Re: Permit No. R-585

Mr. F. B. Snow, Secretary,
Little Weiser Irrigation District,
Council, Idaho

Dear Mr. Snow:

We enclose herewith License and Certificate of Water Right issued under Permit No. R-585, confirming the right of the Little Weiser Irrigation District to store and appropriate 7800 acre feet per annum of the waters of Little Weiser River, with priority of December 31, 1934, for irrigation and domestic use on the lands within the Little Weiser Irrigation District.

We also enclose the Department's Receipt # 19386 for the \$120.00 fee paid in connection with beneficial use proof.

Dear Mr. Kulp: Re: Permit R-585, Final Proof.

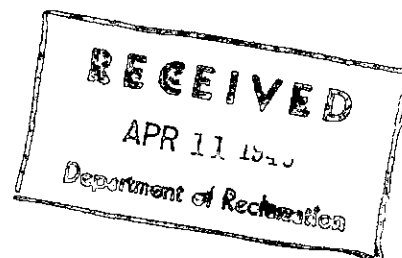

In accordance with our understanding when I called at your office in Boise: I am sending herewith the District's warrant for \$120.00, being the regular fee on sixty forties which have no recognized water right.

These warrants are paid upon presentation and I am sure you Boise Banks will handle them same as cash.

Very truly yours,

Dear Mr. Snow:

We have checked the decreed rights of the Little Weiser Irrigation District, with Permit No. R-585, and enclose plats showing in black the lands covered by the decree, and in pink the additional 40's included in the permit.

You will note that there are 60 such subdivisions, and therefore upon receipt of the fee of \$2.00 for each, or \$120.00, a license will be issued for the storage of 7800 acre feet per annum applied for under the above numbered permit.

Dear Mr. Snow:

In reply to your letter of February 15th,
relative to the above numbered permit.

We suggest the separate consideration of
proof of completion of work and proof of applica-
tion to beneficial use.

Payment of the fee for proof of completion
of works would entitle you to a Certificate of Com-
pletion of Works; and the matter of the examination
fee for proof of application to beneficial use could
be further explored and considered.

Re R-585

Dear Mr. Kulp:

Your letter of January 31st is received.

We abandoned any thought of making final proof under the above numbered permit. The farmers were distressed following construction and in the wake of a depression. We were perfectly willing to pay the normal fee for proof of construction of the reservoir, but took the position that since the water was supplemental to existing water rights, no fee should be assessed for proof of beneficial use. This is plainly set forth in the law.

In this particular case on December 31st 1934 I personally filed the application for permit to store water. On page three under remarks I have stipulated that "the diversion works have all been constructed for years and the water herein appropriated will be entirely supplemental to existing water rights"

When the reservoir was completed the storage water was simply returned to the Little Weiser River and allowed to flow through the old ditches to lands already partially irrigated. Some of these ditches have been in use for sixty to seventy years. No new distributing canals were constructed.

Very truly yours,

E. B. Snow

Secretary.

Re: Permit No. R-585

Mr. E. B. Snow, Secretary,
Little Weiser Irrigation District
Council, Idaho

Dear Mr. Snow:

In checking the records in connection with Reservoir Permir No. R-585, in the name of the Little Weiser Irrigation District, we find that this water right has never been completed, in that, although the proofs have been made neither certificate of completion of works nor license has been issued.

Further reference to the files discloses the fact that on January 14, 1941, Mr. E. V. Berg, then Commissioner of Reclamation, wrote you advising that the fee in connection with completion of works amounted to \$9.60, and for beneficial use proof \$508.00- which fees have never been paid.

Perhaps you have overlooked this, and we are calling it to your attention in order that the matter may be attended to promptly, and thus save interest which will be added unless paid within the next thirty days.

Dear Mr. Snow:-

We have received from Mr. Carl H. Swanstrom, Notary Public,
the following instruments, all in connection with proofs of
completion of works and beneficial use under the above numbered
permit:

Deposition of holder, and depositions of two witnesses, on
Completion of Works.

Deposition of holder, and depositions of two witnesses, on
Beneficial Use.

Affidavit of Publication from the Adams County Leader.

Before final action can be taken in this matter, the law requires
that a field examination be made by an engineer from this department.
We cannot say just when this examination will be made, since the
department has but one field engineer, who makes examinations all
over the state.

However, Mr. Tolman, Field Engineer for this department, will con-
tact you at the time set for examination, so that you may arrange
to show him over the grounds.

When his report is on file in this office, you will be notified
further as to fees before the issuance of Certificate of Completion
of Works, and License.

Dear Mr. Spofford:

I am sorry "I missed the Boat" in getting the depositions required: I happened to notice that carbons had been used in putting the permit numbers on the extra copies of each form and without reading instructions carefully, concluded that copies in duplicate were indicated.

Herein you will find new depositions of Troy Perkins and Ira Martin and Proof of Publication.

Thanks very much for your kindness in this matter.

Dear Mr. Swanstrom:

We are this morning in receipt of the following depositions in connection with completion of works and beneficial use proofs under the above numbered permits in the name of the Little Weiser Irrigation District:

Deposition of E. B. Snow, for the holder, on Completion of Works proof.

Deposition of Theo. Hagelberg, for the holder, on Beneficial Use Proof.

Two depositions (original and carbon) executed by Troy Perkins, on Completion of Works proof, as witness.

Two depositions (original and carbon) executed by Ira Martin, on Beneficial Use proof, as witness.

The depositions of the holder are satisfactory, but we are returning the duplicate depositions of these witnesses, because it is necessary to have the depositions of two witnesses for each proof, and not the duplicate depositions of the same witness.

We have, therefore, retained the original deposition of Mr. Perkins on Completion of works proof, and are enclosing a blank form to be executed by either Mr. Martin or another witness; and have also retained the original Beneficial Use proof of Mr. Martin, and are enclosing an additional blank form to be executed by either Mr. Perkins or some other witness.

Please see that these are executed and returned to us promptly, together with affidavit of publication from the Adams County Leader.

Dear Sir:

completion of works and

I enclose herewith the following forms to be used in connection with proof/ of beneficial use of water under Permit No. R-585

Deposition of Permit Holder, (for each proof)
Depositions of Two Witnesses. " " "

In submitting this proof the following instructions should be CAREFULLY followed out, since failure to do so may result in the loss of rights:

1. On March 22, 1940, the date set for proof, the enclosed forms (one for permit holder and one each for two disinterested witnesses) should be filled out and sworn to, at Council, Idaho before Carl H. Swanstrom, Notary Public

2. When the depositions have been taken they should be mailed to this office, together with affidavit of publication of notice.

When these have been received, together with report of the examining engineer, if everything is properly executed, you will be further advised as to fees due, etc., before certificate is issued.

Dear Mr. Snow: Re: R-585.

We are in receipt of your field engineer's report on Proof of Completion of Works and Beneficial Use. The reports show that the reservoir is capable of storing 7800 acre feet.

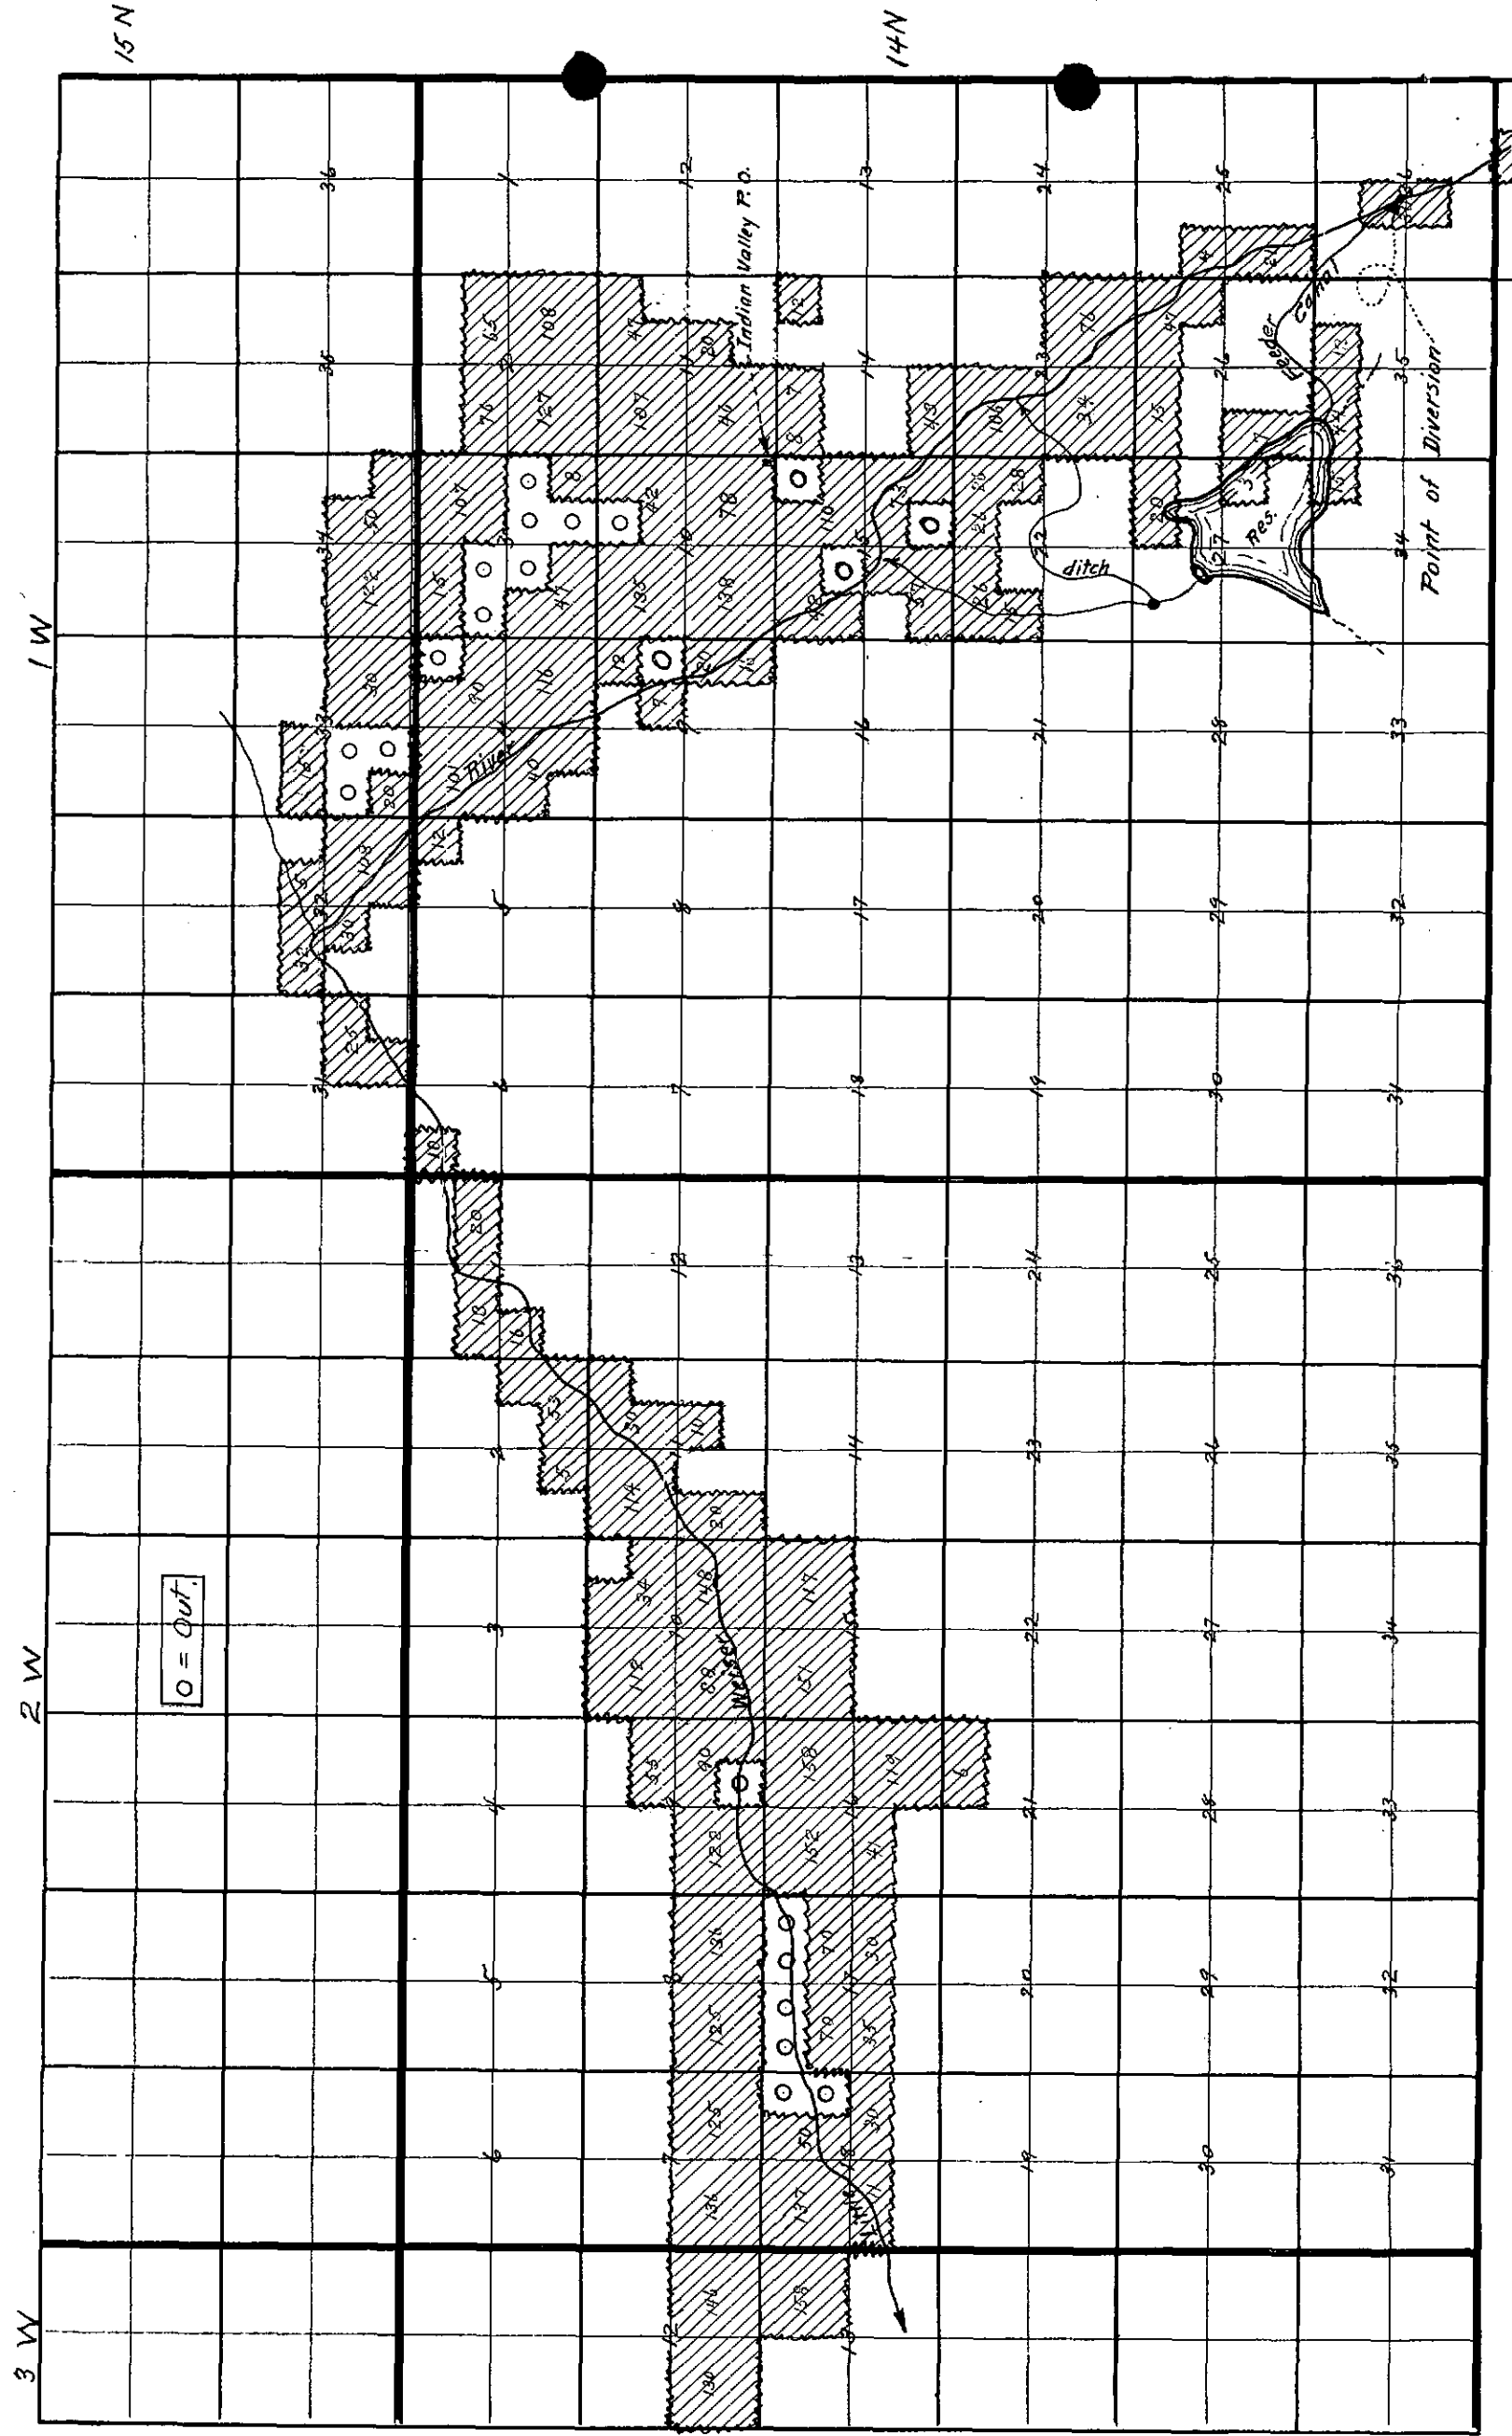

The fee for the Completion of Works is \$9.60, being figured at the rate of 30¢ for each 250 acre feet or fraction thereof. The Beneficial Use fee amounts to \$508.00, being figured at the rate of \$2.00 for each forty acre sub-division irrigated. Upon receipt of the above fees, a Certificate of Completion of Works and a license will be issued.

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

PERMIT NO. R-585

Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Troy Perkins, over legal age, Council, Idaho; trucker and contractor
have resided at Council, Idaho for more than 18 years last past.

Ques. 2. Are you acquainted with Little Weiser Irrigation District, the
holder of Permit No. R585? How long have you known him and where does he reside?

Ans. I have been familiar with this district since it was organized,
commencing in 1935; its official place of business is at
Council, Idaho; lands are in Adams and Washington counties.

Ques. 3. Have you read or heard read said Permit No. R-585, and are you familiar with
its provisions and conditions?

Ans. Yes, I understand all of the conditions of this permit.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying
water from point of diversion to place of use. Source is Little Weiser River in SE $\frac{1}{4}$ NW $\frac{1}{4}$

Ans. Sec. 36. Twp. 14 N. R. 1 W, Adams County; Diversion through 8800'
of canal, 6' X 14' X 4' to C Ben Ross Reservoir which impounds 7800 acre
feet; distribution through canal, river and creek channel and established
ditches to places of use

Ques. 5. How many second feet of water do you estimate said works will safely conduct to
place of use, and how much water have you seen being so conveyed? Diversion canal will convey

Ans. 7800 acre feet to Reservoir in about 2 months; full capacity of
reservoir has been impounded and used each year for 1937 1938 and 1939.

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each
sub-division in which water has been used and number of acres irrigated in each subdivision.)
State whether cultivated or natural meadow land and the nature of all improvement which have
been made as a direct result of said use.

Ans. Impounded water is used for irrigation, stock and domestic purposes
on lands in Adams and Washington counties, as her detailed list attached;
This land (6,041.5 acres) is valley land, in hay pasture and general farm
crops and has been settled for upwards of 50 years; a very fine farm area.

R-585

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent

Ans. All used for irrigation, stock water and domestic purposes

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation. No new land has

Ans. come under project, but water is used to supplement decreed rights from Weiser River; full 7800 acre feet is needed and more could be used.

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No. I am disinterested. I have seen all of the benefitted lands many times each year of 1937 1938 and 1939

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit. My work takes me all over

Ans. the district many times each season. I know that during 1937, 1938 and 1939, full working capacity of reservoir was used, and that during the late irrigation seasons, all of water was used on listed lands.

(Signed)

Troy Perkins

Re: Permit No. R-585

Mr. E. B. Snow, Secretary,
Little Waiyer Irrigation District,
Council, Idaho.

Dear Mr. Snow:-

We are in receipt of your Application for Amendment to the above numbered Permit, and have accordingly made out the Notice in accordance with the amended land list, which has been approved by the Commissioner of Reclamation.

The notice has been sent to the Adams County Leader, with instructions to publish it once a week for four consecutive weeks prior to March 22nd, the day set for proofs.

About ten days prior to that date the proper depositions will be sent to Mr. Carl H. Swanstrom, Notary Public, consisting of one for the holder and one for each of two witnesses, for each proof, so that he will have them in ample time.

On March 22nd you should appear at Mr. Swanstrom's office, with two disinterested witnesses, who are familiar with the terms of the permit, and the works constructed thereunder, for the purpose of executing the depositions.

Very truly yours,

JAMES SPOFFORD

Application for Amendment
To Permit to Appropriate the Public Waters
of the State of Idaho, No. R 585

Comes now Little Weiser Irrigation District, and represents to the Commissioner of Reclamation of the State of Idaho.

That he is the owner and holder of Permit to Appropriate the Public Waters of the State of Idaho, No. R 585, and requests that the list of lands to be irrigated, as described in said permit, be changed to read as follows:

.....

.....

.....

.....

.....

.....

.....

.....

....., making a total of 6041.50 acres.

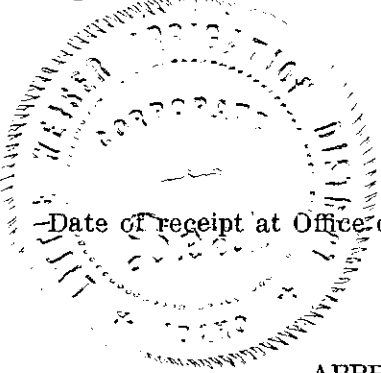

That an additional amount of water is not asked for, and that the rights of others will not be adversely affected by such change.

Signed at Council, Idaho, this 6th day of February, 19 40

LITTLE WEISER IRRIGATION DISTRICT

E. B. Snow Secretary

Date of receipt at Office of Department of Reclamation February 10, 1940

APPROVAL OF COMMISSIONER OF RECLAMATION.

I, James Spofford, Commissioner of Reclamation of the State of Idaho, hereby approve the above and foregoing application for amendment to Permit to Appropriate the Public Waters of the State of Idaho, No. R-585. This approval constitutes a new permit and is issued as an amendment to the original permit, to which it refers, and of which it becomes a part, and said application is approved only insofar as the rights of others will not be adversely affected thereby.

James Spofford
Commissioner of Reclamation.

Effective April 10, 1911

Department of Reclamation

REGULATIONS AS TO AMENDED APPLICATION AND PERMIT.

Section 3255 of the Revised Codes, provides for the amendment of a permit as to lands upon which the water is to be used. The permit holder, to avail himself of the provisions of this section, should fill out and file with the Commissioner of Reclamation the application blank found upon the reverse side of the sheet. If there is not sufficient room in such blank for the legal description of the amended list of lands, this may be submitted as an exhibit, proper reference thereto being made in the application.

Before amended permit will be granted applicant must file with the application two maps, showing the following details:

- (a) Name of applicant.
- (b) Section, town and range numbers, where public survey has been made.
- (c) Source or sources of supply.
- (d) Point or points of diversion.
- (e) Route of ditch or ditches, including laterals delivering water within one mile of each 160 acre tract of the lands to be irrigated.
- (f) Lands to be irrigated to be shown by cross hatching, outlining, or coloring.

If original permit called for more than 25 cubic feet per second, the maps must be prepared from actual survey and must be certified to by engineer in charge of survey, in the following form:

I hereby certify that this map was prepared from an actual survey made by me.....
19..... and correctly shows position of points indicated thereon.

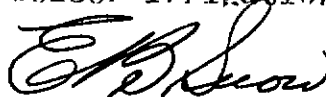

Engineer.

State Department of Reclamation,
Boise, Idaho.

Gentlemen:

Reference is made to your letter of October
27th, relative to Permit No. R-585.

The change in the number of acres was made
in order that it would conform to the exact acres
irrigated and which are assessed for the payment of
the bonds and interest occasioned by the building of
the works.

It is my purpose to submit an amended land list
as soon as I can prepare the same. You will therefore
defer the advertising until you hear further from me
and if necessary we will set the date for proof later
as there can be no special hurry in the matter.

Very truly yours,

Re: Permit No. R-585

Mr. E. B. Snow, Secretary,
Little Weiser Irrigation District,
Council, Idaho.

Dear Sir:-

We acknowledge receipt of notice for publication in connection with completion of works and beneficial use proof under Permit No. R-585; but we note that you have changed the acreage from 5,469.5 as shown in the original application and permit to 5,036.5.

If it is your desire to change your land list as previously submitted, an application for amendment, on the form enclosed, should be filed in this department prior to publication. Otherwise, it will have to be handled as decreed water rights, which would require an additional publication.

Inasmuch as you have set December 15th as the date for making this proof, it is important that you advise us promptly if an amendment is to be applied for; but if more time is needed the date can, of course, be set forward without affecting your date of priority.

Very truly yours,

Re: Permit No. R-585

Mr. E. D. Snow, Secretary,
Little Weiser Irrigation District,
Council, Idaho.

Dear Sir:-

We are this morning in receipt of Notice of Intention to make proof of Completion of Works and Beneficial Use under the above numbered permit, together with your authorization to have same published in the Adams County Leader.

However, the notice as submitted is incomplete, in that it does not set the time and place, nor the name of the Notary Public before whom the proof is to be made, neither does it designate the legal subdivisions in which the land is located.

We have, therefore, re-written the notice, so far as the land description is concerned, and are enclosing it herewith, for you to fill in the hour and date of making the proof, and also the name of the Notary Public, and the place where the proof will be made.

You will also note that we have changed the amount of water to 7800 acre feet instead of 70 second feet, in order to conform with the terms of the original application and permit.

You may set the date any time you wish, but it should be at least 40 days in advance of sending us the notice, in order to allow ample time for the four weeks publication.

Very truly yours,

JAMES SPONFORD
Commissioner of Reclamation

State Department of Reclamation,

Gentlemen:

I have to-day inspected the C. Ben Ross Dam
and find as follows:

Water level slightly less than 44 feet, which
is about 16 feet below dam top and 11 feet below spill-
way. The condition of seepage is unchanged, being
a total of exactly 1.5 inches over a 24" weir.

It is expected that the forty-five foot level
which is the same as least years high, will be reached
about May 25th.

The seepage mentioned is all discharged through
the tunnel. As heretofore there is a wet spot on the
back side of dam, but no seep more than is taken up by
evaporation. There is somewhat less moisture than a
month ago.

Before reaching the 45 foot mark as authorized
last year, myself and the directors would like to meet
with you at the dam for the purpose of inspection and
discuss the procedure of filling beyond that level.

Very truly yours,

Secretary.

Enclosed find one dollar for recording
assignment of storage permit.

Dear Mr. Wood:

Under date of December 31, 1934, the above application, to appropriate 7800 acre feet of water per annum from Little Weiser River, was filed in this department with the request that we hold it a period of 30 days and then return it to you for completion and the necessary maps.

When this application is returned to the department it must be accompanied by a tracing and blueprint showing a survey of the project with particular reference to the area to be covered by the reservoir, the point of outlet, diversion works and the number of acres in each forty acre tract to be irrigated. Inasmuch as you have been making out these applications for a good many years and are familiar with the requirements, we shall not go into detail with reference to them.
