**EXPLANATORY INFORMATION
TO ACCOMPANY A
PRELIMINARY ORDER**

The accompanying order or approved document is a "Preliminary Order" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources (department) unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the department or the Idaho Water Resource Board (Board) is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

MEMORANDUM

TO: FILE
FROM: DANIEL A. NELSON
DATE: 8/10/2000

RE: WX RANCH TRANSFER, RIGHTS 67-00491

The transfer proposes to move the point of diversion from the Morey-Smith- Crouter ditch in SESW S9 T14N R2W to the Mink-or-Allison ditch in SENE S10 T14N R2W. The applicant will also change the place of use to 260 acres within a 288.8-acre permissible place of use to match the land already irrigated with storage water from Little Weiser Irrigation District.

DOCUMENTS AND APPLICATION PREPARATION

The application consists of 6 pages and 3 attachments. Note the location of the following application items:

Attach. A – CSFA aerial photo showing lands irrigated in last 5 years and farms boundaries.

Attach. B – 1987 aerial photo showing irrigation in 1987 and border for place of use.

Attach. C – Proof of ownership documentation (C1 through C2)

Applicant prepared the application with assistance from Lori Graves.

Other information used in this review includes Place of Use Comparison Sheets, Point of Diversion comparison Sheet, and Partial Copy of Muir vs. Allison decree attached to this memo.

NARRATIVE

The change in point of diversion should not make that much difference to the water rights. The only problem will be the other users on the ditches. Comment letters have been sent to a few people who are active in the water district.

Originally this application used the Snake River Basin Adjudication claim to determine the number of acres to transfer. The adjudication claim listed 284 acres being irrigated. However, a review of the Muir vs. Allison decree revealed that the original decree allowed 5/8 of inch of water per acre. 5/8 of inch per acre divided into the 3.25 diversion rate for this right allows 260 acres to be irrigated under this right. I spoke with our adjudication staff and they agreed that this right would be limited to 260 acres.

MICROFILMED
OCT 02 2002

Page 2

WX Ranch memo

Mr. Ward agreed to amend his transfer application to include a permissible place of use of 260 acres within the 288.8 acres place of use. I performed an acre calculation of the total lands irrigated using Arc View and found 288.8 acres were irrigated in 1987. The Little Weiser Irrigation District (LWID) delivers water to irrigate the 288.8 acres giving Mr. Ward the ability to irrigate the entire 288.8 acres. Mr. Ward stated that he rarely irrigates his entire farm until the LWID rights are being delivered.

RECOMENDATIONS

This transfer should be approved under the following conditions:

- 1.) No more than 260 acres can be irrigated in any season with this water right until LWID water has been released and only LWID water can be used on the remaining 28.8 acres.
- 2.) When combined with LWID water no more than 0.02 cfs or 4.0 cfs per acre can be applied.
- 3.) This right should only allow 5/8 of inch or .0125 cfs per acre with a total diversion volume of 4.0 afa per acre for 260 acres.

Applicant has a claim for 3.25 cfs
284 acres.

The Decree allows $5/8$ " per
acre or .0125 cfs/acre. This allows
Enough decreed water for
260 acres.

The adjudication would require
the applicant to file an
Expansion claim for the
remaining 24 acres.

1.) Do I play AJ agent and
Solicit the expansion claim.

2.) Do I mess with the acres
at all since this is
