To appropriate the public waters of the State of Idaho

1. Name of applicant Grossen, Norma &/or Tom Phone 256-4419

Post office address Indian Valley, ID 83632

2. Source of water supply Little Weiser River which is a tributary of Weiser River

3. Location of point of diversion is SW $\frac{1}{4}$ of NW $\frac{1}{4}$ of Section 23 Township 14N

Range 1W B.M. Adams County, additional points of diversion if any:

NWSE, Sec. 15, T 14N, R 1W

4. Water will be used for the following purposes:

Amount 7.24 for Irrigation purposes from 4/1 to 11/1 (both dates inclusive)
(cfs or acre-feet per annum)

Amount for purposes from to (both dates inclusive)
(cfs or acre-feet per annum)

Amount for purposes from to (both dates inclusive)
(cfs or acre-feet per annum)

Amount for purposes from to (both dates inclusive)
(cfs or acre-feet per annum)

5. Total quantity to be appropriated:

a. 7.24 cubic feet per second and/or b. acre-feet per annum.

6. Proposed diverting works:

a. Description of ditches, flumes, pumps, headgates, etc. Grays Creek and Steward Ditches

b. Height of storage dam feet, active reservoir capacity acre-feet; total reservoir capacity acre-feet, materials used in storage dam:

Period of year when water will be diverted to storage to inclusive.
(Month/Day) (Month/Day)

c. Proposed well diameter is inches; proposed depth of well is feet.

7. Time required for the completion of the works and application of the water to the proposed beneficial use is 5 years (minimum 1 year - maximum 5 years).

8. Description of proposed uses:

a. If water is **not** for irrigation:

(1) Give the place of use of water: $\frac{1}{4}$ of $\frac{1}{4}$ of Section Township
Range B.M.

(2) Amount of power to be generated: horsepower under feet of head.

(3) List number of each kind of livestock to be watered

(4) Name of municipality to be served , or number of families to be supplied with domestic water .

(5) If water is to be used for other purposes describe:

APPROVED

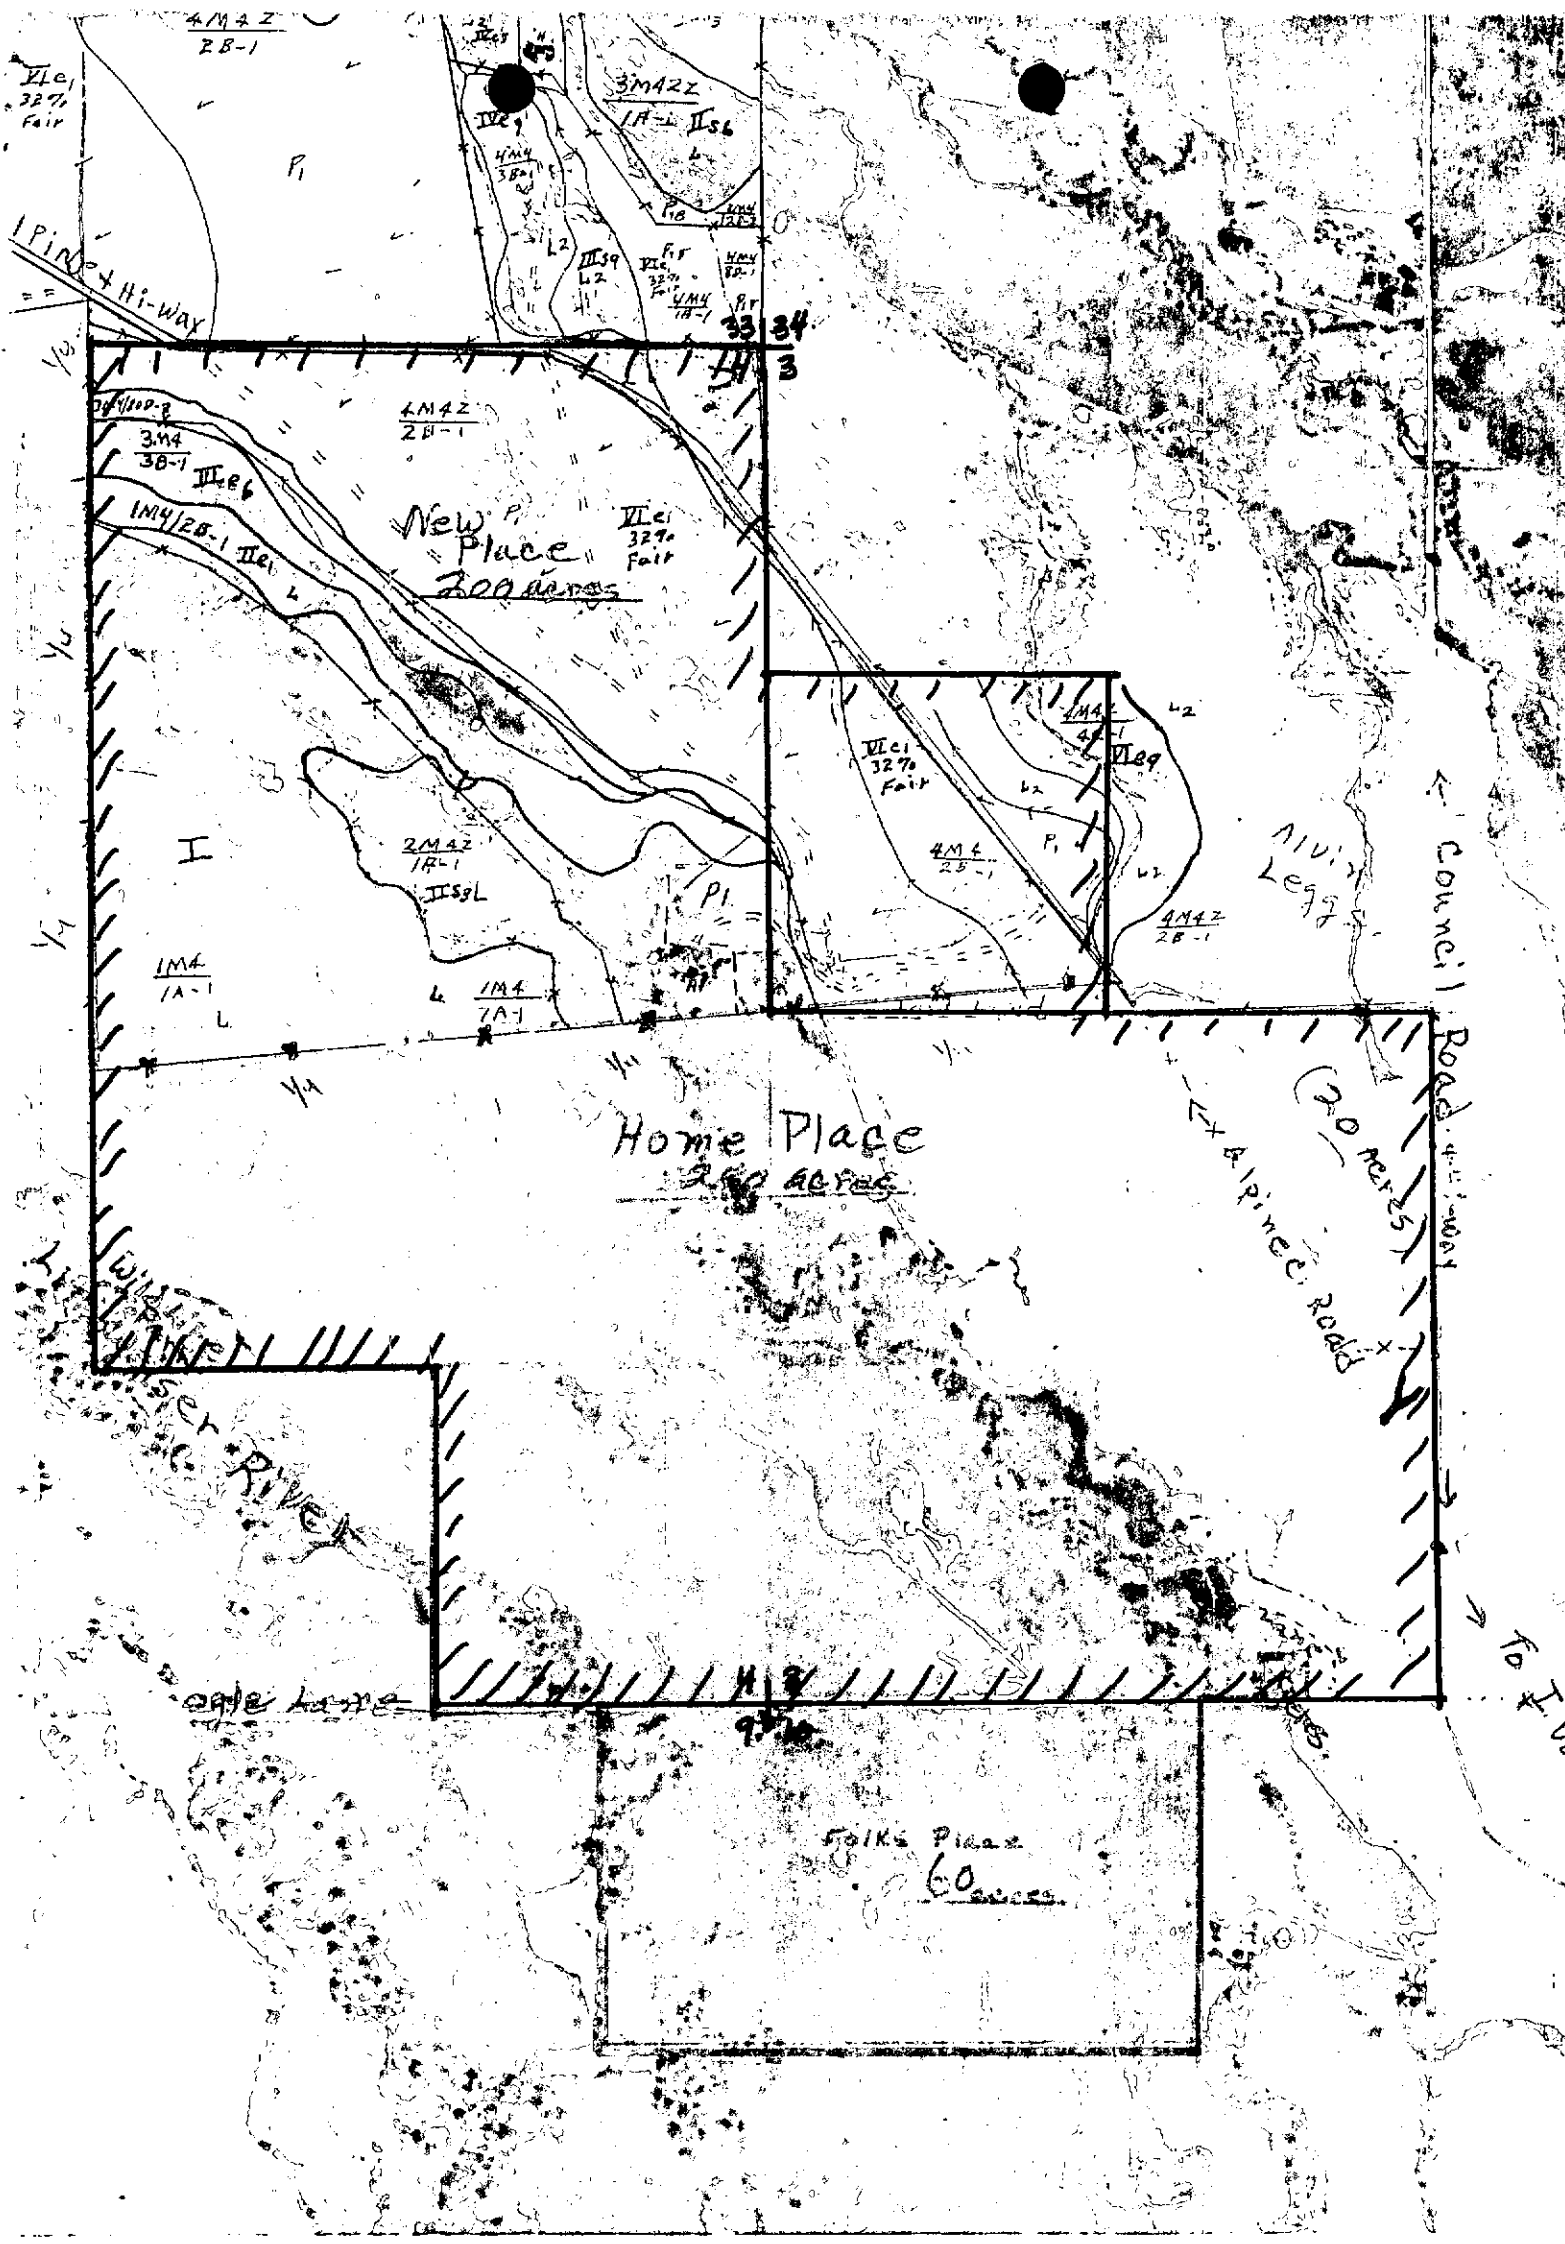

UNCLASSIFIED

Total number of acres to be irrigated	480
---------------------------------------	-----

67-0427, 67-0459 (Part), 67-0453 and storage 67-2385

c. If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing

10. Remarks A portion of this land has received additional water -- this filing
includes that additional water which has been previously used.

11. Map of proposed project: show clearly the proposed point of diversion, place of use, section number, township and range number.

A full page of blank graph paper. The grid consists of 20 columns and 20 rows of small squares, formed by thin black lines. There are no margins or other markings on the page.

Scale: 2 inches equal 1 mile.

BE IT KNOWN that the undersigned hereby makes application for permit to appropriate the public waters of the State of Idaho as herein set forth.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 67-7524, and said application is hereby approved.

1. Approval of said application is subject to the following limitations and conditions:

- a. SUBJECT TO ALL PRIOR WATER RIGHTS.
- b. Proof of construction of works and application of water to beneficial use shall be submitted on or before March 1, 19 86.
- c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.
- d. Other:

A measuring device of a type approved by the Department shall be permanently installed and maintained as part of the diverting works.

The issuance of this permit in no way grants any right-of-way or easement across the land of another.

Use of water under this permit is subject to control by the watermaster of State Water District # 67-A, Little Weiser River.

No water shall be diverted under this permit after June 15 of each year without prior approval of the watermaster.

Witness my hand this 24th day of March, 1981.

MEMORANDUM

DATE: 2/4/2003

FROM: Lori Graves

TO: Kay Walker

RE: Tom Grossen Permit No. 67-7866

Hi Kay,

I visited with Tom Grossen January 27, 2003 to discuss the details of water right 67-7866. He diverts with two identical 25 hp pumps out of Greys Creek Ditch. I called Gilbert with Farm Commercial Irrigation Company in Weiser, where Tom purchased the pumps, and he supplied me with a pump curve indicating that the designed capacity for each pump is 500 gpm. This is based on 65 psi and 10 feet of lift for a sprinkler irrigation system.

The permit lists two possible diversion points. Based on a gps reading that I took for the Greys Creek Ditch diversion last summer, the correct p/d should be listed as the NESWNW S23 T14N R1W.

With regards to the other permits (67-752~~4~~ and 67-7525), they involve Steward Ditch, which is used for gravity irrigation. I'll have to get a ditch measurement this next summer since there are no pumps involved.

Thanks Kay.

To: Graves, Lori
Cc: Walker, Kay
Subject: RE: Grossen Permits

Hi... According to the exam for 67-07524 water is delivered thru Grays Creek and Steward Ditches, entering Tom's property in SESW, Sec. 3... If Steward Ditch is used for Irene's permit (as described on exam) then we just need to know capacities of the 2 ditches???? I'm really sorry to ask you for more information than you bargained for but we will have to have it sooner or later. kay

-----Original Message-----

From: Graves, Lori
Sent: Thursday, January 23, 2003 1:04 PM
To: Walker, Kay
Subject: RE: Grossen Permits

Hey Kay, Tom's permits are off Greys Creek Ditch. Irene's are off of Stewart Ditch, which also comes out of the Little Weiser. I'll get the scoop from Tom regarding the irrigation system for 67-7525. lg

-----Original Message-----

From: Walker, Kay
Sent: Thursday, January 23, 2003 12:21 PM
To: Graves, Lori
Cc: Walker, Kay
Subject: Grossen Permits

Lori: I pulled Permit 67-07525 (Irene Grossen) since it is in same area as Tom Grossen's permits. I find there is no measurement for this permit either. The water under this permit is delivered through Steward Ditch (same as one of Tom Grossen's p/ds???) but the diversion point recommended on the exam is not same as diversion on Tom's permit???. If water is delivered through a ditch shouldn't the point of diversion be the head of the ditch? That is the case with 67-07524 but not this one. Since you are getting information for Tom's permits could you see if you can get a measurement for Irene's too? I have copied the exam and sent it over in the mail. The file has never been micro-filmed so if you need more information you will need to call me.

I guess this is what I get for trying to license permits that no body asked for..... Kay

Measurement Equipment	Type	Make	Model No.	Serial No.	Size	Calib. Date

2. Measurements: _____

E. NARRATIVE/REMARKS/COMMENTS

Permit developed to supplement decreed & Storage water on approx. 280 acres, and to develop about 175 new acres. New acres were placed in federal Wheat & Feed Grain Program. Water is delivered in Grays Creek and Steward Ditches, from Little Wuser River, both entering property @ SE corner, in SESW Sec 3. Flows are applied in gravity systems comprised of open ditch and/or gated pipe. Ditch capacity assumed sufficient.

Rt is limited to diversion prior to June 15 (floodwaters). Rt not typically delivered after WM is called due to late priority.

This rt filed to supplement acres with full duty of water when combined with 65-00427. (65-00427 decreed for 1.94 cfs for 238 acres in same area. $425 \times .02 = 8.5 \text{ cfs} - 1.94 = 6.56 \text{ cfs}$ this permit.)

Portion of property remains enrolled in wheat feed grain program until 2003 per Nancy Reed & Adams Cty CFSA office.

Have conditions of permit approval been met? ☒ yes ☐ no

F. FLOW CALCULATIONS

_____ Additional Computation Sheets Attached

Measured Method:

G. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

$$V_{I.R.} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = 425 \times 4 = 1700$$

$$V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = 6.56 \times 214 \times 1.9835 = 2784.5$$

$$V = \text{Smaller of } V_{I.R.} \text{ and } V_{D.R.} = 1700$$

2. Volume Calculations for Other Uses:

RE: ASSIGNMENT OF PERMITS 67-07524/67-08012

Dear Mr. & Mrs. Grossen:

The department acknowledges receipt of correspondence changing ownership of the above referenced permits to you and Northwest Farm Credit Services ACA. The department has modified its records to reflect the changes in ownership and has enclosed computer-generated reports for your records.

Please note that as of July 1, 1996, water right owners are required to report any change of water right ownership and any change of mailing address of the owner of a water right to the department. Notice of the change must be provided to the department within 120 days of the change. Change reporting forms are available from any office of the department.

Please feel free to contact the department if you have questions.

Sincerely,

Jeff Peppersack, Manager
Water Right Permits Section

RE: Grossen #6385

Enclosed please find two Assignments of Permits #A67-07524 and A67-08012, that assign water permits from Tom and Norma Grossen to Northwest Farm Credit Services, ACA. These assignments are being used as security for a real estate loan and we request that all notices and correspondence relating to them be sent to our office. Please record the assignments and return with a letter acknowledging receipt.

Thank you. If there are any questions, please feel free to contact either Dick Fisher or me.

RE: Water Right No. 67-07524

Dear Water Right Holder(s):

Department water right records show that you divert water from the Snake River or its tributaries under a water right that has a priority date later than December 29, 1976. This is the priority of the established minimum stream flow of the Snake River at the Weiser Gage (Weiser) in the amount of 4,750 cubic feet per second.

Because of the continuing drought conditions in the Snake River Basin, department hydrologists project that during 1992, there could be periods when the required minimum flow will not be satisfied due to low flows of the Snake River. The department urges you to not divert at a higher rate than authorized by your water right and to not use your right in any manner different than authorized. In addition, when the minimum flow will not be satisfied or is not being satisfied, you are required to cease diverting water under your water right, because your right is of later priority than the minimum stream flow at Weiser.

If the department determines the minimum flow will not be satisfied, the department will advise you and will provide as much lead time as possible in requiring that you temporarily cease your diversion of water. The greatest likelihood for this to occur is during a period from mid-June to late June.

While the department expects good cooperation from junior water right holders, water users should be aware that Section 42-352, Idaho Code, provides for penalties of up to \$100 per day for unauthorized diversions of water.

The department has contacted both the Idaho Power Company and the U.S. Bureau of Reclamation with respect to the timing of storage releases from upstream reservoirs for flow enhancement purposes. This type of coordination could minimize the impact on

UNRECORDED

FILED IN 1992

existing water users and reduce the need to curtail diversions.

The department has scheduled public information meetings relative to this potential regulation as follows:

Mountain Home - June 4, 1992 - 10:00 a.m. - gymnasium at
North Elementary School, 290 E. 12th N.

Caldwell - June 4, 1992 - 7:00 p.m. - Ballroom in the
Student Union Building, Albertson College of Idaho,
2112 Cleveland

If you have questions concerning this letter or wish to provide the name of a different contact person or address to receive department correspondence, please contact the department.

Sincerely,

L. GLEN SAXTON
Chief, Water Allocation Bureau

CERTIFIED MAIL

EXAMINATION FEE NOTICE

Dear Permit Holder:

Department records show that proof of beneficial use has been submitted for the above-referenced permit, but that a field examination has not yet been conducted to determine the extent of beneficial use of the water for licensing purposes.

House Bill 671 (effective April 4, 1986) enacted by the 1986 Idaho Legislature requires the payment of a fee before this department can conduct the field examination needed to issue a license confirming use of water under the permit. This letter is notification that the license examination fee is due within sixty (60) days of the date of this letter. The examination fee information sheet (enclosed) must be returned with the fee.

As an alternative to submitting the fee, the department will accept a field examination report completed by a certified water right examiner from the private sector. If you choose to have the examination done by a certified water right examiner, you need not submit the license examination fee to the department, but you must within sixty (60) days of the date of this letter return to the department, the examination fee information sheet showing appropriate information together with a statement from the certified examiner to verify that you have retained a certified examiner to conduct the field examination. If you choose this alternative, a completed field examination report must be submitted within one year of the date of this letter. You cannot later change your decision to use this alternative and submit the fee needed for the department to conduct the field examination, but you may change to another certified examiner.

PROOF DUE NOTICE

RE: PERMIT NO. 67-7524

DEAR PERMIT HOLDER:

ONE OF THE CONDITIONS OF APPROVAL OF THE ABOVE REFERENCED WATER PERMIT WAS THAT PROOF OF THE EXTENT OF YOUR BENEFICIAL USE MUST BE SUBMITTED TO THIS OFFICE ON OR BEFORE MARCH 1, 1986. (SEE LAST PAGE OF YOUR APPROVED PERMIT OR YOUR LAST APPROVED EXTENSION REQUEST.) ENCLOSED IS A FORM WHICH MAY BE USED TO SUBMIT THE REQUIRED PROOF.

IF YOU HAVE NOT FULLY COMPLETED YOUR PROJECT, AND YOU OR A PREVIOUS OWNER OF THIS PERMIT HAVE NOT RECEIVED A PRIOR EXTENSION OF TIME, YOU MAY REQUEST AN EXTENSION OF TIME IF THE DELAY IS FOR REASONABLE CAUSE AS PROVIDED IN SECTION 42-204, IDAHO CODE. IF YOU HAVE BEEN PREVENTED FROM PROCEEDING BY A GOVERNMENTAL AGENCY OR BY LITIGATION WHICH MIGHT BRING TITLE TO THE WATER IN QUESTION, MORE THAN ONE EXTENSION OF TIME CAN BE GRANTED. AN EXTENSION OF TIME REQUEST FORM IS ENCLOSED FOR YOUR CONVENIENCE.

EITHER A COMPLETED PROOF OF BENEFICIAL USE FORM OR A REQUEST FOR AN EXTENSION OF TIME MUST BE RECEIVED BY THIS DEPARTMENT ON OR BEFORE THE ABOVE DESCRIBED PROOF DUE DATE. IF NEITHER IS RECEIVED, THE DEPARTMENT WILL SEND YOU A LAPSE NOTICE. WITHIN SIXTY (60) DAYS OF THE MAILING OF THE LAPSE NOTICE, THE PERMIT WILL NO LONGER BE OF ANY FORCE NOR EFFECT.

RE: Applications for Permit Nos. 67-7524 and 67-7525

Dear Mr. Buchanan:

I am in receipt of your letter of March 10 concerning the above numbered applications for water from the Little Weiser River. These applications have both been recommended for approval with the condition that no water be used after June 15 of each year without the prior approval of the watermaster. This is the condition that was agreed to at the conference at Weiser last year. Since that time, all Little Weiser applications have had that condition placed on them as will all future applications until some other condition is determined to be necessary.

The last day for the department to receive protests against these applications was March 9, 1981. Since your letter of protest was not received until March 12, 1981, it cannot be accepted as a protest; however, the condition which was agreed to had already been placed on the permits.

If there are other concerns that you wish to express, please feel free to contact our office.

Yours truly,

DAVID B. SHAW
