Dear Mr. Higginson,

As a water user of Rush Creek water in Washington County I am herewith filing a formal protest of the application for a proposed change of water right No's. 67-0241, 67-0242, 67-0243, 67-0244, 67-0245, 67-0261, 67-0262, 67-0272, 67-0273 filed by James L. Bungarner and also a protest of the application of proposed change of water right No's 67-0246, 67-0249, 67-0248, 67-0257, 67-0258 filed by Morris B. McCoy.

My objection to these applications is on the grounds that if these are accepted, it would be jeopardizing the next in line water right if Mr. Bungarner and Mr. McCoy are allowed to combine their water rights, which vary in priority dates, and transfer them from one piece of ground to another.

Sincerely,

Albert Langer

MEMORANDUM DECISION
AND ORDER

On June 2, 1921, the 7th Judicial District Court in Washington County decreed the water of Rush Creek, tributary to the Weiser River in the case entitled John T. Muir v.s. William Allison, et. al.

On January 18, 1974, James L. Bumgarner filed with the Department of Water Resources an application for transfer of water rights identified as follows:

Right No.	Decreed To	Amount	Priority	Place of Use

TOTAL				380acr

The application does not request a change in the point of diversion or the total place of use for all rights but requests that each of the rights be made appurtenant to the 380 acre total place of use.

Notice of the proposed change was caused to be published in the Upper Country News Reporter, at Cambridge, Idaho, and protests against the approval of the application for transfer were received from Elbert Langer, Melvin A. Dotson, Glen Farrens, Gary Farrens, George Ford, Jack Rippen, Dale Rippen, Arnold M. Rippen, Hubert V. Ward, and W. Forbes Morgan IV, all of Cambridge, Idaho.

A hearing was held and the primary issues identified as: 1) Would the proposed change constitute an enlargement of the existing water right? 2) Would the proposed change cause injury to the existing water rights? Based upon the evidence obtained at the hearing and the Director's understanding of the law, the Director of the Department of Water Resources makes the following Findings of Fact, Conclusions of Law, and Order:

FINDINGS OF FACT

1. The water rights requested to be changed are presently being used.
2. There are other users downstream that depend upon return flow to satisfy their existing water rights.
3. An increase in the number of acres irrigated above that originally decreed, results in an increase in the amount of water consumed. For example, in this instance if there is no water available to irrigate the acreage under Right No. 67-0261 with a priority of 1883 but the water under Right No. 67-0241 with a priority of 1878 is used to irrigate that acreage instead of returning to the stream after it has irrigated the land it was decreed to, then less water would be available to fill the other water rights on Rush Creek.
4. The place of use under Right No. 67-0243, 67-0244, and 67-0245 is described as 80 acres and the total rate of diversion of the three rights is 1.01 cfs. The rate of diversion per acre equals 1.01 divided by 80 acres or 0.013 cfs per acre. Using this ratio to determine the number of acres irrigated under each right results in the following:

RIGHT NO.	RATE OF DIVERSION	NO. OF ACRES
67-0243	0.16	13
67-0244	0.47	37
67-0245	0.38	30

In a similar manner, the number of irrigated acres under the following rights would be:

RIGHT NO.	RATE OF DIVERSION	NO. OF ACRES
67-0261	0.15	32
67-0262	0.25	53
67-0263	0.225	48
67-0264	0.125	27
67-0272	0.0625	8
67-0273	0.2475	32

CONCLUSIONS OF LAW

1. An enlargement of the existing right cannot be allowed, therefore, the number of acres of land irrigated must be reduced by the number of acres to which the water right was originally decreed during the times there is not water available to fill that decreed right.

Therefore, the number of acres irrigated must be restricted as follows:

Right No.	Priority	No. of Acres Under Rights	No. of acres that may be irrigated when water is available for this priority right
67-0264	May 1, 1901	27	380
67-0245	June 1, 1900	30	353
67-0244	June 1, 1899	37	323
67-0263	May 1, 1896	48	286
67-0262	May 1, 1890	53	238
67-0273	May 1, 1890	32	
67-0272	May 1, 1884	8	153
67-0261	May 1, 1883	32	145

Right No.	Priority	No. of Acres Under Rights
67-0241	May 1, 1878	60

Action on this matter has been non-existent since approx 1975. Each year for the past two years the applicant has complained to the Dept or a legislator that no action has been taken. (It came up again at the annual W.D. meeting this year.)

A.K. Dunn recently signed a similar app for trans for m. Coy. The format of memo decision was similar & the proposal was similar.

I have reviewed this BDF has, so after you do, let's get it signed & out of there so we won't continue to take heat.
