Gentlemen:

One of the conditions of approval of your water Permit No. 67-7044 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before June 1, 1972. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Gentlemen:

Enclosed you will find a legal notice which we wish to have published once a week for two consecutive weekly issues of your newspaper. We have inserted the publication dates allowing ample time for you to submit us a galley proof for review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted assuming the notice is correct. If we have any corrections, we will notify you before the first publication date. If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department of Reclamation along with the publication bill. In order to receive payment, the following certification must appear on the bill:

I hereby certify that the foregoing account is just and correct, that the amount claimed is legally due, after allowing all just credits, and that no part of the same has been paid.

Gentlemen:

We are herewith returning your application for permit received in this office on this date. Before we can begin to process your application, we will require a filing fee which is based on the rate of diversion (cubic feet per second of water to be appropriated).

We are enclosing a set of instructions for your use in determining the fee; the fee schedule can be found on page 3 of the instructions. Also, please enter under item 4 and 5a on the application the amount of water you are requesting. You should be aware that the maximum the Department can allow for a single family dwelling is .02 c.f.s. and 1 miners inch per acre of irrigated land.

If you have any questions regarding the above, please contact us.
