POINT OF DIVERSION

Permit No. G-31654

Comes now Claude H. Dickey and
represent to the State Reclamation Engineer of the State of Idaho:

That he is (was) the owner and holder of Permit to appropriate the Public
waters of the State of Idaho, No. 31654.

That the point of diversion is described in said Permit as being located:

SE 1/4 of Section 6 T4N R4W

That he now requests that the point of diversion be changed to a point
located: SE 1/4 of Section 7 T4N R4W

That the reason for desiring to make such change is as follows:

I had the point of diversion to be in section 6 and it should
have been in section 7.

That no one will be injured by such change, and that such change will be made
at Permit Holder's own risk.

Signed at Weiser, this 19 day of July 1965

Dear Mr. Hickey:

In reply to your letter of May 25, 1966, according to State Statutes the maximum amount of water allowed would be 1 inch per acre unless the land is very sandy and sub-soil is gravel and water will not remain on the land. Then if the application so states that a larger amount of water is required it can be approved by the State Reclamation Engineer. Since our field man has examined the permit he feels that 1.6 c.f.s. is sufficient to irrigate your land properly.

Receipt is acknowledged for your check in the amount of \$9.00 and your water license will be forthcoming.

Very truly yours,

Dear Mr. Hickey:

Our field examiner's report on his inspection of proof of completion of works and application of water to beneficial use under the terms of Permit No. G-31654 shows the well(s) is (are) capable of conveying 80 miner's inches, or 1.6 c.f.s. However, due to the limitations of your permit, we can only allow the amount of water originally requested, the amount of water actually used beneficially, or 1 (one) miner's inch per irrigated acre.

Upon receipt of the statutory fees, totaling \$ 9.00 , we will issue the Certificate of Completion of Works for 1.6 c.f.s. and the License and Certificate of Water Right for 1.6 c.f.s. confirming the right, with priority of January 13, 1964 , to the use of subterranean water with the point of diversion in the SE 1/4 NE 1/4, Sec. 7 for irrigation of 80 acres in the E 1/2 NE 1/4, Sec. 7, T. 10 N., R. 4 W., B.M.

Re: Permit G 31654

Enclosed is a check for \$9.00 for Certificate of Completion of Works as requested and License and Certificate of Water Right. ~~Yon~~

You state above that since we originally requested the amount of 1 miner's inch per irrigated acre, that this is all we will be allowed. The reason we applied for 1 miner's inch was, I believe because upon making application we were told that this was all we could have.

(over)

Can you advise how we may apply for use of the other .6 of an
inch for beneficial use?

Re: Permit No. **G-31654**

Mr. Claude H. Hickey,
Route #4,
Weiser, Idaho.

Dear Mr. Hickey:

This acknowledges the Notice of Proof of Completion of Works and Application of water to Beneficial Use under Permit No. **G-31654**. The proofs are to be made at **10:00** o'clock A.M., on the **30th** day of **August**, 19**65**, before **D. L. Carter, Weiser, Idaho** Notary Public.

Weiser, Idaho As of this date, we have mailed the Notice to the **Weiser Signal**, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof then mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the AFFIDAVIT OF PUBLICATION.

Very truly yours,

CARL E. TAPPAN

Dear Mr. Hickey:

We received your check for \$2.00, amendment
to point of diversion and Forms 11 and 36.

You did not include the amendment to place of
use of the water.

Kindly complete the land list amendment and
return at your earliest convenience.

The \$2.00 check covers fees for both amendments.

We enclose your permit herewith which you
mailed to us.

Dear Mr. Hickey:

The field inspection shows your well is located in SE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 7 and you are irrigating 78 acres of land in E $\frac{1}{2}$ NE $\frac{1}{4}$, Sec. 7, T. 10 N., R. 4 W. Your permit shows the same land in Section 6 as well as your proofs of completion of works.

It will be necessary for you to amend the permit to show correct point of diversion and place of use of the water. Forms are enclosed. It will also be necessary for you to readvertise showing correct land descriptions.

There is a fee of \$1.00 for recording any amendment to a permit or \$2.00 for the two amendments.

Lee Thorson filed application for permit to appropriate 6.4 c.f.s. of water from a well in Sec. 18, T. 10 N., R. 4 W., B. M. on March 24, 1964, about two months after you filed.

Forms No. 3, 36 and 11 and amendment forms are enclosed.

Very truly yours,

Dear Mr. Hickey:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the WEISER AMERICAN, all submitted in proof of completion of works and beneficial use on Permit No. G-31654.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Dear Mr. Hickey:

This acknowledges the Notice of Proof of Completion of Works and Application of water to Beneficial Use under Permit No. **G-31654**. The proofs are to be made at 10:00 o'clock A.M., on the 4th day of January, 1965, before D. L. Carter, Weiser, Idaho, Notary Public.

As of this date, we have mailed the Notice to the Weiser American Weiser, Idaho, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof then mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the AFFIDAVIT OF PUBLICATION.

Dear Mr. Hickey:

We received your letter with three questions.

First: I found no recorded right to divert subterranean water in your area. Since March 25, 1963, a permit from this office for such subterranean water is necessary to obtain a right to the use the water unless the water was used beneficially at a prior date.

Second: On or prior to the time shown on the back page of your permit, you must prove completion of works and beneficial use of the water. The intention to make the proofs must be advertised. Forms will be sent to you on request. Do not try to make the proof before the water has actually been used to raise a crop.

Third: We have the well log filed by Mr. Holloway.

Very truly yours,

RALPH W. THOMAS, Deputy
State Reclamation Engineer

Dear Sir:

I am writing in regard to well permit No. G 31654, Recorded in Book 111, Page 31654, which I filed for and received this year. I wish to inquire about three things pertaining to this permit.

First: Since the completion of drilling and testing my well, a neighbor has developed an irrigation well about a half mile south of mine. Now the question has arisen in my mind as to whether this new well, or any other well in the immediate vicinity, has a priority over my permit.

Second: From time to time I note in the legal notices of our paper, intentions to published regarding the diversion of water from wells. It seems to me that these are usually city wells. In any event, I would like to know if there is any further procedure I must follow to have my well permit in proper legal status.

Third: Mr. Max Holbway, who developed my well, has presented me with a copy of the log. I trust that he has submitted an original copy to your office as requested. Please advise as to whether this has been done.

May I hear from you soon? I want to be sure this is properly executed. Thank you.

Very truly,

Claude H. Hickey

A hand-drawn map on a grid background. The map shows a rectangular area shaded with vertical lines, labeled 'WELL' with an arrow pointing to it. To the left of the well is a north arrow pointing upwards, labeled 'N'. To the right of the well, the coordinates 'Sec 6', 'T 10', and 'R 4' are written. At the bottom left, there is a permit stamp: 'Permit Map No. 8 31654', 'As Approved JAN 17 1964', 'CARL E. TAPPAN', and 'State Reclamation Engineer'.
