Dear Mr. Fairchild:

In reviewing your proposed license for the above referenced permit, we discovered that the examiner found the well to be in the SE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 12, Twp. 13N, Rge. 4W, rather than in the NE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 12, Twp. 13N, Rge. 4W, as listed on your permit. This was missed when we sent the letter of August 29, 1978, to you.

Therefore, please complete the enclosed amendment form which will change the permit to correspond with the license and return it to this office along with the \$20.00 filing fee within 30 days in order that we might issue your license as set forth in our previous letter.

RE: Permit No. 67-2302

A representative of this Department made an examination of the works covered by your Permit No. 67-2302 on 5/26/77, and has found the following:

Amount of water that can be recognized as beneficially used under
Idaho law: 5.54 cfs Source: groundwater

The maximum quantity diverted shall not exceed 1108 acre feet per year.

Point of diversion: SE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 12, Twp. 13N, Rge. 4W.

Beneficial use: Irrigation of 277 acres within the SE $\frac{1}{4}$ SW $\frac{1}{4}$, SW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 12
W $\frac{1}{2}$ NE $\frac{1}{4}$, NW $\frac{1}{4}$, Sec. 13, Twp. 13N, Rge. 4W, B.M.

Priority date established: July 9, 1962

If you do not concur with these findings please contact us within 10 days, otherwise a water license will be issued as set forth above.

Re: Permit No. G-30570

Mr. Arthur A. Fairchild
Midvale, Idaho 83645

Dear Mr. Fairchild:

We acknowledge receipt of the depositions and affidavit of publication in the
News-Reporter submitted as proof of com-
pletion of works and beneficial use on Permit G-30570.

Before a certificate and license of water right can be issued, a field examination must be made by a representative from this department. We cannot tell just when this examination will be made, but our field examiner will try to contact you at the time he makes the examination so that you may show him the system.

Very truly yours,

Re: Permit No. G - 30570

Arthur A. Fairchild
Midvale, Idaho 83645

Dear Mr. Fairchild:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G- 30570 are due not later than July 12, 1967

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated - - all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.

Very truly yours,

STATE RECLAMATION ENGINEER

Re: Permit No. G-30570

July 19, 1962

Mr. Arthur A. Fairchild,
Midvale, Idaho.

Dear Mr. Fairchild:

We enclose Permit No. G-30570 in which we direct your attention to the limitations and conditions as given on the fourth page under approval of the State Reclamation Engineer.

We also enclose Departmental Receipt No. G-7148 which was issued covering payment in the amount of \$6.75 for the filing fee of the above mentioned permit. ~~was checked to correct~~

Well logs are an important part of your recorded water right and State Statutes require that well drillers' supply logs on all wells, whether irrigation, domestic, drain or stock wells, to be filed in the Department of Reclamation. In view of the rapidly increasing demand for ground water, the lowering of the ground water level, and the creation of critical ground water areas, it is important that you, as owner, make sure a log on your well is filed in this office.
