CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Stockwater is for 15 horses &/or cattle.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code. Witness the seal and signature of the Director, affixed at Boise, this 20TH day of MARCH, 1991.

EXAMINATION FEE NOTICE

Dear Permit Holder:

Department records show that proof of beneficial use has been submitted for the above-referenced permit, but that a field examination has not yet been conducted to determine the extent of beneficial use of the water for licensing purposes.

House Bill 671 (effective April 4, 1986) enacted by the 1986 Idaho Legislature requires the payment of a fee before this department can conduct the field examination needed to issue a license confirming use of water under the permit. This letter is notification that the license examination fee is due within sixty (60) days of the date of this letter. The examination fee information sheet (enclosed) must be returned with the fee.

As an alternative to submitting the fee, the department will accept a field examination report completed by a certified water right examiner from the private sector. If you choose to have the examination done by a certified water right examiner, you need not submit the license examination fee to the department, but you must within sixty (60) days of the date of this letter return to the department, the examination fee information sheet showing appropriate information together with a statement from the certified examiner to verify that you have retained a certified examiner to conduct the field examination. If you choose this alternative, a completed field examination report must be submitted within one year of the date of this letter. You cannot later change your decision to use this alternative and submit the fee needed for the department to conduct the field examination, but you may change to another certified examiner.

Dear Mr. and Mrs. Gann:

Your approved copy of Application for Permit No. 67-7367 is enclosed and we direct your attention to the conditions of approval on the fourth page.

The exercise of this permit may also be affected by the court's determination of water rights in the case of Idaho Power Company v. State of Idaho, et al., Civil No. 62237, currently pending before the District Court of Ada County.

Idaho Power officials tell us that because of Case No. U-1006-124 filed before the Idaho Public Utilities Commission, Idaho Power Company is asking the District Court of Ada County to determine whether the Power Company's water rights on the Snake River are protected against subsequent upstream appropriations in the waters of the Snake River and surface and subterranean tributaries between Milner Dam and Hells Canyon.

Since the use of water under your permit may affect the flows in this reach of the Snake River, the final decision in Idaho Power Company v. State of Idaho, et al. (Ada County Civil No. 62237) may determine to what extent the exercise of your permit may be subject to the water rights of Idaho Power.

While the Ada County court is examining this question, Idaho Power Company has not filed a specific protest to your permit.

MICROFILMED

However, the Department of Water Resources has been advised that the Power Company is not waiving any of its rights to contest or limit the exercise of your permit or a subsequent license or water right.

If you have any questions, please let us know.

Sincerely,

L. GLEN SAXTON

Re: NOTICE OF PROTEST
Application Nos. 67-7367, 67-7368, and 67-7369

Gentlemen:

This Protest of Application Numbers 67-7367, 67-7368, and 67-7369 is filed by and on behalf of Joseph W. Sumrall, Sr., Route #2, Box 149, Weiser, Idaho 83672. Such Protest is filed pursuant to Idaho Code Section 42-203.

Mr. Sumrall protests the above Applications on the basis that the Applications will, if granted, materially reduce the quantity of water under existing rights and prior Applications filed by and on behalf of Mr. Sumrall, namely Application No. 67-7361. It is further the opinion of Mr. Sumrall that the Applications are not made in good faith and are only for the purpose of delaying a final determination of his rights under his prior Application.

A Hearing on the matter is requested as soon as possible, and it is respectfully suggested that such Hearing be held in connection with a previously scheduled Hearing on the protest of the Application of 67-7361.

Very truly yours,

RYAN & SWEET

IN THE MATTER OF PROTEST AGAINST APPROVAL OF)
APPLICATIONS FOR PERMIT NOS. 67-7367, 67-7368)
& 67-7369 IN THE NAME OF CLAUD & EVELYN J. GANN)

NOTICE OF CONFERENCE
AND/OR HEARING

On December 14, 1977, Claud and Evelyn J. Gann filed with the Department of Water Resources three applications to appropriate the public waters of the State of Idaho. On January 9, 1978, the Department received a protest against approval of said applications from Michael B. Sweet on behalf of Joseph W. Sumrall, Sr.

The Department has set the matter of protest for conference and/or hearing for Thursday, March 2, 1978, at 10:30 a.m. in the district courtroom of the Washington County Courthouse, Weiser, Idaho. Any hearing will be held in accordance with the Rules and Regulations of the Idaho Code and adopted Rules of Practice and Procedure of the Department of Water Resources. Opportunity shall be afforded all parties to respond and present evidence and argument on all issues involved.

Any party may request in writing five (5) days before any hearing that the oral proceedings thereof be taken in the form of stenographic notes. Any party may have such stenographic notes of the oral proceedings, or part thereof, transcribed at his own expense. A taped record of the proceedings will be maintained for the appeal period.

Failure to appear at the time and place set for hearing by the applicant or protestant may allow the Department without prejudice to dismiss the protest or the application. Any and all cost incurred by reason of such non-appearance may be assessed against such non-appearing parties.

Dated this 3rd day of February, 1978.

Weiser, ID 83672

Dear Mr. Gann:

Enclosed is a copy of a protest filed against the issuance of the above referenced permits. The Department suggests you contact the protestant directly in an effort to determine the nature of the protests and to attempt to resolve them.

If this office has not been advised within twenty (20) days that the protests have been resolved, the matter will be scheduled for conference and/or hearing. At such a conference and/or hearing, the following are the principle items the Department can consider in either approving or denying the applications for permit (Section 42-203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?

At such a conference and/or hearing, the Department will hear the protest against Mr. Sumrall's Application for Permit No. 67-7361 at the same time. The Department will schedule this sometime in February, 1978.
