CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. This right, when considered with all other rights common to the same grazing allotment, shall be limited to the quantity of water beneficially used by the number of stock within the allotment.

RE: Permit No. 57-07508, 65-13275, 67-07744

Dear Permit Holder:

The Department received your proofs of beneficial use statement for the above referenced permits on May 27, 1992. The permits lapsed in October and November of 1991, so the 60-day late period during which the permit can be readily reinstated has passed.

Because you failed to file the proof of beneficial use in a timely manner, and pursuant to Section 42-218a, Idaho Code, (copy enclosed) the permit can be reinstated only if you submit the following:

- a) Evidence to show that beneficial use of the water did commence and to show the extent of the use of water during the authorized permit period from the time the permit was issued until the proof due date, and
- b) Reasonable cause why the proof of beneficial use was filed late.

Your proof of beneficial use statement along with any information which may have been submitted with it, will remain on file in this office for 60 days to allow you an opportunity to assemble and submit the additional required information.

You should also be aware, that since the proof was filed late, your priority date has been penalized. Provided you supply the requested information, your priority date of will be advanced to May 27, 1992.

If you have any questions or if I can be of any further assistance, please feel free to contact me.

Sincerely,

Karen L. Gustafson

Re: Water right lapse

Dear Ms. Gustafson:

As per our telephone conversation of May 27, 1992, the Bureau of Land Management would like to reinstate all water rights which may have lapsed due to our confusion over the recent changes in the license examination fee schedules and the time it required us to verify license amendments.

New proofs of beneficial uses and the appropriate fees were filed on May 27, 1992, for the following claims at the Western Region IDWR office:

57-07508 ✓

65-13275 ✓

67-7744 ✓

Water right ammendment applications and the required fees were turned in the for following claims on May 27, 1992, at the Western Region IDWR office:

51-07264

51-07334

61-07501

61-07495

61-07496

If you have questions concerning these water rights, please contact Mark Vinson at 384-3461.

Sincerely,

Rodger E. Schmitt
Associate District Manager

Re: Permit No. 67-07744

Dear Permit Holder:

Returned once again is the proof of beneficial use submitted to this office on November 20, 1991 and again on January 3, 1992. I note that you have changed the cfs to .04 in order to avoid the license exam fee.

I apologize for not making myself clear in my earlier correspondence to you. However, in order to be exempt from the license exam fee, you must meet two requirements. They are:

1. You must utilize a groundwater source.
2. The total rate of diversion cannot exceed .04 cfs.

As you can see, you do not meet the first requirement since the source of water is a spring, not groundwater.

Therefore, the minimum fee requirement is \$50. I also want to advise you to apply for the appropriate amount of water. When the field exam is done, if the field examiner determines that you are using more water than you have applied for, penalties can be imposed. In conjunction with the possible penalties, at that time, you would also be required to pay the additional license exam fee before the licensing process could be completed. Please note that this permit was issued for .05 cfs. The license exam fee for .04 and .05 cfs is \$50. Therefore, I would advise that you apply for .05 cfs.

Since this permit has already lapsed, it is of no further force nor effect. Therefore, it is imperative that you return to corrected form and applicable fee within 20 days of the date of this mailing.

I realize that this can be confusing, so if you have any questions or if I can be of any further assistance, please feel free to contact me.

Sincerely,

Karen L. Gustafson

Re: Permit No. 67-07744

Dear Permit Holder:

Returned is your Proof of Beneficial Use form submitted to this office on November 20, 1991, indicating the total rate of water use to be .05 cfs.

When the total maximum rate of diversion is greater than 0.04 cfs, a license examination fee is required to be submitted with the proof. A license examination fee based on a rate of flow of .05 cfs. is \$50. Note the back of the enclosed instruction sheet/fee schedule.

I realize that as a government agency using water for wildlife purposes you have not had to pay this fee in the past. However, pursuant to Section 42-221K, Idaho Code, the department has determined that a license exam fee is applicable.

Please return this form and fee to me within 30 days of the date of mailing. Upon receipt of the proof form and fee, we will continue processing your proof by notifying the region that a field exam is needed.

If you have any questions or should you wish to discuss this further, please feel free to contact me or L. Glen Saxton.

Sincerely,

Karen L. Gustafson
Secretary/Records Manager

LAPSE NOTICE

RE: PERMIT NO. 67-07744

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218A, Idaho Code, the above referenced permit has lapsed and is of no further force nor effect. The department provided the proper forms to you in our proof due notice dated August 31, 1991. No further construction or additional development is authorized under this permit unless it is reinstated.

The permit can only be reinstated if you submit an acceptable proof of beneficial use or an acceptable request for extension of time to the department within sixty (60) days of the mailing of this lapse notice. An acceptable proof of beneficial use submittal must include the examination fee or a completed field examination report. A request for extension of time must be accompanied by a fifteen dollar (\$15) fee.

Enclosed again for your use are a proof of beneficial use form and a request for extension of time form. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a government agency or by litigation which may bring title to the water in question.

PROOF DUE NOTICE

RE: PERMIT NO. 67-07744

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before November 1, 1991. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck
