vs.

THOS. M. HIGGENBOTHAM,
Defendants.

said decree bearing date of June 3, 1921, and being amended by Judge Ed. L. Bryan under date of June 10, 1927.

That said original decree has been entered into the records of the State of Idaho in Volume 4 of Decrees, beginning at Page 459, and said amended decree in Volume 4 of Decrees at Page 640.

That under the terms of said decree and the amendment thereof, said water right is appurtenant to the following described lands, to-wit:

55 acres in the $N\frac{1}{2}$ $NE\frac{1}{4}$ Section 30,
Township 11 North, Range 4 West, B.M.

That said Horace Lloyd has become the owner of said water right through purchase.

And that now, upon the application of Horace Lloyd, of Weiser, Idaho, for the transfer of 1.10 cubic feet per second of the waters of Manns Creek, made before the State Reclamation Engineer of the State of Idaho, and said application having been granted, the right to the use of 1.10 cubic feet per second of the waters of Manns Creek on the above described lands is hereby abandoned and the place of use of said waters to which the water right hereby confirmed shall by this Certificate, become appurtenant for irrigation and domestic purposes is described as follows, to-wit:

$N\frac{1}{2}$ $NE\frac{1}{4}$ and $NE\frac{1}{4}$ $NW\frac{1}{4}$ Section 30,
Township 11 N., Range 4 W., B.M.

That said water is to be limited at any given time to an amount actually needed and beneficially used for such purposes, and shall not exceed the following amount, to-wit:

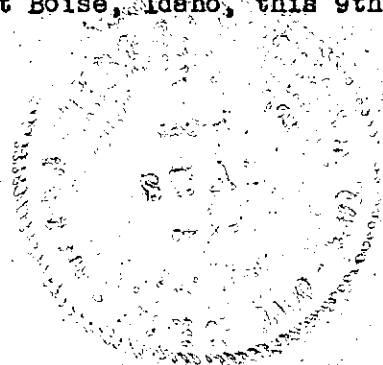

1.10 cubic feet per second of
the water of Manns Creek, with
priority of April 1, 1884.

That the water right hereby transferred has heretofore been conducted to the first above described lands from Manns Creek through the Buchanan Ditch with point of diversion in the $NW\frac{1}{4}$ $SE\frac{1}{4}$ Section 7, Township 11 North, Range 4 West, B. M.

That the water right hereby transferred will hereafter be pumped directly from Manns Creek with points of diversion in the NW $\frac{1}{4}$ NE $\frac{1}{4}$ Section 30, Township 11 North, Range 4 West, B. M. and also in the NW $\frac{1}{4}$ SE $\frac{1}{4}$ Section 7, Twp. 11 North, Range 4 W.B.M.

That the right to the use of the water aforesaid, hereby confirmed, is restricted to the lands or place of use last above described, as provided by the laws of the State of Idaho.

IN WITNESS WHEREOF, I have hereunto set my hand, and caused the official seal of the Department of Reclamation of the State of Idaho to be hereunto affixed at Boise, Idaho, this 9th day of July, A. D. 1949.

Dear Mr. Gunn:

We are writing you relative to your change of point of diversion of decreed water right from Mann Creek. Your application states that you are the owner of and using a certain water right bearing date of April 1, 1885, priority, for 1.2 cubic feet per second, decreed to F. E. Buchanan, in the case of E. V. Jefferson et al, versus Thomas M. Higgenbotham et al. Decree dated June 3, 1921, and signed by Ed L. Bryan, Judge of the District Court of the 7th Judicial District of the State of Idaho, in and for the County of Washington. The following is an excerpt copied from said decree.

"Buchannon Ditch, date of priority April 1st, 1885;

Flood water right 60 miners inches, 1.20 cu. ft.

Low water right 43. miners inches, .840 cu. ft.

For use upon lands in severality with no priority within the ditch,

as follows:

Frank Lund, flood water right 5 miners inches, .10 cu. ft. and low water right of .7 that amount, for use upon 5 acres of land of the NE $\frac{1}{4}$, Sec. 18, Twp. 11 N. R 4 W B M.

F. E. Buchanan, flood water right 55 miners inches, 1.10 cu. ft. and a low water right of .7 that amount, for use upon 55 acres of land of the NE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 30, Twp. 11 N, R 4 W B M."

We are somewhat confused relative to the amount of water which you request a change of point of diversion for. You state 60 inches of water in your application, while the decree states that F. E. Buchanan was decreed 55 inches of water. The other 5 inches which makes a total of 60 inches in the Buchannon Ditch was decreed to Frank Lund on land in the NE $\frac{1}{4}$ of Section 18, Township 11 North, Range 4 East, B.M. Are you or are you not the owner of the 5 inches decreed to Frank Lund?

Another thing a little confusing is an affidavit on the bottom of your application, signed by Duane Brent, stating that he is a co-owner in the Buchannon Ditch so perhaps he may be the owner of the Frank Lund water right, and if so, what does he intend to do with his 5 inches left alone in the Buchannon Ditch.

Mr. T. E. Woods, Watermaster
Water District No. 41
Weiser, Idaho

Dear Mr. Woods:

Mr. Horace Lloyd has just called our attention to an error in Transfer Certificate No. 745, a copy of which was sent you on July 14, 1949.

It was not Mr. Lloyd's intention to give up his original point of diversion from Mann Creek in the NW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 7, Township 11 North, Range 4 West, but also to include an additional point of diversion in the NW $\frac{1}{4}$ NE $\frac{1}{4}$ Section 30, same Township and Range.

We have therefore amended this Certificate by adding the Works "and also in the NW $\frac{1}{4}$ SE $\frac{1}{4}$ Section 7, Township 11 North, Range 4 West, B.M." to the end of the first paragraph on the second page. Please make this change in your copy.
