School Dist. No. 431  
320 East Galloway  
Weiser, Idaho 83672

Gentlemen:

We acknowledge receipt of your affidavits submitted as proof of beneficial use for the above referenced permits.

One of the conditions of approval of your permits was that a measuring device of a type approved by the Department of Reclamation be installed and maintained as part of the diverting works. We have reviewed your permits and we will not require the measuring devices to be installed at this time. However, this does not relieve you of the requirement should the measuring devices be required at some future date.

Before a license can be issued a field examination must be made by a representative from this Department. We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the examination so that you may show him the systems. If someone other than you should be contacted by the examiner, please advise.

Very truly yours,

Gentlemen:

One of the conditions of the approval of your permits No. 67-7022 and 67-7023 was that proof of application of the water to beneficial use be submitted to this office on or before April 1, 1970.

Enclosed are affidavit forms which must be used to submit this proof. You may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code Amended.

Either the proof or a request for extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.
