RE: Claim #A67-07191

Ken Uhrig was in the office today to file his adjudication claims. In reviewing the draft license contained within this file, Mr. Uhrig objected to a description of the point of diversion. Whereas the field examiner had described the point of diversion at the Crane Creek Reservoir dam and a point of re-diversion at his pump site, the draft license had excluded the point of diversion at the dam and called the pump site the point of diversion. Mr. Uhrig maintains that this right can not be exercised unless the spillway at the dam is flowing water. The dam acts as a point of diversion to back the water to his pump site. Mr. Uhrig would prefer the water right be described similar to the claim, that is attached to this memorandum.

Gentlemen:

We acknowledge receipt of the affidavit submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We cannot tell during which part of the irrigation season this examination will be made, however, our examiner will try to contact you at the time he makes the exam so that you may show him the system.

If you have any questions concerning the field exam, please contact our District Office in Boise.

Sincerely,

D. Darlene Reich

LICENSE

THIS INDENTURE, Made and entered into this 15th day of September, 1973, at Weiser, Idaho, by and between the CRANE CREEK RESERVIOR ADMINISTRATION BOARD, of the County of Washington, State of Idaho, hereinafter referred to as the grantor, and KENNETH E. UHRIG and GLENN UHRIG, of the County of Washington, State of Idaho, hereinafter referred to as the grantees;

WITNESSETH, That the grantor, for and in consideration of the sum of One Dollar and other good and valuable considerations does hereby grant unto the grantees, subject to the condition and for the purposes hereinafter set forth, a license through, over and across the following described real property, to be known as the Servient Estate, more particularly described as follows, to-wit:

That part of the Northwest 1/4 of the Northwest 1/4 of Section 26 and that part of the Northeast 1/4 of the Northeast 1/4 of Section 27 and the Southeast 1/4 of Section 22, Township 12 North of Range 2 West of the Boise Meridian, lying within and below and in conformity to the contour elevation of 3191.

Such grant to be limited, however, to only that portion of said lands traversed by a strip of land 40 feet in width, the course and termini of the center line of which is more particularly described as follows, to-wit:

Commencing at a point which is N 40° W 600 Feet from the common section corner, common to Sections 22, 23, 26 and 27 in Township 12 North Range 2 West of the Boise Meridian; thence running S 40° E a distance of 600 Feet to said common section corner; thence running S 50° E a distance of 640 Feet to the turning point; thence running S 16° E a distance of 480 Feet to the Southern terminus.

The license herein granted shall serve lands of the grantees, known as the Dominant Estate, situate in the County of Washington, State of Idaho, which are more particularly

described as follows, to-wit:

The W 1/2 of the W 1/2 of Section 26 and the
E 1/2 of the E 1/2 of Section 27, Township 12
North Range 2 West of the Boise Meridian.

The purpose for which this license is granted is limited to the construction, operation and maintenance of a canal on a strip of land Twenty-five (25) Feet in width, which canal will be so constructed as to be Four (4) Feet in width at the bottom thereof, to connect to a pump belonging to the grantees to be installed for the purpose of pumping irrigation water from Crane Creek Reservoir for a period of Ten (10) Years, and subject to the following terms and conditions, the breach of any one of which shall be cause for the grantor revoking the license hereby granted.

1. There shall be installed on or near said pump at a point providing convenient access by agents and employees of the grantor a water measuring device to be approved by the State of Idaho Department of Water Administration, so that the same may be read at all times by agents and employees of the grantor and by officials of the Department of Water Administration in order to assure that in any irrigation season the amount of water pumped from said reservoir shall not exceed 150.1 acre feet or such proportionate share thereof as the grantees may be entitled in any low-water year when the reservoir might fail to fill, it being understood and agreed that in the event the grantees shall cause to be pumped from said reservoir in any year a greater amount of water than that to which they are entitled shall be a ground for revocation of this license.

2. That the grantees hold the grantor harmless for

or on account of any injury or damage to person or property
for or on account of such installation.

3. That this license be approved and filed with the
State of Idaho Department of Water Administration, Boise, Idaho.

4. That the grantees hold the grantor harmless for
or on account of the failure of said reservoir to be filled by
reason of inadequate run-off in the spring of any year or by
reason of any order or threatened order entered by State of
Idaho Department of Water Administration, directing that the
level of the reservoir be maintained below its normal capacity.

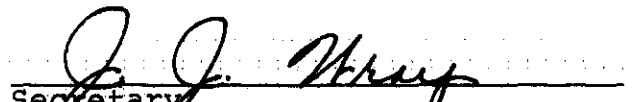

5. The limitation herein contained in Paragraph 1
hereof with respect to the use of storage water in Crane Creek
Reservoir shall not be applied against the use by the grantees
of any unappropriated flow of the waters of Crane Creek; and
that anytime that the reservoir is full and the amount of water
running into Crane Creek is sufficient to cause water to be
discharged at the spillway in excess of the amount of the
adjudicated waters in Crane Creek adjudicated to appropriators
on lower Crane Creek, that the amount of such excess may be
used by the grantees and will not be charged against their
allotted storage in Crane Creek Reservoir; but that when the
inflow into Crane Creek Reservoir diminishes to the point that
the amount being discharged at the spillway is equal to or
less than the total amount of downstream appropriations from
Crane Creek, that any water used thereafter will be charged to
the grantees as storage water; provided, however, that the
grantor covenants and agrees that it will give notice in writ-
ing to the grantees on the day that available stream flow from
Crane Creek ceases to be available for appropriation by the

grantees; and that from the date of said notice, any water thereafter pumped by the grantees shall be measured and charged against the storage capacity of the grantees in said reservoir. The determination as to the time when there ceases to be unappropriated waters of Crane Creek available for the grantees' use shall be determined by the water master for the Weiser River Drainage.

IN WITNESS WHEREOF, The grantor has, by resolution of its Board of Directors, caused this instrument to be executed on the day and year first above written.

INTER-DEPARTMENT MEMO — 1

DATE February 22, 1974

FROM M. Clayne Barron

TO File #67-7191

SUBJECT Clarification of Applicant's Intent

This applicant has a storage right in Crane Creek Reservoir. He is herein filing on runoff water from Crane Creek that spills over the dam in the early spring. This water will be diverted at a point where the reservoir backs up on his land. The watermaster will regulate how long the applicant may pump this water so as to not endanger prior direct diversion rights from Crane Creek below the reservoir.

Re: Application for Permit No. 67-7191

Dear Mr. Uhrig:

During the processing of your Application for Permit, we have noted that your point of diversion is located on land owned by Crane Creek Reservoir Administration Board.

Before we can make the final approval of your application, it will be necessary for you to supply this department with a copy of the agreement you have with Crane Creek Reservoir Administration Board.

If we can be of any further assistance in this matter, please feel free to contact this department.

Sincerely,
