Dear Water Right Holder(s):

The above referenced water right is in the process of being licensed. However, before a license can be issued, your permit must be amended to correspond with the findings of the Department's field examiner.

The enclosed Application for Amendment contains information that will be included on the license when it is issued. The amendment reflects a change in the location of the place(s) of use description. Please review carefully and if you concur, sign the amendment and return with the \$50.00 filing fee within 14 days.

The last page of the Application for Amendment form contains a list of CONDITIONS/REMARKS proposed for the license when it is issued. These conditions/remarks may be modified upon further administrative review.

If you do not concur or have any questions with this information, please contact me as soon as possible. My telephone number is (208) 327-7947.

Sincerely,

MEMORANDUM

TO: ATTACHMENT TO FIELD REPORT 67-07676
FROM: PAM SKAGGS
RE: IRRIGATION PORTION OF SYSTEM 67-07676
DATE: 24-MAR-1993

Review of the field report on this right resulted in recommendations to include the IRR portion of this right as part of a larger groundwater IRR system partially covered under right 67-07802.

This permit was originally filed with 2 groundwater points of diversion and DOM, STOCK and IRR uses. Proof was received on 12-26-89 listing all uses on the permit and the fee of \$125.00 was paid for 1.42 cfs.

On 02-13-90, an amended proof was filed with the Department listing 2 wells drilled, STOCK and no IRR. The rate was reduced to 0.04 cfs and the original fee was partially transferred to the proof fee for 67-07802 and the remainder was refunded. No beneficial use fee was paid for this permit.

The field examiner describes irrigation under both this right and 67-07802 from the same system for a total of 92.6 acres; 49.2 acres in Section 15 under this right and 43.4 acres in Section 9 and 16 under 67-07802. Right 67-07802 is limited by the permit to a total of 46 acres, and the acres in Section 15 while covered under 67-04313 and SRBA claim A67-02255 using Warm Springs Creek, have no groundwater rights on these acres other than this permit.

Total Acres under system = 92.6
Total Capacity of IRR well = 1.47 cfs
 $1.47 \text{ cfs} / 92.6 \text{ acres} = .01585 \text{ cfs/acre}$

67-07676 = $49.2 \text{ acres} \times 0.01585 \text{ cfs/acre} = 0.78 \text{ cfs (IRR)}$
67-07802 = $43.4 \text{ acres} \times 0.01585 \text{ cfs/acre} = 0.69 \text{ cfs (IRR)}$

No IRR use can be recommended on this right unless the required B/U fee of \$100.00 and the \$50.00 late penalty fee is paid. If the fees are paid, the IRR of 49.2 acres within the total system (PPU) can be recommended for licensing at the rate shown above. A licensing amendment will also be required to change the P/D and add P/U; a licensing amendment is required to change the P/U if licensed as recommended prior to fees. If the fees are not paid, the IRR under this right will be an illegal diversion of groundwater.

H. REMARKS AND OVERLAP REVIEW ANALYSIS

* The P/U is incorrect, Section 9 is not watered by this system.

x Other WR's listed Do overlap this permit, According to WR# 67-4313. This permit was to cover 67 acres I found 49 in use. Apparently a claim was filed to change those acres to be covered by the well as in 67-7802. Now as that WR stands, there are no overlaps. The Irrigation permit was amended the acres are covered under WR 67-4313.

Dear Mr. Winegar:

Re: Permit Nos. 67-7676 and 67-7802

The department received the proof of beneficial use forms. The fee requirement has been removed for Permit No. 67-7676 and \$100 has been applied to the proof submittal for Permit No. 67-7802. I have initiated a refund of \$25. It will be sent to you later from the Auditor's Office.

The next step is for the department to conduct the field inspection to confirm and determine the extent of beneficial use. I cannot tell just when the representative from our Western Regional office will conduct the exam, but he will try to contact you prior to being in the area.

If you have questions, please contact me.

TO: Permit No. 67-7676 and 67-7802

FROM: Rita Fleck

Re: Proof of Beneficial Use Submittals

On December 26, 1989, the department received the proof of beneficial use form from Rex Winegar for Permit No. 67-7676 with a fee of \$125. On February 13, 1990, Dave Tuthill received another proof of beneficial use form for the same permit. Mr. Winegar wishes the department to accept this second amended proof.

The difference between the two proofs is that Mr. Winegar is indicating his only use as stockwater at 0.04 cfs for which there is no fee.

Also on February 13, 1990, Mr. Winegar submitted proof of beneficial use for Permit No. 67-7802. On this form, Mr. Winegar indicates he has developed 46 acres of irrigation with a diversion rate of 0.92 cfs. The license exam fee based on 0.92 cfs is \$100. Since the amended proof for Permit No. 67-7676 now requires no fee, Mr. Winegar wants \$100 applied to the license exam fee for Permit No. 67-7802. The remaining \$25 will be refunded.

Rex Winegar's address is 970 Johathan Rd., Weiser, ID 83672.

RE: PERMIT NO. 67-07676

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before January 1, 1990. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

RE: PERMIT NO. 67-07676

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218A, Idaho Code, the above referenced water permit has lapsed. This office did not receive either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time. You were provided the proper form in our proof due notice to you dated October 31, 1988.

Your permit cannot be reinstated unless you submit proof of beneficial use or submit an extension of time request showing reasonable cause for delay. Either the completed proof of beneficial use submittal (including the examination fee or a completed field examination report) or the extension request form together with the \$15 fee must be received by this department within sixty days of the date of mailing of this lapse notice or the permit will no longer be of any force or effect.

A proof of beneficial use form and a request for extension of time form are again enclosed for your use. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a governmental agency or by litigation which might bring title to the water in question.
