RE: Review Information

=====

We received the licensing amendment from the permit owner and he increased the number of acres to 14 in T13N, R02W, S35. According to the exam maps, it could be a justified change. The original permit was for 505 acres; therefore, we are not exceeding the allowable amount.

Also, because the rate is limited by the capacity, the rates and volume figures do not change even though the number of acres has increased.

Dear Water Right Holder(s):

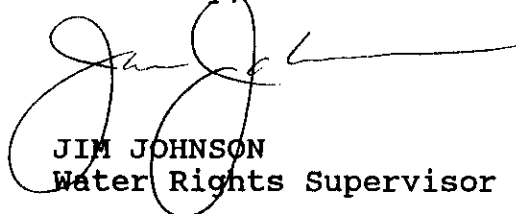

The above referenced water right is in the process of being licensed. However, before a license can be issued, your permit must be amended to correspond with the findings of the Department's field examiner.

The enclosed Application for Amendment contains information that will be included on the license when it is issued. The amendment reflects a change in the location of the place(s) of use description. Please review carefully and if you concur, sign the amendment and return with the \$20.00 filing fee within 14 days.

The last page of the Application for Amendment form contains a list of CONDITIONS/REMARKS proposed for the license when it is issued. These conditions/remarks may be modified upon further administrative review.

If you do not concur or have any questions with this information, please contact me as soon as possible. My telephone number is (208) 327-7947.
