Dear Mr. Sutton:

You are correct that you have a Permit No. 67-7260 for 0.17 cubic feet per second of water for stockwater and irrigation purposes. The completion date for this permit is December 1, 1979.

However, our letter of April 23 is concerning the licensing of Permit No. 67-7018 which you filed back on August 23, 1968. Our examiner found during his visit last October that you were irrigating one acre of lawn and pasture and, therefore, a license can be issued for that use under your older permit. Your stockwatering use and the additional land that you will be irrigating will be licensed under your new Permit No. 67-7260 following the 1979 development period.

We will continue with the issuance of the license on your older Permit No. 67-7018 unless we hear further from you in the next ten days.

If you have any questions, please contact us.

Dear Mr. Flesnor:

I believe your letter of April 23, 1976 is in error.

If you will refer to your letter of November 17, 1975 you will note that water rights were approved under permit No 67-7260. You will note from the application that that approval was for .17 cfs. This is necessary to take care of both the stock water needs and the limited irrigation that is done.

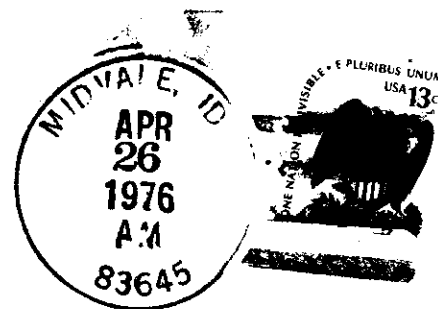

Thank you for your attention to this matter.

Dear Mr. Sutton:

A representative of this Department has made an examination of the works covered by your Permit No. 67-7018 and has found the following:

Quantity of water diverted: 0.06 cfs Source: unnamed spring

Amount of water that can be recognized as beneficially used under
Idaho law: 0.02 cfs

The maximum quantity diverted shall not exceed 4.0 acre feet per
year.

Point of diversion: SE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 8, Twp. 13 N, Rge. 3 W, B. M.

Beneficial use: Irrigation of 1.0 acre within the SE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 8,

Dear Mr. Sutton:

One of the conditions of approval of your water Permit No. 67-7018 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before October 1, 1975. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Re: Permit No. 67-7018

Dear Mr. Higginson:

Thank you for your letter of August 1.

I would appreciate an extension in the above captioned permit to October 1, 1975. You will note that the original permit covered pumping water on my yard and surrounding acreage. However, this must be scheduled immediately after the rebuilding and modernization of my home. This was to have been started early this year but now is scheduled to begin in May 1974 and should be completed in June 1975. The rebuilding will involve the digging of basements and the installing of septic tanks - thus the irrigating system can not be installed until the building is done.

Also please note that the original application did not mention any need for a well although a form letter returned with that application mentioned the digging of a well. Actually the water runs out on the surface of the ground on my property and it will merely be diverted through pipes to do the necessary irrigating.

Sincerely,

F. Paul Sutton

Dear Mr. Sutton:

One of the conditions of approval of your water Permit No. 67-7018 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before October 1, 1973. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Director
