Dear Mr. Sasaki:

One of the conditions of approval of your water Permit No. 67-7144 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before November 1, 1974. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Dear Sir:

Received your letter calling my attention to the requirement for a permit for drilling a well.

I am in a process of developing a six space mobile home park. I had an eight inch well drilled for the sole purpose of irrigating the lawn and the shrubries, which I expect will not use over 13,000 gallons per day. However, if this well in a commercial developmeent needs a permit, I herewith request an application form for the water users permit.

Thank you kindly,

Yours truly,

Barton Sasaki

Weiser, Idaho 83672

Dear Mr. Sasiski:

We have received a well drillers report indicating that a well was drilled for you in NE1/4, of Section 31, Township 11 North, Range 5 West, E.M., Washington County.

A review of our records indicates that you have not filed an application for a permit to appropriate the public water of the State of Idaho. Since March 25, 1963, an application has been required prior to construction of a well and a valid permit must be obtained before ground water may be diverted. The only exception to this requirement is a well drilled for stock-watering or single family household use and water used for all other purposes, including irrigation of one-half acre of land in connection with the household use where the total use does not exceed 13,000 gallons of water per day.

If you have already filed an application, which we over-looked in the review of our records, please advise us of the number of the application or the name under which the application was filed. However, if you have not yet filed the required application, you should do so as soon as possible. You may obtain the forms upon request from this office.

If you have any questions regarding this matter, please contact this office.

Sincerely,

KENNETH H. FOIT, P. E.
