BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE
STATE OF IDAHO

IN THE MATTER OF APPLICATION FOR
PERMIT NO. 67-7109 in the name of
DUANE B. &/or MARGARET A. WILLIAMS

MEMORANDUM DECISION
AND ORDER

on September 14, 1972, Duane B. &/or Margaret A. Williams filed with the Department of Water Resources (formerly the Department of Water Administration) an application for permit to appropriate the public waters of the State of Idaho. The applicant requests authority to divert 0.48 cubic feet per second of water from springs, tributary to Seid Creek, for domestic, stockwatering and irrigation purposes. The point of diversion is located within the NW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 15, Twp. 16N, Rge. 4W, B.M., Washington County.

The Department caused notice of the application to be published in the Upper Country News Reporter, Cambridge, Idaho, on September 28, 1972, and October 5, 1972. On October 11, 1972, the Department received a protest against the granting of said permit from L. D. Warfield, et al.

As a result of that protest, a hearing was held on April 18, 1974, at the Washington County Courthouse, Weiser, Idaho. At that hearing, the following issues were raised:

- (1) That the granting of a permit would cause injury to existing decreed water rights.
- (2) That the water supply is insufficient for the purposes for which it is sought to be appropriated.

The applicant and the protestant agreed to allow the Department to reach a decision based upon the information contained in the records of the Department, the information contained in the application and the protest, and the information obtained at the conference. Therefore, based upon that information, and the Department's understanding of the law, the Director of the Department of Water Resources makes the following Findings of Fact, reaches the following Conclusions of Law, and issues the following Order:

Findings of Fact

- (1) The applicant, Duane B. Williams &/or Margaret A. Williams, does not intend to transfer water out of the basin of Seid Creek and into another drainage basin

RECEIVED

to the west.

(2) That the entire flow of these springs has been used by predecessors of the applicant for several years for different lands and purposes than requested by this application.

(3) The applicant will use more efficient methods of irrigation and develop the springs so that more land can be irrigated.

Conclusions of Law

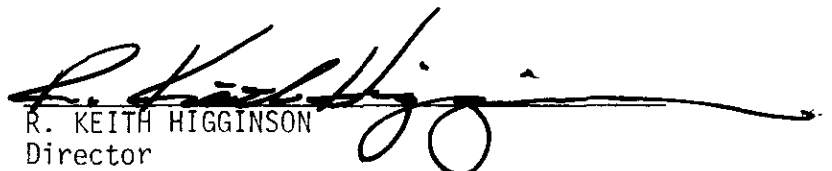

(1) Water is available for appropriation and is sufficient for the purposes intended, therefore, the applicant is entitled to a permit to put the water to use to avoid the waste of a valuable resource to the state.

Order

IT IS, THEREFORE, ORDERED and Application for Permit No. 67-7109 is hereby APPROVED subject to the following limitations and conditions:

- (1) That said permit shall be subject to all prior water rights.
- (2) That all water used from these springs shall not be used in areas other than the Seid Creek drainage, and any waste water must be returned to Seid Creek.
- (3) That proof of construction of works and application of water to beneficial use shall be submitted to the Department on or before June 1, 1980.
- (4) A measuring device of a type approved by this Department shall be permanently installed and maintained at the point of diversion.
- (5) Use of water under this permit is subject to control by the watermaster of State Water District No. 67, Weiser River.

Dated this 9 day of June, 1975.

- c. If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing Part of the stock will be watered on land leased from the state of Idaho by applicant.

10. Remarks Applicant recently purchased the land that the spring to be developed is on as well as the other deeded land shown on the map below. This land has the water rights for the water out of Seid Creek as well as out of Little Pine creek. The water that is being filed on has always gone with the land that the applicant purchased, and it is believed that these water rights are already owned by the applicant, however as the water does not always flow all the way on the surface into Seid Creek the applicant was advised to file for a permit on the specific water to be doubly sure of the water rights, and is hereby doing so, although the applicant feels that these water rights already belong with the property purchased, even though they were not specifically spelled out or filed on. This water has always been used with this land owned by the applicant for stock water and random irrigation along the creek where it subbed out on the deeded land. So there should be no conflict as to allowing the applicant a permit on this water as it has always been used with the property purchased by same.

H. REMARKS AND OVERLAP REVIEW ANALYSIS

I WAS NOT ABLE TO PLACE THE P.D. OF THE SPRING IN THE CLOSEST IDAHO TRACT BECAUSE OF THE DETAIL OF ALL MAPS AVAILABLE WAS NOT GOOD ENOUGH.

NOTE:

MEASURED RATE WAS .005 cfs but spring production was reduced due to dry year. This was a common situation found by examiners in 1988. Examiners rounded .005 to nearest 1/100, thus .01 cfs was recommended. This seems reasonable & is still within the allowed rate for 200 hcf (up to .05 cfs). Without additional information, .01 cfs remains a reasonable

I. RECOMMENDATIONS

1. Recommended Amounts be waived.

Beneficial Use	Period of Use From To	Rate of Diversion Q (cfs)	Annual Volume V (afa)
STOCKWATER	1/1 12/31	.01 cfs	2.68 afa 2.7

Dear Mr. & Mrs. Pugh:

We have received the exam fee information sheet and check for \$300 submitted in response to our letter of April 10, 1987.

However, on your exam fee sheet the permit number listed was shown as Permit No. 35-7547. The exam fee now due is actually on Permit No. 67-7109 which was filed for water use from springs tributary to Seid Creek in Washington County. Permit No. 35-7547 is for a permit in Bonneville County for a well to irrigate 1200 acres. This permit is now lapsed for failure to submit proof of beneficial use in 1981. Proof was submitted by you in 1984, however, in order to reinstate this permit more information on how long the well had been used was needed. The records show this information was not submitted. If you have any questions concerning this permit, please contact Jim Johnson at 334-4162. The exam fee for Permit No. 67-7109, based on the amount of water filed on (.48 cfs), is \$100. In order to avoid waiting for a refund, we are returning your \$300 check and will await processing until the \$100 fee is submitted. Your exam fee will be considered as filed timely due to our delay in returning your check. We have been quite busy with the news of an impending drought and hope this has not caused an inconvenience for you.

If you have any questions concerning the exam fee for Permit No. 67-7109, please do not hesitate to contact us. Enclosed is a copy of Permit No. 67-7109 to assist you in completing the enclosed Exam Fee Information sheet.

EXAMINATION FEE NOTICE

Dear Permit Holder:

Department records show that proof of beneficial use has been submitted for the above-referenced permit, but that a field examination has not yet been conducted to determine the extent of beneficial use of the water for licensing purposes.

House Bill 671 (effective April 4, 1986) enacted by the 1986 Idaho Legislature requires the payment of a fee before this department can conduct the field examination needed to issue a license confirming use of water under the permit. This letter is notification that the license examination fee is due within sixty (60) days of the date of this letter. The examination fee information sheet (enclosed) must be returned with the fee.

As an alternative to submitting the fee, the department will accept a field examination report completed by a certified water right examiner from the private sector. If you choose to have the examination done by a certified water right examiner, you need not submit the license examination fee to the department, but you must within sixty (60) days of the date of this letter return to the department, the examination fee information sheet showing appropriate information together with a statement from the certified examiner to verify that you have retained a certified examiner to conduct the field examination. If you choose this alternative, a completed field examination report must be submitted within one year of the date of this letter. You cannot later change your decision to use this alternative and submit the fee needed for the department to conduct the field examination, but you may change to another certified examiner.

GENTLEMEN --

This letter is a request for an extension of time.

Reasons:

- 1.) The ground in and around the spring area is wet. Development and access will be easier later on in the summer. Less ground will be disturbed if allowed to dry.
- 2.) The backhoe, a personal piece of equipment, is having the engine rebuilt. If I could use this, instead of renting, it will save me money.

Water Permit No. W-7107

The ~~extension~~ extension is requested ~~until~~ for 4 months, 1 Oct 80.

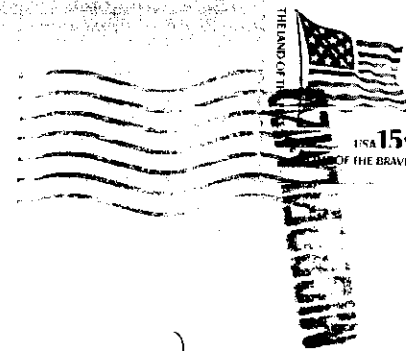

The spring development is being done in conjunction with SCS guidelines and SCS master plan for the Ranch, and ASCS cost sharing program for this year.

Gentlemen,

We the undersigned wish to protest the application for water permit applied for by Duane B. Williams and Margaret A. Williams, 5110 Sorrente Drive, Boise, Idaho, for application #67-7109 on September 14, 1972, because we are already short of water and don't feel more permits should be issued. The permit would appropriate 0.48 cubic feet per second of water from springs, trib. to Seid Creek by means of ditches and pipelines within the NW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 15, T. 16 N., R. 4 W., B. M., Washington County to be used from Jan. 1 to Dec. 31 for domestic and stockwater purposes and from April 1 to Oct. 15 for the irrigation of 19 acres within the NW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 15, T. 16 N., R. 4 W., B. M.

Sincerely,

On September 14, 1972, Duane B. Williams & Margaret A. Williams filed with the Department of Water Administration an application to appropriate the public waters of the State of Idaho. On October 11, 1972, the Department received a protest against approval of said application signed by the following individuals: L. D. Warfield, Edna K. Howland, Leo Toney, Earl Armacost, L. C. Wink, Muriel M. Winder, Terri G. Seidler, Ronald P. Howland, Bill E. Noah, Henry Hansen, Harold Gibson, Harman Hansen, Louticia A. Buhl, Kenneth A. Downey, Dale J. Howell, Isla Buhl Hall, Elmo C. Edwards and Frank Shirts.

The Department has set the matter of protest for conference and/or hearing for Thursday, April 18, 1974, at 10:00 a.m., in the Courtroom of the Washington County Courthouse, Weiser, Idaho. Any hearing will be held in accordance with the Rules and Regulations of the Idaho Code and adopted Rules of Practice and Procedure of the Department of Water Administration. Opportunity shall be afforded all parties to respond and present evidence and argument on all issues involved.

Any party may request in writing five (5) days before any hearing that the oral proceedings thereof be taken in the form of stenographic notes. Any party may have such stenographic notes of the oral proceedings, or part thereof, transcribed at his own expense. A taped record of the proceedings will be maintained for the appeal period.

Failure to appear at the time and place set for hearing by the applicant or protestants may allow the Department without prejudice to dismiss the protest or the application. Any and all cost incurred by reason of such non-appearance may be assessed against such non-appearing parties.

Dated this 15th day of March, 1974.

Re: Application No. 67-7109 - Duane B. & Margaret A. Williams

Mr. Dale J. Howell
Cambridge,
Idaho 83610

Dear Mr. Howell:

This is to acknowledge receipt of your protest to issuance of a permit pursuant to the above referenced application. The following are the principle items we can consider at a conference and/or hearing in either approving or denying an application for permit (Section 42-203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?

The Department may reject an application and refuse issuance of a permit, partially approve the permit, approve the permit for a quantity of water less than applied for or approve the permit subject to special conditions.

A permit issued by this office is subject to all prior water rights and does not in any way convey or establish a right-of-way over private or governmental lands. Any right-of-way or easement must be obtained by the individuals concerned through action outside of the water right proceedings.

You will be notified at a later date as to the time and place set for a conference and/or hearing to discuss the matters of protest. If we may be of further assistance, please contact us.

Very truly yours,

Kenneth H. Foit, P.E.
Western District Engineer

Re: Application for Permit No. 67-7109

Mr. & Mrs. Duane B. Williams
5110 Sorrento Drive
Boise, Idaho 83704

Dear Mr. & Mrs. Williams:

We have enclosed a copy of the protest filed against the issuance of a permit pursuant to your Application No. 67-7109. You should be aware that the following are the principle items we can consider at a conference and/or hearing in either approving or denying an application for permit (Section 42-203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?

The Department cannot allow a permit for irrigation purposes which would entail the use of more than a continuous flow of 0.02 cubic feet per second of water for each acre of land, or an annual amount of 5 acre feet for each acre of land, unless the applicant can show that more is required. (Section 42-202, Idaho Code)

A permit issued by this office is subject to all prior water rights and does not in any way convey or establish a right-of-way over private or governmental lands. Any right-of-way or easement must be obtained by the applicant through action outside of the water right proceedings.

You will be notified at a later date as to the time and place set for a conference and/or hearing to discuss the matters of protest. Legal counsel is not mandatory at any proceeding before the Department, although you may desire to employ an attorney in your behalf.

If we may be of any assistance, please contact us.

Sincerely,

KENNETH H. FOIT, P. E.
Western District Engineer
