WATER RIGHT LICENSE

License of Water Right No. 67-7297 Priority February 7, 1977 Amount 0.28 cfs

THIS IS TO CERTIFY, that Tim Veselka
of Indian Valley, Idaho, has complied with the terms and conditions of Permit
No. 67-7297 issued pursuant to Application for Permit dated February 7, 1977,
and has submitted proof to the Department of Water Resources on April 3, 1978,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 0.28 cfs of water from Little Weiser River,
tributary to Weiser River, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
<u>Irrigation</u>	from <u>April 1</u> to <u>June 30</u> at <u>0.28</u> cfs and <u>50.0</u> acre feet		
	from _____ to _____ at _____ cfs and _____		
	from _____ to _____ at _____ cfs and _____		

(both dates inclusive)

Subject, however, to the condition that no more than 0.28 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confined for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
50.0 acre feet per year, said waters to be diverted within the SE $\frac{1}{4}$ NW $\frac{1}{4}$, Section 36, Twp.
14N, Rge. 1W in the County of Adams

Use of water under this license is subject to control by the watermaster of
State Water District No. 67, Weiser River.

NOTE: Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho
Code, of the applicable Idaho Law. This right may be forfeited by five years of non-use.

The right to the use of the water hereby confirmed is restricted and appurtenant to the lands or place of use
herein described, and is subject to all prior water rights, as provided by the laws of Idaho.

RE: Water Right No. 67-07297

Dear Water Right Holder(s):

Department water right records show that you divert water from the Snake River or its tributaries under a water right that has a priority date later than December 29, 1976. This is the priority of the established minimum stream flow of the Snake River at the Weiser Gage (Weiser) in the amount of 4,750 cubic feet per second.

Because of the continuing drought conditions in the Snake River Basin, department hydrologists project that during 1992, there could be periods when the required minimum flow will not be satisfied due to low flows of the Snake River. The department urges you to not divert at a higher rate than authorized by your water right and to not use your right in any manner different than authorized. In addition, when the minimum flow will not be satisfied or is not being satisfied, you are required to cease diverting water under your water right, because your right is of later priority than the minimum stream flow at Weiser.

If the department determines the minimum flow will not be satisfied, the department will advise you and will provide as much lead time as possible in requiring that you temporarily cease your diversion of water. The greatest likelihood for this to occur is during a period from mid-June to late June.

While the department expects good cooperation from junior water right holders, water users should be aware that Section 42-352, Idaho Code, provides for penalties of up to \$100 per day for unauthorized diversions of water.

The department has contacted both the Idaho Power Company and the U.S. Bureau of Reclamation with respect to the timing of storage releases from upstream reservoirs for flow enhancement purposes. This type of coordination could minimize the impact on

existing water users and reduce the need to curtail diversions.

The department has scheduled public information meetings relative to this potential regulation as follows:

Mountain Home - June 4, 1992 - 10:00 a.m. - gymnasium at
North Elementary School, 290 E. 12th N.

Caldwell - June 4, 1992 - 7:00 p.m. - Ballroom in the
Student Union Building, Albertson College of Idaho,

If you have questions concerning this letter or wish to provide the name of a different contact person or address to receive department correspondence, please contact the department.

Dear Mr. Veselka:

On October 12, 1982, we forwarded an amendment to you to be completed to amend this permit to correspond with the findings of the field examiner so that we could issue this license.

As of this date, we have not received this amendment. If we do not receive it within fifteen (15) days, we will assume you no longer have any interest in this permit and cancellation proceedings will begin.

If you have any questions, please contact us.

Sincerely,

JIM JOHNSON

RE: Water Right Permit No. 67-7297

CERTIFIED MAIL # 32944

Tim Veselka
Box 31
Indian Valley, ID 83632

Dear Mr. Veselka:

Our office received your letter on August 23, 1982. First let me recap the events which have taken place up to now.

- February 7, 1977 David Roy Veselka applied for a water right permit in which to divert 0.28 cfs from the Little Weiser River within the SW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 23, Twp. 14N, Rge. 1W to irrigate 14.5 acres in the SE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 14, Twp. 14N, Rge. 1W.
- March 22, 1977 Our office approved the application for permit with the condition that proof of beneficial use of the water be submitted on or before April 1, 1978.
- April 3, 1978 Our office received proof of beneficial use statement.
- July 22, 1980 Our office conducted a field exam and found that water was being diverted within the SE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 36, Twp. 14N, Rge. 1W (different legal description as set forth on the permit).
- September 16, 1981 Our office sent notice that an amendment to the permit for the point of diversion and place of use would be necessary before we could issue a license (\$20.00 filing fee required).
- October 26, 1981 Our office sent a second notice asking for the amendment.
- November 3, 1981 Our office received a letter from David Veselka explaining that his acreage is in Sections 14 and 23.
- November 4, 1981 Our office sent a corrected notice based upon that error in our letter of September 16, 1981, for the place of use, again requesting an amendment for the point of diversion.

page 2
October 12, 1982
Tim Veselka

November 25, 1981 Our office sent a second notice requesting the amendment.

April 8, 1982 Our office sent a Show Cause Order why the permit should not be cancelled due to the amendment never being received.

April 16, 1982 Our office received a letter from Tim Veselka saying that the property had been sold to him and there was some confusion about taxes on the water.

April 26, 1982 Our office sent a letter requesting an assignment of permit, amendment and explaining about the water taxes.

August 12, 1982 Our office sent an Order of Cancellation.

August 23, 1982 Our office received a letter from Tim Veselka.

In response to your letter we received August 23, 1982, it appears that you may have never received our letter of April 26, 1982. Therefore, I have enclosed a copy of that letter.

You should be aware that before we can reinstate the permit, our office must still receive an assignment and an amendment. A permit is considered personal property and can be acquired only when the permit holder (David Veselka) assigns all or part of the permit to another party. The amendment of permit is necessary to change the point of diversion legal description from what the permit identified as the SW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 23, Twp. 14N, Rge. 1W to what our examiner found being the SE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 36, Twp. 14N, Rge. 1W. The place of use legal description is correct and is the same as the permit.

I have enclosed a partially completed amendment form and an assignment form for your convenience. Please return both forms along with the \$20.00 amendment filing fee within 30 days so that we can reinstate the permit and issue you a water right license.

A license is considered real property, appurtenant to the land, and is acquired when the land is purchased. Evidence of owning the land is proof of owning the water right license.

If you have any further questions, please contact me at 334-4162.

Sincerely,

JIM JOHNSON
Water Distribution Supervisor

RE: Permit No. 67-7297

Tim Veselka
Box 31
Indian Valley, ID 83632

Dear Mr. Veselka:

Thank you for responding to our letter of April 8, 1982. It appears that there is some confusion over this matter which I would like to try to clear up.

On February 7, 1977, your brother filed an application for a water permit with the Department to divert Little Weiser River water for irrigation of 14.5 acres of land located within the SE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 14, Twp. 14N, Rge. 1W. The Department approved the application and under Idaho Law your brother was given until April 1, 1978 to put this water on the above described land. On April 2, 1978 he submitted a statement which indicated that he had in fact put the water on the land. On July 22, 1980, a field examiner from our Department confirmed that the water under said permit was being used for irrigation of said land. However, instead of the point of diversion being located in the SW $\frac{1}{4}$ NW $\frac{1}{4}$, Section 23, Twp. 14N, Rge. 1W, the examiner found the point of diversion located in the SE $\frac{1}{4}$ NW $\frac{1}{4}$, Section 23, Twp. 14N, Rge. 1W. When a water permit is issued it is only a temporary water right. In order for a permanent water right to be established a licensed water right has to be issued but only after the Department has confirmed that the water authorized under the permit has been developed.

In your situation, the permit must be amended to reflect the proper legal description in which the point of diversion is located before a license can be issued. Also since your brother has sold you the land on which the water is being used, you must have your brother assign you the permit before you can sign the amendment of permit form or have him sign the form. The assignment form is enclosed along with a copy of the correspondence previously sent to your brother.

page 2 of 2
April 26, 1982
Tim Veselka

The taxes you paid the county were not for the water diverted under this permit. I assume it is for the water received under the irrigation district. The county has no control of the use of water under this permit.

I will hold further action on this permit for 30 days. If we have not heard from you we will assume that you no longer have any interest in this permit and it will be cancelled.

If you have any questions on this matter, I strongly recommend that you contact us.

Sincerely,

JIM JOHNSON

Dear Mr. Veselka:

Thank you for responding to my letter of September 16, 1981. I found an error in my letter which undoubtedly caused the confusion. The proper description for the place of use for irrigation of 15 acres should have been within the SE $\frac{1}{4}$ SW $\frac{1}{4}$, Section 14, Twp. 14N, Rge. 1W instead of Section 36. The point of diversion is located at the head of the American Lindsey Ditch in the SE $\frac{1}{4}$ NW $\frac{1}{4}$, Section 36, Twp. 14N, Rge. 1W. The licensing amendment has been corrected.

In order for the Department to issue the above license, it will be necessary for you to amend the permit to correspond with the findings of the field examiner. We are enclosing a partially completed amendment form for your use in this matter.

Please sign the amendment application and return it to this office along with a \$20.00 filing fee within 30 days in order that we might issue your license as set forth above. If you do not concur with these findings or have any questions, please contact us within the 30-day period.

Dear Sirs,

A month or so ago, I received a letter from you, (which I have lost,) asking me to submit proof that I had used the water on a waterright I had obtained from you earlier in 1977. the number on it is 67-7297.

I have used the water on the designated parcel of land this year, and plan to next year again.

If you need photographs or some other sort of proof don't hesitate to drop me a line, as I'm presently out of state for the spring + summer.
thankyou very much.

Sincerely,
Dave Inselke

Dear Mr. Veselka:

We acknowledge receipt of the affidavit submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the examination so that you may show him the system.

If you have any questions regarding the field examination, please contact our Regional Office in Boise.

Sincerely,

Dear Mr. Veselka:

One of the conditions of approval of your water Permit No. 67-7297 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before April 1, 1978. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Dear Mr. Veselka:

This office is returning the Application for Permit which you recently submitted to this office together with your personal check No. 92-137/1281 in the amount of \$10.00.

We note several discrepancies on the application and have drafted a partially completed application for you to review, complete and return.

In item 3a of the original application, the point of diversion as described is from a ditch, not from the Little Weiser River. It appears that the point of diversion from the Little Weiser River would be in the SW $\frac{1}{4}$ Sec 23 T14N-R1W. In item 4 of the original application, you show 14.5 acre feet per annum, when in fact, you probably meant 14.5 miner's inches which is equivalent to 0.28 cubic feet per second. The partially completed application shows 0.28 cubic feet per second. Also note on the new application that item 9a needs to be completed, which describes the ownership of the property where the canal heads on the Little Weiser River.

If the intended rate of diversion is 14.5 miner's inches (0.28 cubic feet per second), the filing fee required is \$25.00

If you have any questions regarding this matter, please contact this office.

Sincerely,

L. GLEN SAXTON, P.E.

Dear Mr. Veselka:

Enclosed is a copy of your approved Application for Permit No. 67-7297. We direct your attention to the conditions of approval as listed on the fourth page.

Be sure to note that a special condition requiring you to install and maintain a measuring device at your point of diversion has been placed upon your permit. We are enclosing a letter describing different types of measuring devices accepted by this office.

Sincerely,
