Dear Mr. Marti:

In response to your letter of January 21, 1988 concerning transferring ownership of the above referenced water rights, we offer the following.

In Idaho, licensed and decreed rights are considered to be real property, and appurtenant to the land. Therefore, proof of ownership of the land is proof of ownership of the water right if the water rights have not been transferred off the property.

Your letter has been placed in the water right files for reference. Copies of the rights are enclosed for your information. If you have any further questions, please let us know.

Dear Mr. Marti:

One of the conditions of approval of your water Permit No. 67-7041 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before March 1, 1975. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.
