Jack L. St Germain
Box 66
Emmett, ID 83617

Dear Mr. St Germain:

Our office acknowledges receipt of Assignment of Permit for the above referenced water right. However, in reviewing the file I find that the Permit has been licensed.

In Idaho, a licensed water right is considered real property and can be aquired when the property to which it is appurtenant to is purchased. Proof to owning the water right is proof of owning the property.

Therefore, I have put the Assignment of Permit into the file for future reference only and no other action will be taken.

If you have any questions please feel free to contact our office.

Dear Mr. St. Germain:

One of the conditions of approval of your water Permit No. 67-7116 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before February 1, 1975. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.
