License of Water Right No. 67-7264 Priority January 6, 1976 Amount 0.04 cfs

THIS IS TO CERTIFY, that PHILIP W. GOVEDARE
of Ontario, Oregon, has complied with the terms and conditions of Permit
No. 67-7264 issued pursuant to Application for Permit dated January 6, 1976,
and has submitted proof to the Department of Water Resources on February 24, 1977,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 0.04 cfs of water from a groundwater source,
tributary to _____, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume

Dear Mr. Govedare,

We acknowledge receipt of the affidavit submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We cannot tell during which part of the irrigation season this examination will be made, but our examiner will try to contact you at the time he makes the exam so that you may show him the system.

If you have any questions regarding the field examination, please contact our Regional Office in Boise.

Dear Mr. Govedare:

One of the conditions of approval of your water Permit No. 67-7264 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before March 1, 1977. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Dear Mr. Govedare:

Please find the enclosed application for permit you submitted to this office; in addition, please find another blank form.

In reviewing your original application, I found some items that need to be cleared up. Item 3a doesn't correspond with Item 8a. If correct, the well is three miles from the place of use and the map shows the diversion point in Section 2. In Item 4 the maximum allowable diversion rate for one family for domestic use is 0.04 cubic feet per second. Unless you are irrigating three acres in addition to the domestic use, 0.2 cubic feet per second is five times the amount of water allowed. The final problem is that there is a \$10.00 filing fee that must accompany the application before it can be processed.

Perhaps it would be better to completely fill out and return the new application, making the necessary corrections. If you have any questions, please contact this department.

Sincerely,

Dear Mr. Govedare:

Enclosed you will find the department's Application for Permit form as well as our Claim to a Water Right form.

The Application for Permit form should be used to record all those ground-water rights established since March 25, 1963, and all surface water rights since May 20, 1971.

The Claim to a Water Right form should be used to record those water rights established prior to these two dates.

If you should have any questions in the completion of either of these forms, please do not hesitate to contact this department.

Sincerely,

DEBRA L. RYAN
Senior Clerk

Dear Sirs

We wish to register a well we had drilled
in Glendale, Idaho (ten miles north of Council)
in order to establish priority. If you have any
special forms, etc., we should appreciate
your sending them to us. Thank you for your
help

Sincerely yours,
Philip W. Guedare

P.S. Don Rich was the author and
can supply any technical information.
