AFFIDAVIT

I, Gene Camp, having attended school adjacent to the subject property known as the Galey Ranch north of Council, Idaho and being very familiar with the land and irrigation since the 1920's I do hereby testify that the land on the attached map and legal description has been irrigated from a small stream known as Last Chance Creek and shown on the map since at least the year 1929.

The water volume was sufficient to irrigate the land for the entire summer which would involve approximately One Inch per acre.

Dear Mr. Hileman:

We are now in the process of reviewing the claims that came into our office during the June 30, 1983, deadline rush. Your claim has been reviewed and prior to processing a few more items need to be included.

You have listed irrigation as a use, however, under Item 6(A) no acreage was listed. The number of acres being irrigated in each quarter-quarter needs to be listed.* Another question involves the source of water listed. You have listed both springs and Last Chance Creek. If the springs have been developed at the source, i.e., catch box and pipeline then they should be listed. However, if they just flow into the creek and you pump out of the creek, the only source to be listed would be Last Chance Creek.

Please contact us with the above information and we can process your claim. If you have any questions, please do not hesitate to contact us.

Sincerely,

Jan Grover
