Malheur, ID 83672

Dear Mr. and Mrs. Sawyer:

One of the conditions of approval of your water permit No. 157-7362 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before 12/31/78. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

CONDITIONS OF APPROVAL AND REMARKS

1. This right when combined with all other rights shall provide no more than 0.03 cfs per acre nor more than 4.0 afa per acre at the field headgate for irrigation of the lands above.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code. The water right confirmed by this license is subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources. 	)	
OF DARREL P. SAWYER AND	)	
	)	
LORAINA A. SAWYER	)	
_____	)	

This matter having come before the Department of Water Resources (Department) as a result of a request for reinstatement of a permit, the Department makes the following Findings of Fact, Conclusions of Law, and Order:

FINDINGS OF FACT

1. On January 29, 1978, the Director of the Department of Water Resources issued Permit No. 67-07362 in the name of Darrel P. and Loraine A. Sawyer with a condition of approval that proof of construction of works and application of water to beneficial use be submitted on or before February 1, 1979.

2. On November 30, 1978, the Department sent a Proof Due notice certified mail to the permit holders.

3. On February 23, 1979, the Department sent Notice of Lapse of Permit to the permit holders since neither proof of beneficial use nor a request for extension of time had been received from the permit holders.

Order - Page 1

RECEIVED
JUN 27 1995

4. On March 29, 1995, Proof of Beneficial Use was received from the permit holders.

5. Section 42-218a, Idaho Code, authorizes the Department to reinstate a lapsed permit with the priority date advanced to the date that proof of beneficial use was received, upon submittal of evidence clearly establishing the extent of beneficial use prior to the proof due date, and a showing of reasonable cause why the proof was submitted late.

6. The permit holders have submitted evidence to confirm that water has been put to beneficial use.

7. The permit holders have stated that proof was submitted late because they don't recall ever receiving the Proof Due or Lapse notices, and they felt that all was well with their permit.

CONCLUSIONS OF LAW

1. The permit holders have submitted Proof of Beneficial Use along with supporting evidence which establishes that water was in fact beneficially used as authorized by the permit.

2. The permit holders have shown sufficient cause why the Proof of Beneficial Use was not submitted in a timely manner.

3. The permit can be reinstated with the date of priority advanced to the date Proof of Beneficial Use was received by the Department pursuant to Section 42-218a, Idaho Code.

RE: WATER RIGHT NO. 67-07362

Dear Water Right Holder(s):

The Department of Water Resources (the Department) has issued the enclosed license confirming that a water right has been established in accordance with the permit referenced above. The license is a preliminary order issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department unless a party petitions for reconsideration or files an exception and/or brief as described in the enclosed information sheet.

Also, please note that water right owners are required to report any change of water right ownership and/or change of mailing address to the department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the department or visit the department's homepage on the Internet to obtain the proper reporting form.

If you have any questions, please call me at 208-327-7946.

Sincerely,

Shelley W. Keen
Water Rights Supervisor

Responding to Preliminary Orders Issued by the Idaho Department of Water Resources

The Idaho Department of Water Resources (Department) issues water right permits, licenses, and transfers as preliminary orders pursuant to section 67-5243, Idaho Code. A preliminary order can and will become a final order without further action of the department unless a party petitions for reconsideration or files an exception and/or brief as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of the order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from a preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, a preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to a preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

ORAL ARGUMENT

If the Department grants a petition to review a preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Department orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Department in connection with a preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

RE: Recommendation Adjustment(s)

In the narrative portion of the field report, the examiner has indicated that a second (domestic) well within the same $\frac{1}{4}$ is used to irrigate the lawn which is less than $\frac{1}{2}$ acre in size. She also recommends an amendment on the back page of the field report. However, information was only gathered for the irrigation well, thus the license will be issued for one well for irrigation purposes. The domestic well does not require a water right filing to irrigate the small lawn. An amendment will not be solicited.

RE: LAPSED PERMIT NO. 67-07362 - PROOF OF B/U & REINSTATEMENT REQUEST

Attached is the proof of beneficial use form, affidavit, and ASCS map submitted by Mr. & Mrs. Sawyer to reinstate the above permit. They do not recall ever receiving the proof due notice or lapse notice and felt all was ok with their permit until they received Helen Thornton's letter dated 3-7-95 (copy attached). They came in and talked with Cindy Hodges on 3-8-95 and a copy of her conversation memo is also attached. The proof of beneficial use form and fee were submitted on 3-29-95 along with the ASCS aerial map from 1979 and an affidavit that they hope will establish the fact that they were beneficially using the water under this permit at the time proof was due.

I advised them of the possibility of advancement of the priority date based on the date proof was submitted - if their permit is reinstated. I also advised them that the state office may require further evidence of use - I wasn't sure. If you have any questions concerning this, please give me a call.

RE: Lapsed permit

Mr. Sawyer filed an SRBA claim on this lapsed permit. He was contacted by Helen Thornton and then spoke with me.

Mr. Sawyer indicates that beneficial use was occurring in 1979 at the time of proof due, and has been occurring since. The permit was lapsed because proof was not submitted.

We discussed reinstatement procedures, vs. filing a new application. Mr. Sawyer is not in a restricted filing area at this time.

Helen processed the SRBA claim, but it may not be acceptable unless Mr. Sawyer takes action. Sawyer will attempt to either:

① Locate proof of use in 1979 and request reinstatement of permit ~~or~~ (advance priority)

② File a new application and withdraw SRBA claim. Monies could be applied to application.

RE: Snake River Basin Adjudication (SRBA)

Dear Claimant:

We have completed our initial review of the Notice of Claim to a Water Right you submitted during the Snake River Basin Adjudication claims filing in your area. I have included a copy of this claim for your reference. Unfortunately, there is a problem with the claim that requires your attention.

The basis of claim listed in your claim is a lapsed permit. Enclosed is a copy of a letter sent in 1979 notifying you of the status of the permit. It is likely that the department will recommend this claim to be disallowed because it is based on a lapsed permit. You should contact the department to discuss your water use.

Enclosed is a brochure describing how water rights are established in Idaho. If you have any questions or need to take any further action regarding claim in the Snake River Basin Adjudication (SRBA), please do not hesitate to contact this office.

Respectfully,

Helen L. Thornton

Mr. J. L. Smith and Mrs. Sawyer
One of the conditions of approval for your water permit No. 157832 (see fill
page of your approved permit) was that evidence of the extent of development be
submitted as proof of application of water to beneficial use to this office on
or before 10/1/60. Enclosed is an affidavit form which must be
filled out and submitted to this office by 10/1/60.

If you have not fully completed your project and you have not previously received
an extension of time, you may request an extension of time provided the delay is
for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you
have been prevented from proceeding by a governmental agency or by litigation,
more than one extension of time may be granted.

If the beneficial use of water is requested for an extension of time, it must be
received by this Department on or before the above mentioned date. Otherwise the
permit will lapse and be of no further force or effect.
