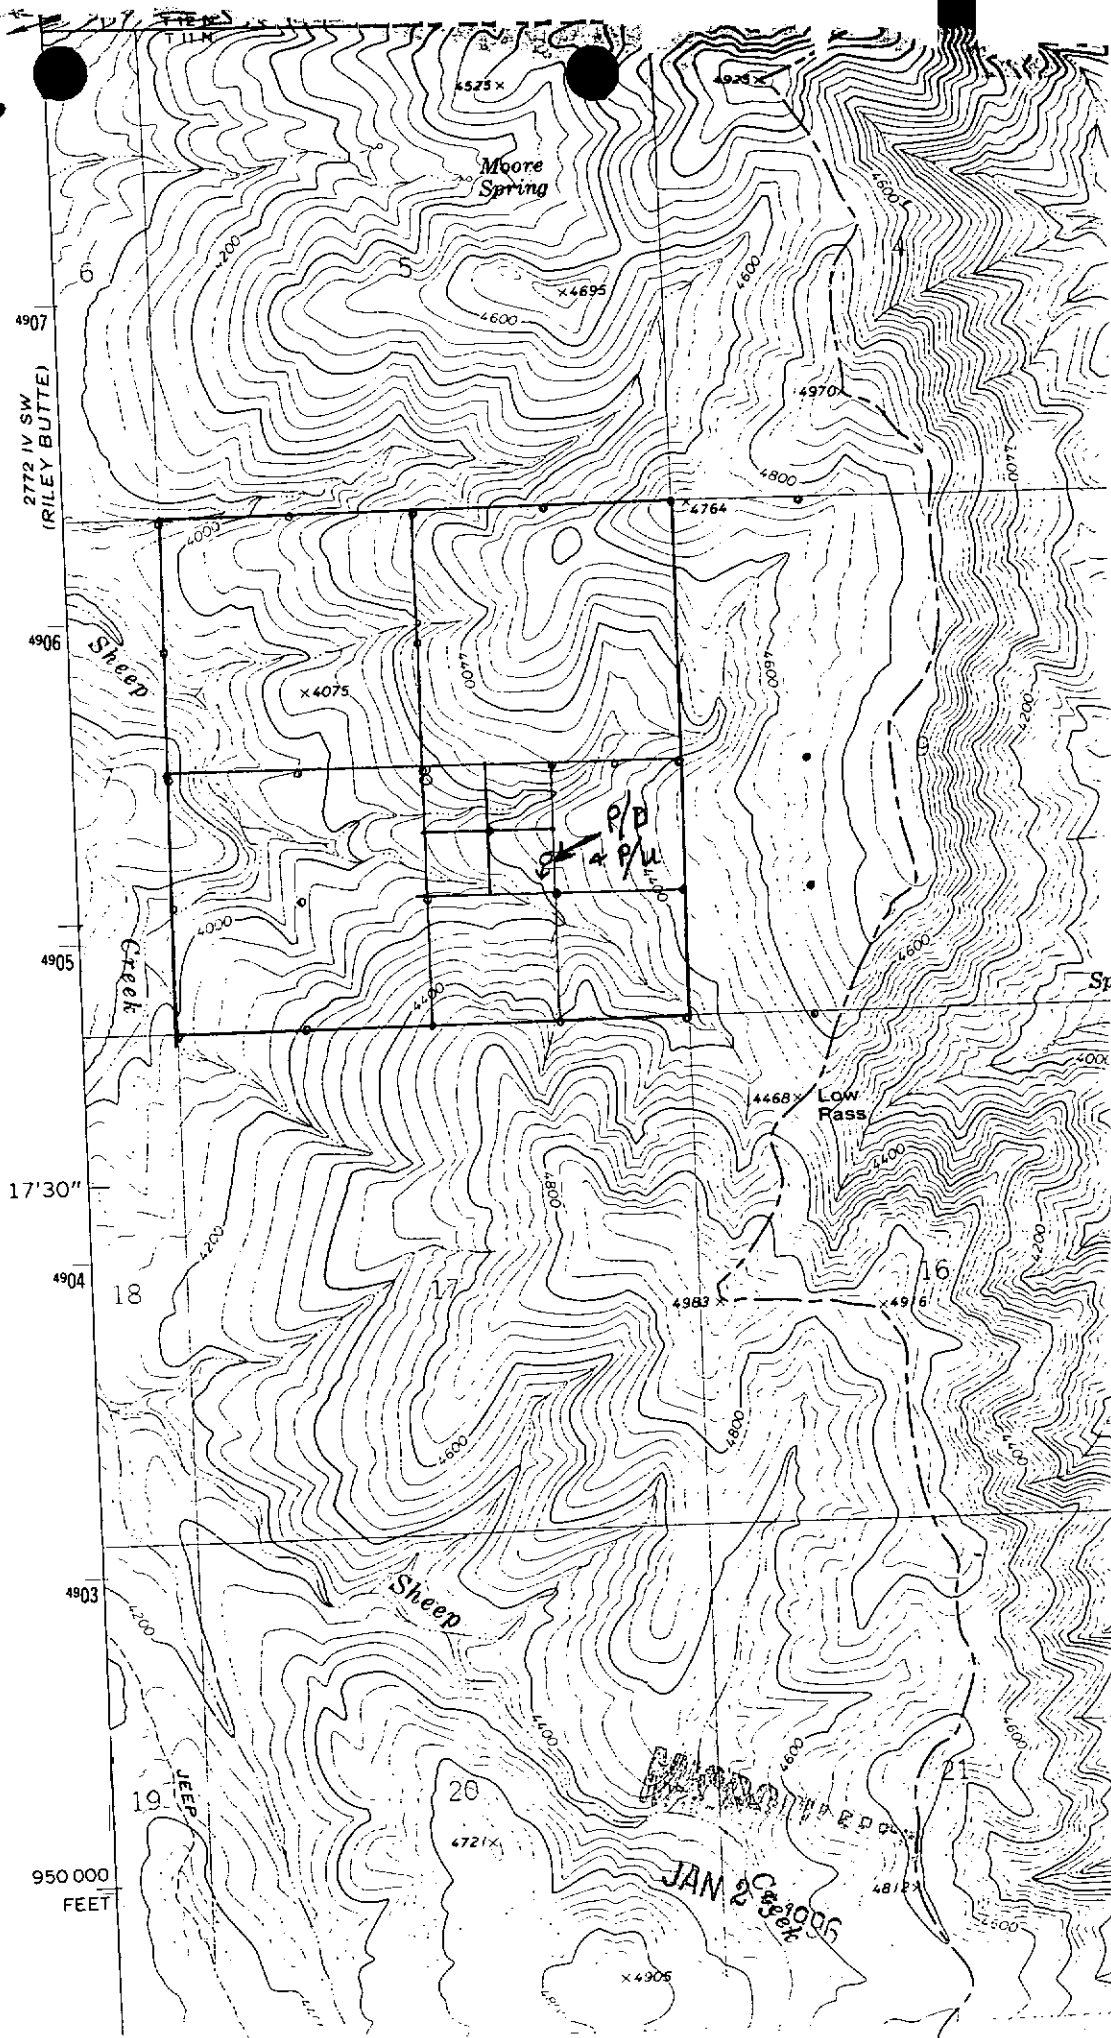

Beneficial Use	Period of Use	Rate of Div	Annual Vol
Stockwater	1-01 to 12-31	.05	2.7
Wildlife	1-01 to 12-31	.02	.1

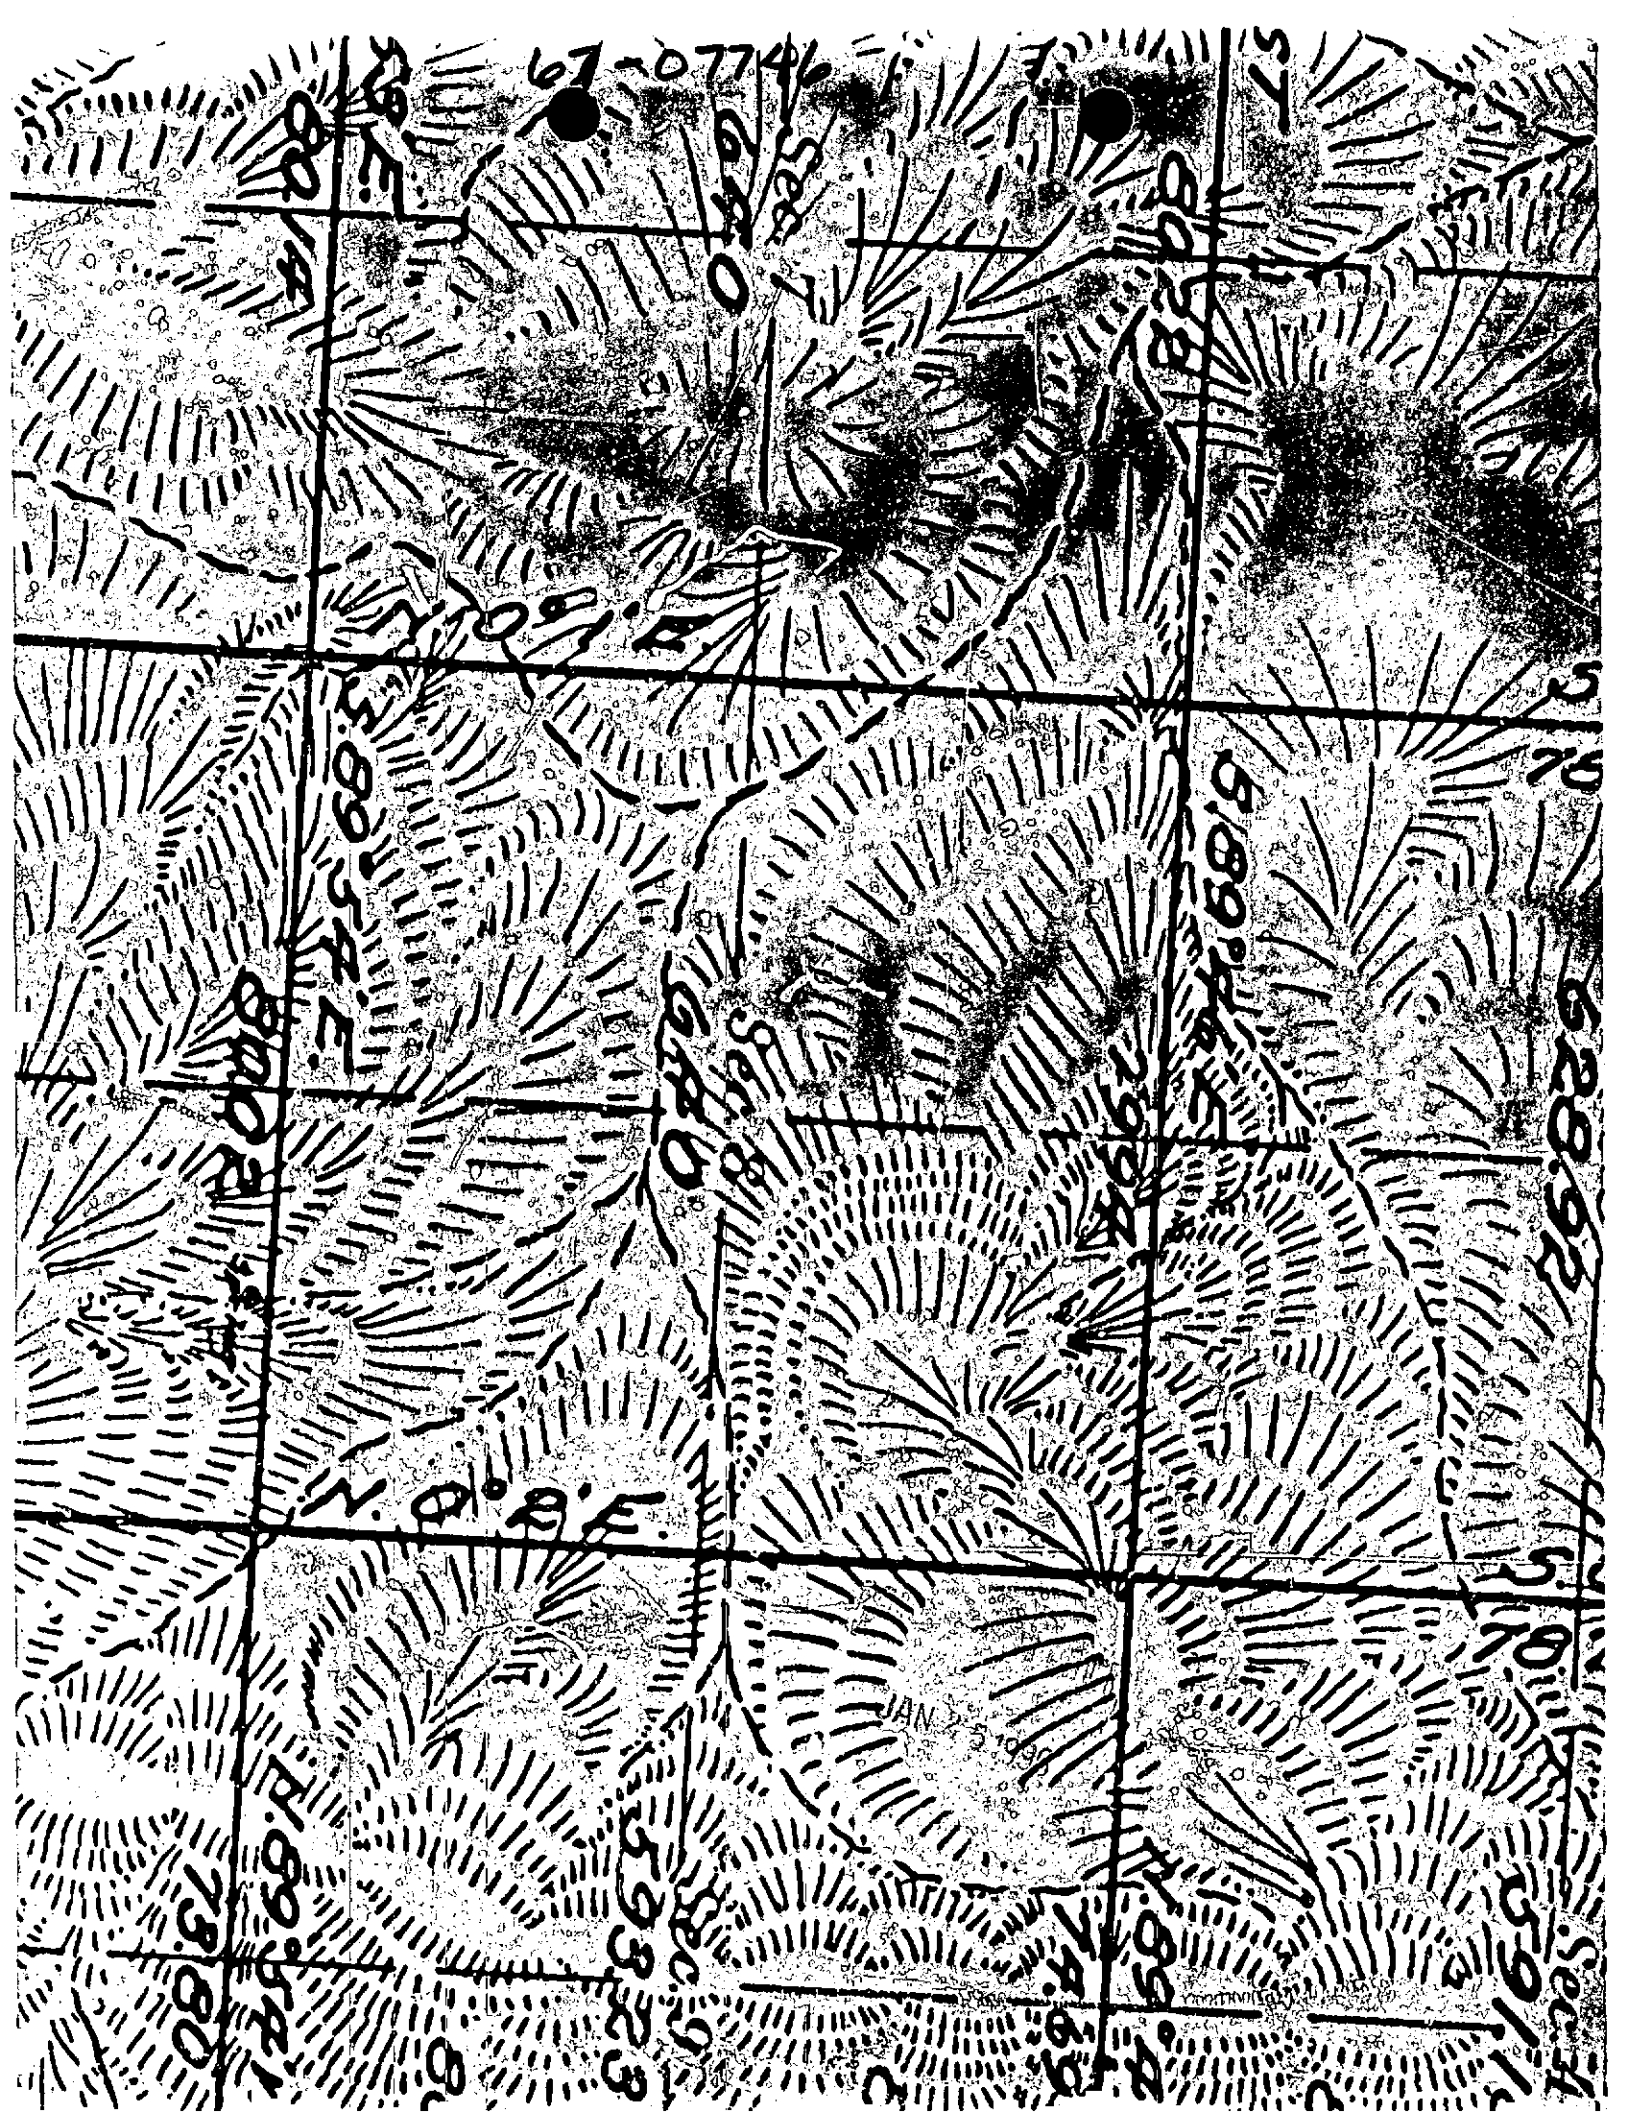

Unless there is information to justify a higher requirement, the usual wildlife volume recommendation is .1 af per location. The recommendation for the volumes to be additive gives the wildlife a portion in addition to what the 200 cattle will consume.

RE: BLM Water Permit # 67-07746

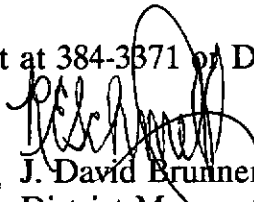

Dear Mr. Saxton:

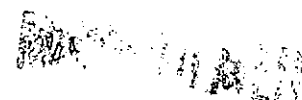

Water Permit # 67-07746 has lapsed because we failed to show proof of beneficial use within the allotted time.

Due to a personnel change in our State Office, we at the District Office did not receive your proof due notice. We received your lapse notice dated 10/6/93 on 2/3/94.

We apologize for letting the permit lapse. We request re-instatement of Permit # 67-07746. We have completed the project associated with this permit and are prepared to submit proof of beneficial use. We understand that if this permit is reinstated that our priority date will be penalized.

If you have questions please contact Jon Haupt at 384-3371 or Don Jossie at 384-3461.

LAPSE NOTICE

RE: PERMIT NO. 67-07746

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218A, Idaho Code, the above referenced permit has lapsed and is of no further force nor effect. The department provided the proper forms to you in our proof due notice dated July 31, 1993. No further construction or additional development is authorized under this permit unless it is reinstated.

The permit can only be reinstated if you submit an acceptable proof of beneficial use or an acceptable request for extension of time to the department within sixty (60) days of the mailing of this lapse notice. An acceptable proof of beneficial use submittal must include the examination fee or a completed field examination report. A request for extension of time must be accompanied by a fifteen dollar (\$15) fee.

Enclosed again for your use are a proof of beneficial use form and a request for extension of time form. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a government agency or by litigation which may bring title to the water in question.

PROOF DUE NOTICE

RE: PERMIT NO. 67-07746

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before October 1, 1993. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Karen L. Gustafson
Secretary/Records Manager
