CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Use of water under this water right will be regulated by the watermaster of State Water District No. 67.
6. No water shall be diverted under this right after 6/15 of each

RE: Water Right No. 67-07589, 67-07733, & 67-07837

Dear Mr. Jepson:

I recently received a 'New Property Owner Notice of Change of Water Right Ownership' form on the above referenced water rights.

Water Right Nos. 67-07589 and 67-07733 are licensed water rights. In Idaho, decreed, licensed, and claimed water rights are considered real property; therefore, proof of owning the land is proof of owning the water rights unless specifically excluded in the sale. Water right statute does not provide a means for changing owner of record for decreed water rights; although, I have placed your correspondence in each of the files for future reference.

Water Right No. 67-07837 is in the stage of a permit. In Idaho, a permit is considered personal property and can only be assigned by the owner of record. Our records identify Henry J. Williams as owner of the permit. The form submitted was not signed by Mr. Williams and, therefore, is not acceptable.

I have enclosed a partially completed 'Assignment of Permit' form which Mr. Williams may sign and have notarized.

If you have any questions, please feel free to contact me directly at 327-7944.

Sincerely,,

Cindy Zimmerman

3. Narrative: Description (As operating at time of measurement. Indicate pressure, number of sprinklers, etc.)

A 2' x 4' box was placed in the Keweenaw River as a diversion system. A buried, 10" PVC pipe carried the water from the river to a 130' x 70' x 8' reservoir. Overflow from the reservoir flowed into another 10" pipe which flowed into a ditch approx. 800' from the reservoir. The ditch returned the water to the river. The reservoir was used solely for recreational purposes. A weir was installed in the ditch to measure the overflow. Since no water was pumped from the pond, the diversion rate equals the overflow rate. The weir was a 1' orifice and the head was 1.2 inches.

PROOF DUE NOTICE

RE: PERMIT NO. 67-07733

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before July 1, 1989. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck
Secretary/Records Manager
