OF THE STATE OF IDAHO

IN THE MATTER OF PERMIT NO. 67-07732 IN THE)
NAME OF ARTHUR FAIRCHILD) ORDER OF REINSTATEMENT
_____)

WHEREAS, the Department issued the above-captioned permit with the condition that proof of construction of works and application of water to beneficial use (proof of beneficial use) be submitted on or before July 1, 1991; and,

WHEREAS, the Department notified the permit holder by certified mail that proof was due and instructed the permit holder that the permit lapsed for failure of the permit holder to submit the proof of beneficial use; and,

WHEREAS, the Department notified the permit holder that the permit lapsed for failure of the permit holder to submit the proof of beneficial use; and,

WHEREAS, Section 42-218a of the Idaho Code provides that a permit may be reinstated upon a showing of reasonable cause within sixty days of the date of the notice of lapsing; and,

WHEREAS, the permit holder has provided a reasonable showing why the permit should be reinstated by submitting proof of beneficial use on July 30, 1991;

IT IS, THEREFORE, HEREBY ORDERED that Permit No. 67-07732 be REINSTATED with an advance in priority date to April 26, 1988.

Dated this 8th day of November, 1991.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 67-07732, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

a. SUBJECT TO ALL PRIOR WATER RIGHTS.

b. Proof of construction of works and application of water to beneficial use shall be submitted on or before July 1, 19 91.

c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.

d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.

e. Other: Permit holder shall commence the excavation or construction of diverting works within one year of the date this permit is issued and shall proceed diligently until the project is complete.

Permanent measuring devices must be installed in such a manner that the amount of water entering the reservoir and the amount of water released from the reservoir can be measured.

The storage of water under this permit is contingent upon the certification of the dam and authorization of storage per the dam safety provisions of the Idaho Code.

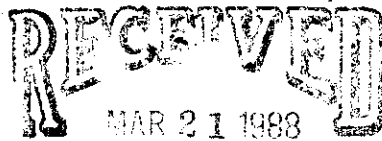

No water shall be diverted under this permit after June 15 of each year without prior approval of the watermaster.

Use of water under this permit is subject to control by the watermaster of State Water District No. 67, Weiser River.

Witness my hand this 28 day of JUNE, 1988.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 67-07732

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. Enclosed is an order advancing the priority of the permit since the proof was received after the proof due date. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the WESTERN Regional Office in Boise at (208)334-2190.

Sincerely,

Nina Shields
Secretary/Records Manager

RE: PERMIT NO. 67-07732

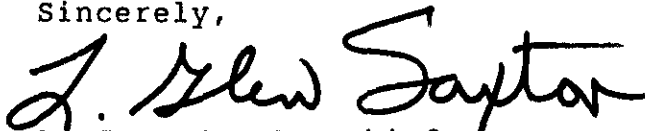

Dear Mr. Fairchild:

The department has reviewed the proof of beneficial use which you submitted on July 30, 1991 in connection with the above referenced permit. This permit authorizes the storage of water on Sage Creek to be used for irrigation purposes.

Before the department can accept the proof, you need to submit a license examination fee in the amount of one hundred dollars (\$100). This fee is a different fee than the permit fee of forty-five (\$45) which you submitted when you filed the application in 1988.

Since the permit has already lapsed, you need to submit the fee promptly in order to keep the permit in good standing. Please feel free to contact the department if you have questions.

Sincerely,

L. GLEN SAXTON, Chief
Water Allocation Bureau

LAPSE NOTICE

Dear Mr. Fairchild:

Re: Permit No. 67-7732

This department returned the Proof of Beneficial Use form and the Request for Extension of Time form to you on May 29, 1991, and indicated that only one of these documents should be submitted. Action was required on this matter by July 1, 1991.

You are hereby notified that under the provisions of Section 42-218A, Idaho Code, the above referenced permit has lapsed and is of no further force nor effect. The department provided the proper forms to you in our proof due notice dated April 30, 1991. No further construction or additional development is authorized under this permit unless it is reinstated.

The permit can only be reinstated if you submit an acceptable proof of beneficial use or an acceptable request for extension of time to the department within sixty(60) days of the mailing of this lapse notice. An acceptable proof of beneficial use submittal must include the examination fee or a completed field examination report. My letter dated May 29, 1991, to you stated that if we had not received proper documentation within ten days I would start the refund process necessary to return the fifteen dollars you submitted in May. I have initiated that process.

Enclosed again for your use are a proof of beneficial use form and a request for extension of time form. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a government agency or by litigation which may bring title to the water in question.

MICROFILMED

MIDVALE ID 83645

Dear Mr. Fairchild:

Re: Permit No. 67-7732

Returned is the Proof of Beneficial Use form and the Request for Extension of Time form. Only one of these documents should be submitted.

If the project is complete, that is, you are diverting and beneficially using the water for irrigation storage, diversion of irrigation water to storage and irrigation from storage during the 1991 irrigation season, then you should complete and return the proof of beneficial use form with the appropriate fee. The fee is based on the actual rate of diversion or storage capacity, whichever the fee is greater for. The fee is a license exam fee and must be submitted with the proof of beneficial use form for the proof to be acceptable.

If the project is not complete and you need additional time, then you should complete and return the request for extension of time form. Answer the questions as accurately as possible.

Note that action is required on this matter by July 1, 1991. I will hold the \$15 for ten days, if at that time I have not received proper documentation from you, I will prepare a refund. If you should send in the proof of beneficial use form subtract the \$15 fee from the fee required. If you return the extension request, no additional fee is required.

Contact me if you have questions.

Sincerely,

RITA I. FLECK
Secretary/Records Manager

PROOF DUE NOTICE

RE: PERMIT NO. 67-07732

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before July 1, 1991. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck
Secretary/Records Manager

RE: PERMIT NO. 67-07732

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct you attention to the conditions of approval on the final page.

If the diversion dam is 10 feet or more in height, or has an impounding capacity of 50 acre-feet or more, certain dam safety requirements must be met. Please contact the regional office nearest you for details.

Please note the requirement that as a permit holder you must commence the excavation or construction of diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The enclosed blue card must be completed and returned to this office as soon as you commence construction, no later than one year from the date the permit was approved.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a license.

Sincerely,

Gary Spackman
Supervisor, Water Allocation Section

Dear Mr. Fairchild:

We recently received a water right application for permit from you to appropriate water from Sage Creek for irrigation use. There are, however, some problems which must be resolved before we can process this application. I am returning your application so that corrections can be made.

The most important problem is that you did not sign your application. We can not process an application until it is signed.

The second problem is with Item 4, the amount of water you filed for. Although your reservoir volume is 42 acre-ft., your application would be more accurate if it appears as follows:

? cfs Diversion to Storage (1/1 to 12/31)
42 a-f Irrigation Storage (1/1 to 12/31)
42 a-f Irrigation from Storage (3/15 to 11/15).

Such a description will more clearly describe your proposed water use. You will have to estimate the "Diversion to Storage" rate which is the amount of water you can divert from Sage Creek to your reservoir. Your \$45.00 fee will cover a diversion rate up to 1.00 cfs.

The last problem concerns your "Application For The Construction of a Small Dam". Although it was completed correctly, the required \$50.00 fee did not accompany your application. Please submit this fee so that we can process your dam application.

I have taken the liberty of preparing a new water right application showing the changes I discussed above. Please review this new application, correct any problems, and return it to my attention. You must return this application within 30 days, or the priority date established when your application reached our office may be advanced. Feel free to contact this office if you have any questions.

Sincerely,

Brad E. Dingee
Sr. Water Resource Agent
