Gentlemen:

During a recent field examination in connection with Permit No. 67-7022, it was determined that an amendment is necessary to this permit before a license can be issued. It was also determined during this examination that the license issued under 67-7023 is in error, and the Department is hereby recalling this license. An amendment will also be required under this permit. We are enclosing the proposed amendment which we would request you sign and return with a \$10 fee for each. We also need the original of License No. 67-7023 returned so that we can amend it.

If you have any questions, please contact us.

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

Gentlemen:

We acknowledge receipt of your affidavits submitted as proof of beneficial use for the above referenced permits.

One of the conditions of approval of your permits was that a measuring device of a type approved by the Department of Reclamation be installed and maintained as part of the diverting works. We have reviewed your permits and we will not require the measuring devices to be installed at this time. However, this does not relieve you of the requirement should the measuring devices be required at some future date.

Before a license can be issued a field examination must be made by a representative from this Department. We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the examination so that you may show him the systems. If someone other than you should be contacted by the examiner, please advise.

Very truly yours,

C. STEPHEN ALLRED, Deputy
State Reclamation Engineer

Gentlemen:

One of the conditions of the approval of your permits No. 67-7022 and 67-7023 was that proof of application of the water to beneficial use be submitted to this office on or before April 1, 1970.

Enclosed are affidavit forms which must be used to submit this proof. You may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code Amended.

Either the proof or a request for extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Gentlemen:

Enclosed you will find a legal notice which we wish to have published once a week for two consecutive weekly issues of your newspaper. We have inserted the publication dates allowing ample time for you to submit us a galley proof for review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted assuming the notice is correct. If we have any corrections, we will notify you before the first publication date. If you cannot publish the notice on the proposed dates please contact us immediately.

An affidavit of publication must be submitted to the Department of Reclamation, along with the publication bill. In order to receive payment, the following certification must appear on the bill:

I hereby certify that the foregoing account is just and correct, that the amount claimed is legally due, after allowing all just credits, and that no part of same has been paid.

Gentlemen:

It has been brought to our attention that on or about
March 18, 1967, you had a well drilled. The
well is reported to be located at a point in the SE $\frac{1}{4}$
SE $\frac{1}{4}$, sec. 30, T. 11 N., R. 5 W., B.M. for
irrigation use.

A search of our records has failed to find your
application or approved permit. Under existing Idaho
Statutes, Sections 42-226, 42-229, and 42-230 of the
Idaho Code, you are required to file and obtain an
approved permit before you divert waters from a sub-
terranean source, with the exception of domestic wells
which are defined under Section 42-111 of the Idaho Code.

If we have overlooked your permit, please advise the
department as to your permit number. However, if you have
not yet filled out an application for permit, please use
the instructions and the blank application form which
we have enclosed.

We will be very happy to assist you with any questions
you might have.

Very truly yours,

Donald W. McEldowney
Appropriation Examiner
