ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 67-7403, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

a. SUBJECT TO ALL PRIOR WATER RIGHTS.

b. Proof of construction of works and application of water to beneficial use shall be submitted on or before July 1, 19 80.

c. ~~The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.~~

d. Other: (1) The issuance of this permit in no way grants any right-of-way or easement across the land of another. (2) Use of water under this permit is subject to control by the watermaster of State Water District, No. 67, Weiser River. (3) A measuring device of a type approved by the Department shall be permanently installed and maintained as part of the diverting works.

Witness my hand this 25th day of June, 19 79.

CERTIFIED MAIL

EXAMINATION FEE NOTICE

Dear Permit Holder:

Department records show that proof of beneficial use has been submitted for the above-referenced permit, but that a field examination has not yet been conducted to determine the extent of beneficial use of the water for licensing purposes.

House Bill 671 (effective April 4, 1986) enacted by the 1986 Idaho Legislature requires the payment of a fee before this department can conduct the field examination needed to issue a license confirming use of water under the permit. This letter is notification that the license examination fee is due within sixty (60) days of the date of this letter. The examination fee information sheet (enclosed) must be returned with the fee.

As an alternative to submitting the fee, the department will accept a field examination report completed by a certified water right examiner from the private sector. If you choose to have the examination done by a certified water right examiner, you need not submit the license examination fee to the department, but you must within sixty (60) days of the date of this letter return to the department, the examination fee information sheet showing appropriate information together with a statement from the certified examiner to verify that you have retained a certified examiner to conduct the field examination. If you choose this alternative, a completed field examination report must be submitted within one year of the date of this letter. You cannot later change your decision to use this alternative and submit the fee needed for the department to conduct the field examination, but you may change to another certified examiner.

ALVIN YANTIS
MIDDLE FORK RD.
COUNCIL ID 83612

RE: Water Right No. 67-07403

Dear Water Right Holder(s):

Department water right records show that you divert water from the Snake River or its tributaries under a water right that has a priority date later than December 29, 1976. This is the priority of the established minimum stream flow of the Snake River at the Weiser Gage (Weiser) in the amount of 4,750 cubic feet per second.

Because of the continuing drought conditions in the Snake River Basin, department hydrologists project that during 1992, there could be periods when the required minimum flow will not be satisfied due to low flows of the Snake River. The department urges you to not divert at a higher rate than authorized by your water right and to not use your right in any manner different than authorized. In addition, when the minimum flow will not be satisfied or is not being satisfied, you are required to cease diverting water under your water right, because your right is of later priority than the minimum stream flow at Weiser.

If the department determines the minimum flow will not be satisfied, the department will advise you and will provide as much lead time as possible in requiring that you temporarily cease your diversion of water. The greatest likelihood for this to occur is during a period from mid-June to late June.

While the department expects good cooperation from junior water right holders, water users should be aware that Section 42-352, Idaho Code, provides for penalties of up to \$100 per day for unauthorized diversions of water.

The department has contacted both the Idaho Power Company and the U.S. Bureau of Reclamation with respect to the timing of storage releases from upstream reservoirs for flow enhancement purposes. This type of coordination could minimize the impact on

existing water users and reduce the need to curtail diversions.

The department has scheduled public information meetings relative to this potential regulation as follows:

Mountain Home - June 4, 1992 - 10:00 a.m. - gymnasium at
North Elementary School, 290 E. 12th N.

Caldwell - June 4, 1992 - 7:00 p.m. - Ballroom in the
Student Union Building, Albertson College of Idaho,
2112 Cleveland

If you have questions concerning this letter or wish to provide the name of a different contact person or address to receive department correspondence, please contact the department.

Sincerely,

L. GLEN SAXTON
Chief, Water Allocation Bureau

Alvin Yantis
Council, ID 83621

Dear Mr. Yantis:

RE: Permit No.67-7403

Enclosed is a copy of your approved Application for Permit. We direct your attention to the conditions of approval on the fourth page.

Please note that a special condition requiring you to install and maintain a measuring device at your point of diversion has been placed upon your permit. Enclosed is a letter describing the different types of measuring devices accepted by this Department.

The exercise of this permit may also be affected by the court's determination of water rights in the case of Idaho Power Company v. State of Idaho, et al., Civil No. 62237, currently pending before the District Court of Ada County.

Idaho Power officials tell us that because of Case No. U-1006-124 filed before the Idaho Public Utilities Commission, Idaho Power Company is asking the District Court of Ada County to determine whether the Power Company's water rights on the Snake River are protected against subsequent upstream appropriations in the waters of the Snake River and surface and subterranean tributaries between Milner Dam and Hells Canyon.

Since the use of water under your permit may affect the flows in this reach of the Snake River, the final decision in Idaho Power Company v. State of Idaho, et al. (Ada County Civil No. 62237) may determine to what extent the exercise of your permit may be subject to the water rights of Idaho Power. While the Ada County court is examining this question, Idaho Power Company has not filed a specific protest to your permit. However, the Department of Water Resources has been advised that the Power Company is not waiving any of its rights to contest or limit the exercise of your permit or a subsequent license or water right.

If you have any questions, please let us know.

Sincerely,

David R. Tuthill, Jr.

ENCLOSURE

July 11, 1979

Alvin Yantis
Council,
Idaho 83621

Dear Mr. Yantis:

RE: Permit No. 67-7403

Enclosed is a copy of your approved Application for Permit. We direct your attention to the conditions of approval as listed on the fourth page.

Be sure to note the special condition requiring you to install and maintain a measuring device at your point of diversion has been placed upon your permit. We are enclosing a letter describing different types of measuring devices accepted by this office.

Please be advised that there is insufficient natural flow available in the Weiser River and tributaries to provide water for a new appropriation throughout the entire season of use.

During the spring run-off each year, there may be a period of time in which the prior rights to the use of the natural flow and storage are filled leaving water available for your later-in-time permit. ~~As~~ the natural flow diminishes, however, there would be no water available for your right unless you had arranged for an additional source of water as a supplemental supply.

This information is provided so that you will not be misled into thinking that this permit will provide sufficient water through the entire season of use. If you have any questions regarding this matter, please feel free to contact this office.

Sincerely,

DAVID R. THETHILL, JR.
Supervisor, Water Allocations Section

INTER-DEPARTMENT MEMO — 1

FROM

W. Gossett

DATE

15 June 79

TO

file 67-7403

SUBJECT

Ditch Loss Reasonable for Conveyance

Moritz Method uses

$$S = 0.2 C \sqrt{\frac{Q}{V}}$$

$C \approx 2$ for reasonably
porous soil

$$= 0.2 (2) \sqrt{\frac{1.0}{3}}$$

assume 3 fps is max
vel. likely in ditch

$$S = 0.12 \frac{\text{cfs}}{\text{mi.}}$$

From application, it appears that ditch length is approx 1.5 miles

$\therefore$ Ditch loss = $1.5 (.12) = .18$ cfs. and could be more if $V < 3$ fps.

This is reasonably close to .21 cfs.

Conclusion: New permit for 0.90 cfs should be approved
with condition that 1st acre rate be removed on the form.

RE: Application for Permit No. 67-7403

Dear Mr. Yantis:

The above numbered application was filed by you to divert 0.90 cfs of irrigation water from the Middle Fork of the Weiser River to be used in portions of Sec. 10, T. 15N, R. 1W. In reviewing our files, it appears that decreed water in the amount of 10.5 inches or 0.21 cfs covers a portion of those lands also covered by No. 67-7403.

In order to bring the total amount of water on the 45 acres covered by Application 67-7403 to 1 inch per acre, it will be necessary to reduce the amount of water on your application to 0.69 cfs instead of 0.90 cfs.

If you disagree with this reduction, please contact this office by June 18, 1979. If you feel the reduction to allow for an inch per acre total is correct, you need not contact this office and we will continue processing your application for permit.

If you have any questions in this matter, please feel free to contact this office.

Yours truly,

DAVID B. SHAW
Western Region Supervisor

DBS:kk

Mr. Shaw;

When I was in last year and made the application #67-7403, I was advised that due to the distance the water had to travel to get to the place of use I would be allowed the extra water.

Thank you.

Alvin Yantis

FROM Jim

TO Dave S.

SUBJECT App. 67-7403

MR. Yantis shows 21" of decreed right on same land as App. It appears that it could be from same source. IF so then AN ADJUSTMENT is required. Since the information is already on the application the region should pursue before sending to state office. There are no other water rights plat for this land.

Gentlemen:

Enclosed you will find a legal notice which we wish to have published on the dates indicated (once a week for two consecutive weekly issues) in your newspaper. If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department along with the publication bill. In order to receive payment, the following certification must appear on the bill:

"I hereby certify that the foregoing account is just and correct, that the amount claimed is legally due after allowing all just credits and that no part of the same has been paid."

(Signature of Claimant)

Please send the affidavit of publication and publication billing to this office before July 19, 1978.

Sincerely,

RITA FLECK
Secretary

RE: Application for Permit

Alvin Yantis
Council, ID 83612

Dear Mr. Yantis::

I have determined that your filing of an application for permit and a claim to water right for your current water use would be appropriate and prudent in your situation. Thus, I have taken the liberty of partially completing an application for permit for you from the claim you have already filed.

To complete the filing please indicate in item 8c if there are any other water rights for this ground, indicate in item 9a and 9b who owns the property at the point of diversion and place of use, sign page three, and return the application to us along with a \$25.00 filing fee.

If I can be of any further assistance please contact me.

Sincerely,

William H. Macallister by DET
