Nancy Lee Hulse  
Rt. #2, Box 116A  
Weiser, ID 83672

Dear Mrs. Hulse:

I have received the information for your water right per my request. However, in that letter I also mentioned that rather than filing the application for permit, it would be necessary for you to file the Claim to a Water Right. At that time you had sent in both the Application for Permit form and the Claim to a Water Right form. I returned the claim form to you to be completed with the requested information, signed and notarized and returned to us. You have submitted the information requested, however, no claim has been returned.

Therefore, since I now have all of the required information, I am completing the claim form and all that is necessary on your part is to sign the form, have your signature notarized and return the claim to us as soon as you can.

The reason that the claim should be filed rather than the application for permit is due to the fact that a claim enables you to claim the date your water was first used (1/1/1946) as your priority date. If you filed the application for permit your priority date would be the date it was first received in our office which was July 1, 1983.

If you have any questions, please do not hesitate to contact us. Your consideration in this matter is much appreciated.

Sincerely,

JAN GROVER  
Senior Water Resource Agent

Dear Dan,

Thank you for your letter.

I'm sorry I wasn't clear enough in my application, but will try and do better now.

After contacting Mrs. Clell Williamson, the owners of this property for many, many years, the source of this water was a swamp in their field. They tilled it so this land could be leveled. This was before 1946. The tile was brought to a central location and used for domestic use. Before my husband passed away he up-graded the cistern with cement, put a pump in & this is our only supply of water. The twelve acres cannot be irrigated at one time, Only after installing under ground pipe to different locations are we able to irrigate. The house and approx 11 acres is in this area. This is why I said (11-12 acres) I'm sure I would never have enough to cover this. I have 51.6 acres total, the balance being dry. We are in the area of ample water, Thousand Springs Valley & this side of Mann Creek. Mrs. Williamson also told me they was sure of an artesian well on the upper end of this field but never drilled because of the dam. Please let me know if you need more information. Sincerely Mrs. Darrell Helge

Dear Ms. Hulse:

On October 6, 1983 we sent you a letter concerning the claim to a water right you had filed on a spring for domestic and irrigation purposes. At that time we requested information concerning the tributary to which the spring flows, the legal description of the 12 acres and the exact priority date. As of this date, we have not yet received any correspondence from you.

If we do not hear from you within two weeks, the claim will be considered null and void and your \$30.00 filing fee returned. Please contact us if you have any questions concerning this matter.

Sincerely,

JAN GROVER

Dear Ms. Hulse:

We have received and begun review of your water rights submitted this summer. However, more information is needed before we can process either form.

It appears that the Claim to a Water Right is the correct form to be filed since the use was begun prior to May of 1971. However, we need to know what creek or river the spring flows into under Item #2, tributary to. We also need the legal description of where the 12 acres lie. This would be by quarter-quarter, section, twp. and rge. just as you listed under Item No. 5 (A). Also, the priority date needs to be narrowed down to an exact date and as far back as anyone can recall. The purpose for this is to establish a date of first use under your water right which is how all rights in Idaho are regulated, according to who is first in time. The map needs to be sketched out, your signature notarized and the Claim re-submitted within 60 days in order to keep it in good standing with our Department.

It will not be necessary to file the application for permit as it is only required if you began using water after the dates listed on the Claim form. If you have any further questions, please do not hesitate to contact me.

Sincerely,

JAN GROVER
