Gentlemen:

We acknowledge receipt of the depositions and affidavit of publication in the Adams County Leader, Council, Idaho, submitted as proof of completion of works and beneficial use on Permit G-30583.

Before a certificate and license of water right can be issued, a field examination must be made by a representative from this department. We cannot tell just when this examination will be made, but our field examiner will try to contact you at the time he makes the examination so that you may show him the system.

Carl H. Swanstrom, Attorney
Box 1
Council, Idaho

Dear Mr. Swanstrom:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-30583 in the name of John A. Edwards, Council, Idaho. Final Proof is to be made before you, as Notary on the 10th day of June, 1967, ~~axx~~ ~~xxxxxx~~ at Council, Idaho.

As of this date, we have mailed the Notice to the Adams County Leader, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by the permit holder and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the time, on the date and before you, as Notary, as stated in the publication notice. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, that your Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the AFFIDAVIT OF PUBLICATION.

Very truly yours,

Gentlemen:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G- 30583 are due not later than **July 19, 1967**.

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated - - all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.

Very truly yours,

STATE RECLAMATION ENGINEER

Swanstrom & Swanstrom,
Attorneys at law,
Box 1,
Council, Idaho.

Dear Sirs:

We enclose Permit No. G-30583 in which we direct your attention to the limitations and conditions as given on the fourth page under approval of the State Reclamation Engineer.

We also enclose Departmental Receipt No. G-7184 which was issued covering payment in the amount of \$5.00 for the filing fee of the above mentioned permit. ~~has been paid to you~~

Well logs are an important part of your recorded water right and State Statutes require that well drillers' supply logs on all wells, whether irrigation, domestic, drain or stock wells, to be filed in the Department of Reclamation. In view of the rapidly increasing demand for ground water, the lowering of the ground water level, and the creation of critical ground water areas, it is important that you, as owner, make sure a log on your well is filed in this office.

Very truly yours,

GEO. N. CARTER

Attention: Roger Swanstrom

Gentlemen:

Enclosed is a supply of Form 3, Application for Permit to divert subterranean water and the application of Mr. Edwards, with attached check for \$5.00 filing fee.

The application is on a form to be used only when the source of water is above the surface.

Kindly complete a Form 3 for this application and return with the check and the two maps. We suggest that the amount claimed be increased to not less than 0.1 cubic foot per second which could cover any possible increase in production from the well. The maximum which can be claimed for the 20 acres is 0.4 c.f.s.
