REINSTATEMENT ORDER

This matter having come before the Idaho Department of Water Resources ("Department"), the Department makes the following Findings of Fact, Conclusions of Law and Order:

FINDINGS OF FACT

1. On June 5, 1973, the Department issued Permit No. 67-07141 to Kenneth R. and/or RaNae K. Skow ("permit holders") authorizing the diversion of 2.0 cubic feet per second of water from a ground water source to be used for the irrigation of 160 acres of land in Section 24, T11N, R4E, B.M. A condition of permit approval was that proof of beneficial use of water ("proof") be submitted to the Department on or before September 1, 1983.
2. On May 29, 1981, the permit holders submitted proof to the Department.
3. On April 10, 1987, the Department sent an Examination Fee Notice to the permit holders by certified mail requesting the submittal of a license examination fee within 60 days of the date of the notice. The permit holders did not submit the fee.
4. On May 5, 1988, the Department issued a lapse notice to the permit holders for failure to submit the license examination fee. On June 9, 1988, the permit became of no further force nor effect.
5. On April 5, 2000, the permit holders submitted proof of beneficial use for the lapsed permit together with supporting information and the license examination fee.

CONCLUSIONS OF LAW

1. Section 42-218a.2, Idaho Code, provides as follows:

That upon receipt of proof of beneficial use after sixty (60) days after such notice of lapsing, the director shall require sufficient evidence to be submitted by the permit holder to

clearly establish the extent of beneficial use made during the time authorized by the permit and any extensions of time previously approved. Upon finding that beneficial use had occurred during the authorized period and upon a showing of reasonable cause for filing a late proof of beneficial use, the director may reinstate the permit with the priority date advanced to the day that proof of beneficial use was received;

2. The permit holders have provided sufficient information and reasonable cause for the Department to reinstate the permit by submitting proof of beneficial use on April 5, 2000.

3. The Department should reinstate the permit with the priority advanced to the date that proof of beneficial use and license examination fee were received.

ORDER

IT IS THEREFORE, HEREBY ORDERED that Permit No. 67-07141 in the name of Kenneth R. and/or RaNae K. Skow is **REINSTATED** with the priority advanced to **April 5, 2000**.

LAPSE NOTICE
License Examination Fee

You are hereby notified that under the provisions of Section 42-217 and 42-218a, Idaho Code, the above referenced permit will lapse and be of no further force nor effect on June 9, 1988, for failure of the permit holder to submit either the license examination fee or an acceptable field examination report prepared by or under the supervision of a certified water right examiner.

Provisions of § 42-217, Idaho Code, and the Beneficial Use Examination Rules and Regulations provide that failure of the permit holder to submit either the fee or an acceptable field examination report within one (1) year and sixty (60) days after notification by the director that the submittal is due is cause for the director to reject the proof of beneficial use and lapse the permit. The Department notified you of the required submittal on April 10, 1987.

The lapsed permit can be reinstated upon a showing of reasonable cause for late submittal of proof of beneficial use, if you submit to the Department on or before August 8, 1988, either the license examination fee or an acceptable field examination report prepared by or under the supervision of a certified water right examiner.

Enclosed is a fee information sheet that must be completed and submitted to the Department to keep the permit in good standing. If you have questions, please contact any office of the Department.

EXAMINATION FEE NOTICE

Dear Permit Holder:

Department records show that proof of beneficial use has been submitted for the above-referenced permit, but that a field examination has not yet been conducted to determine the extent of beneficial use of the water for licensing purposes.

House Bill 671 (effective April 4, 1986) enacted by the 1986 Idaho Legislature requires the payment of a fee before this department can conduct the field examination needed to issue a license confirming use of water under the permit. This letter is notification that the license examination fee is due within sixty (60) days of the date of this letter. The examination fee information sheet (enclosed) must be returned with the fee.

As an alternative to submitting the fee, the department will accept a field examination report completed by a certified water right examiner from the private sector. If you choose to have the examination done by a certified water right examiner, you need not submit the license examination fee to the department, but you must within sixty (60) days of the date of this letter return to the department, the examination fee information sheet showing appropriate information together with a statement from the certified examiner to verify that you have retained a certified examiner to conduct the field examination. If you choose this alternative, a completed field examination report must be submitted within one year of the date of this letter. You cannot later change your decision to use this alternative and submit the fee needed for the department to conduct the field examination, but you may change to another certified examiner.
