Dear Mr. Carson:

Pursuant to your telephone request we are forwarding an application for amendment for your use in revising the lands covered by Permit G-31199. Inasmuch as you are submitting proof of completion of works and application of water to beneficial use you will be required to publish a correction notice concerning the amendment.

We are enclosing the department's Form 11, authorization for the department to publish the notice at your expense. Please complete the amendment application, signing the application and the Form 11, returning both with a \$5.00 application fee.

We are also returning the depositions of holder inasmuch as the notary's seal is not affixed on the back of the deposition. Please have Mr. Derig complete the notarization of this document and return it.

We also notice under 6 of the holder deposition that you are claiming irrigation and stock water uses. You should be advised when this permit goes to license the only beneficial use that can be considered is irrigation as this was the only use proposed on the original application.

Your prompt attention to these matters is appreciated.
