Dear Mr. Wilson:

One of the conditions of approval of your water Permit No. 67-7204 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before July 1, 1975. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Re: Application for Permit

Dear Mr. Wilson:

We have received your application for permit but find we need additional information.

You show the point of diversion as being in the NE¹/₄NE¹/₄, Sec. 31, T. 15 N, R. 2 W, B.M. and is an existing ditch. If this ditch is presently being used by other water users, you will need to supply us with a letter from them authorizing you to use their ditch.

You show irrigation as the use to which the water will be applied. In the remarks, you say it will also be used for stock water. This use should be shown on line 4. We can add it if you will authorize us to do so. And, we will need to know how many head of stock and type of cattle (beef or dairy).

Also, please find enclosed your receipt no. 12576 in the amount of \$10.00 for the application for permit which was received in this office on October 29, 1973.

Please answer the above questions and we can proceed with processing your permit application.

Sincerely,

ROBERT W. HAMILTON
Supervisor of Water Distribution
