Dear Mr. Fleenor:

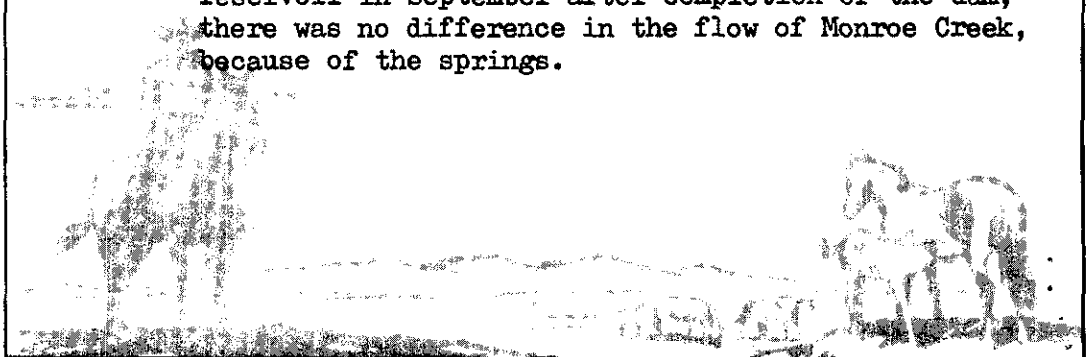

Pursuant to your letter of March 1, 1976, I am writing about the measuring devises that you requested we install.

I sit on four irrigation canal or district boards and I too believe in measuring that waters of this state.

In my case, however, I cannot see the benefit that would be derived from such a measuring device, and I wish to apply for a waiver to that requirement.

I would like to give you my reasons for requesting the waiver:

1. The subject lake is located in the NE $\frac{1}{4}$ of the NW $\frac{1}{4}$ of Section 12 TN 13N Rge 6 W.B.M., and the closest diversion of water from Monroe Creek is located in Sec. 10 TN 12N Rge 5 W.B.M., a distance of approximately 8 miles from the time it leaves the lake until someone diverts the water.
2. In that distance there are many springs and smaller tributaries to Monroe Creek that add water to the creek. For instance, when we filled the reservoir in September after completion of the dam, there was no difference in the flow of Monroe Creek, because of the springs.

3. In regards to evaporation, there should be very little. The lake has a surface area of about 1.75 acres, and holds 20 acre feet. There is water running into it year round and of course everything that runs in comes out the spillway. The temperature in the summer would never get above the 80 degree mark, as the elevation is about 5,000 feet, and the lake is surrounded by trees. When I have planted fish, on two different occasions in July, the water temperature was 58 and 60 degrees respectfully.

In closing, I respectfully seek your assistance in this request for a waiver. I feel I am justified and I believe you or a member of your staff will agree. Thank you very much for your considerations in this matter, and I will co-operate with you in showing you the lake and my facilities, or in whatever you may desire.

Kindest Personal Regards,

Freeland Thorson

Dear Mr. & Mrs. Thorson:

One of the conditions of approval of your water Permit No. 67-7240 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before May 1, 1976. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.
