Re: Permit No. G-30321

Gentlemen:

The above applicant is getting ready to complete proof of works and beneficial use of water under the above permit, and would like the necessary forms therefor.

However, there is one problem in that the applicant has improved some additional lands which he wishes to apply this water to, which do not appear on the original map or original application. Can this application be amended to include these additional lands, and if so, what procedure will you require?

I would appreciate your prompt reply.
